

Appendix 2 - Informal Feedback through Council's Facebook Page

Palmerston North City Council
Published by Lisa Wilde [?] · 16 November 2017 ·

We're reviewing the city's rules for keeping keeping animals, bees, and poultry. Thank you to everyone who's already given us feedback. We've taken your comments on board and recommended some changes to our current bylaw. Now we want to know if we've got it right. Head on over to the website to find out more and have your say. <https://www.pncc.govt.nz/.../c.../animals-and-bees-bylaw-review/>

Microchipping cats is a valuable tool to reunite lost and wandering pets with their families. That's why we're recommending a change to our bylaws to make it compulsory. What do you think? Read more and have your say at <https://www.pncc.govt.nz/.../c.../animals-and-bees-bylaw-review/>

Comments

- Queried if microchipping is revenue gathering
- Question it if it is for reuniting (cats are not like dogs)
- Prefer Council \$ spent on water reservoir
- Good move for young/cats/kittens but wouldn't do it to old cat who doesn't wander
- Who is going to police?
- Who will pay for checks and facility to hold unchipped cats?
- Combine with cat curfew and all native birdlife and gardens would be safe.

You can keep stock in urban areas in Palmy, except for pigs, and as long as they don't annoy the neighbours. Do you think this rule in our animal bylaw is still OK? Find out more and have your say at <https://www.pncc.govt.nz/.../c.../animals-and-bees-bylaw-review/>

Comments

- Benefits of keeping stock – cheaper than lawnmower and droppings can back on garden
- Why no pigs?
- Can keep cow, horse, donkey but not a wee pig
- Frustrating can't keep pig on edge of town (semi-rural); surely can exercise leniency
- Restrictions on pig keeping
- Small animals fine
- What constitutes annoyance (stock in urban areas)?
- Guinea fowl should be banned from urban areas

Bees are precious and need careful management, so we'd love your feedback on the city's rules relating to keeping hives in urban areas. These are largely unchanged, but we've added a clause to reinforce the biosecurity registration requirements. Have your say at <https://www.pncc.govt.nz/.../animals-and-bees-bylaw-review/>

Cockadoodle-doo! Submissions on our recommended changes to the city's rules for keeping animals, bees and poultry close at 4pm this Thursday, 21 December.

One of the new rules we're proposing will allow people to keep roosters in Ashhurst, Bunnythorpe, Linton and Longburn (or in Palmy if you hold a permit).

If this is something you feel strongly about, we'd love to hear from you. Click through to the online submission form on our website to have your say. <https://www.pncc.govt.nz/.../animals-and-bees-bylaw-review/>

Comments

- Collection or rehoming of unwanted roosters
- Concern issue (on roosters) is being rushed through in favour of other more urgent issues e.g. water shortages
- No roosters in small towns
