ORDER OF BUSINESS

1. Apologies

2. Notification of Additional Items

   Pursuant to Sections 46A(7) and 46A(7A) of the Local Government Official Information and Meetings Act 1987, to receive the Chairperson’s explanation that specified item(s), which do not appear on the Agenda of this meeting and/or the meeting to be held with the public excluded, will be discussed.

   Any additions in accordance with Section 46A(7) must be approved by resolution with an explanation as to why they cannot be delayed until a future meeting.

   Any additions in accordance with Section 46A(7A) may be received or referred to a subsequent meeting for further discussion. No resolution, decision or recommendation can be made in respect of a minor item.

3. Declarations of Interest (if any)

   Members are reminded of their duty to give a general notice of any interest of items to be considered on this agenda and the need to declare these interests.
4. **Public Comment**

To receive comments from members of the public on matters specified on this Agenda or, if time permits, on other Committee matters.

(NOTE: If the Committee wishes to consider or discuss any issue raised that is not specified on the Agenda, other than to receive the comment made or refer it to the Chief Executive, then a resolution will need to be made in accordance with clause 2 above.)

5. **Confirmation of Minutes**

“That the minutes of the extraordinary Manawatu District/Palmerston North City Joint Strategic Planning Committee meeting of 27 March 2019 Part I Public be confirmed as a true and correct record.”

6. **Central Economic Development Agency’s Final Statement of Intent 2019/20**

Memorandum, dated 11 June 2019 presented by the General Manager, Community and Strategy, Manawatu District Council, Brent Limmer and the General Manager - Strategy & Planning, Sheryl Bryant.

7. **Regional Pathways Map**

Memorandum, dated 4 June 2019 presented by the City Planning Manager, David Murphy.

8. **Exclusion of Public**

To be moved:

“That the public be excluded from the following parts of the proceedings of this meeting listed in the table below.

The general subject of each matter to be considered while the public is excluded, the reason for passing this resolution in relation to each matter, and the specific grounds under Section 48(1) of the Local Government Official Information and Meetings Act 1987 for the passing of this resolution are as follows:
<table>
<thead>
<tr>
<th>General subject of each matter to be considered</th>
<th>Reason for passing this resolution in relation to each matter</th>
<th>Ground(s) under Section 48(1) for passing this resolution</th>
</tr>
</thead>
</table>

This resolution is made in reliance on Section 48(1)(a) of the Local Government Official Information and Meetings Act 1987 and the particular interest or interests protected by Section 6 or Section 7 of that Act which would be prejudiced by the holding of the whole or the relevant part of the proceedings of the meeting in public as stated in the above table.

Also that the persons listed below be permitted to remain after the public has been excluded for the reasons stated.

Chief Executive (Heather Shotter), Chief Financial Officer (Grant Elliott), Chief Infrastructure Officer (Tom Williams), General Manager – Strategy and Planning (Sheryl Bryant), General Manager - Community (Debbie Duncan), Chief Customer and Operating Officer (Chris Dyhrberg), General Manager - Marketing and Communications (Sacha Haskell), Sandra King (Executive Officer) because of their knowledge and ability to provide the meeting with advice on matters both from an organisation-wide context (being members of the Council’s Executive Leadership Team) and also from their specific role within the Council.

Legal Counsel (John Annabell), because of his knowledge and ability to provide the meeting with legal and procedural advice.

Committee Administrators (Penny Odell, Rachel Corser, Natalya Kushnirenko and Courtney Kibby), because of their knowledge and ability to provide the meeting with procedural advice and record the proceedings of the meeting.

[Add Council Officers], because of their knowledge and ability to assist the meeting in speaking to their report and answering questions, noting that such officer will be present at the meeting only for the item that relate to their respective report.

[Add Third Parties], because of their knowledge and ability to assist the meeting in speaking to their report/s [or other matters as specified] and answering questions, noting that such person/s will be present at the meeting only for the items that relate to their respective report/s [or matters as specified].
PALMERSTON NORTH CITY COUNCIL

Minutes of the Extraordinary Manawatu District/Palmerston North City Joint Strategic Planning Committee Meeting Part I Public, held in the Council Chamber, First Floor,, Civic Administration Building, 32 The Square, Palmerston North on 27 March 2019, commencing at 1.02pm

Members Present:
Palmerston North City Council
The Mayor (Grant Smith) (in the Chair) and Councillors Susan Baty, Jim Jefferies and Tangi Utikere.

Manawatu District Council
The Mayor (Helen Worboys) and Councillors Barbara Cameron, Shane Casey and Michael Ford.

Non Members:
Palmerston North
Councillors Rachel Bowen, Adrian Broad, Gabrielle Bundy-Cooke, Vaughan Dennison, Lorna Johnson, Karen Naylor and Duncan McCann.

Manawatu District Council
Councillors Steve Bielski and Hilary Humphrey.

Apologies:
Palmerston North City Council
Councillors Leonie Hapeta and Tangi Utikere (early departure).

Manawatu District Council
Councillor Alison Short.

1-19 Apologies
Moved Grant Smith, seconded Helen Worboys

The COMMITTEE RESOLVED

1. That the Committee receive the apologies.

2-19 Deputation - Te Awa Community Foundation

Mr Andrew McLean and Clive Pedley made a deputation on behalf of the Te Awa Community Foundation.

There were benefits that community foundations offered to regional localities in providing assurity for local organisations, who in the future may not need to fundraise. He also spoke of situations when an organisation of this nature had not existed in the region and locally designated funds were being allocated to other regions by default.
The aim of the Te Awa Community Foundation was to ensure endowed funds and donations that are volunteered were then professionally matched. This provides donors assurance that designated funds from the likes of gifts and wills were donated to the specific causes that they were intended.

There were three events planned for next week to support the launch involving varying groups within the community and special guest Sir Stephen Tindall of the Community Fund.

Councillor Tangi Utikere left the meeting at 1.26 pm.

Moved Grant Smith, seconded Helen Worboys

The COMMITTEE RESOLVED

1. That the Manawatu District/Palmerston North City Joint Strategic Planning Committee receive the deputation for information.

3-19 Deputation - Gravel and Tar

Mr Steve Stannard and Colleen Sheldon made a deputation about the success of the recent Gravel and Tar event held in January 2019.

Mr Stannard canvassed the event’s recognition on an international level, noting that footage had been available on the Global Cycling Network’s YouTube channel which had close to 2 million international subscribers. He highlighted that this puts Palmerston North and the region on the map and in a fantastic light.

He spoke of the fact that this is only one event in three around the world that offers a similar level of prize money. The event had doubled in size and had both regional and international interest. The women’s event could possibly be set to double next year.

The event also ran a “Slicks and Stones” fun ride which utilised the same course and roads of Manawatu as the professionals. It had brought people in from other regions including Auckland.

The next event is scheduled for January 2020 and set to be a more accommodating date for other regions during the holiday period. Gravel and Tar would aim to hold same events with community and business involvement.

Gravel and Tar acknowledged the support of Manawatu District Council and Palmerston North City Council for their enthusiasm and financial assistance to the successful event that brings international visitors as well as from other regions.
Moved Grant Smith, seconded Michael Ford

The COMMITTEE RESOLVED

1. That the Manawatu District/Palmerston North City Joint Strategic Planning Committee receive the deputation for information.

4-19 Confirmation of Minutes

Moved Grant Smith, seconded Helen Worboys

The COMMITTEE RESOLVED

1. That the minutes of the extraordinary Manawatu District/Palmerston North City Joint Strategic Planning Committee meeting of 12 December 2018 Part I Public and Part II Confidential be confirmed as a true and correct record.

5-19 Presentation of the Central Economic Development Agency’s Half-Yearly Report to 31 December 2018

Memorandum, dated 10 March 2019 presented by the General Manager - Strategy & Planning, Sheryl Bryant and the General Manager, Community and Strategy, Manawatu District Council, Brent Limmer.

Moved Grant Smith, seconded Helen Worboys

The COMMITTEE RESOLVED

1. That the presentation of the Central Economic Development Agency’s Half-Yearly Report to 31 December 2018 be received.

6-19 Presentation of the Letter of Expectations 2019/20

Memorandum, dated 10 March 2019 presented by the General Manager - Strategy & Planning, Sheryl Bryant and the General Manager, Community and Strategy, Manawatu District Council, Brent Limmer.

Moved Grant Smith, seconded Susan Baty.

The COMMITTEE RESOLVED

1. That the Letter of Expectation for 2019/20 be adopted.
7-19 Presentation of the Central Economic Development Agency’s Draft Statement of Intent 2019/20

Memorandum, dated 10 March 2019 presented by the General Manager - Strategy & Planning, Sheryl Bryant and the General Manager, Community and Strategy, Manawatu District Council, Brent Limmer.

Adrian Broad left the meeting at 2.06pm.

Moved Grant Smith, seconded Shane Casey

The COMMITTEE RESOLVED

1. That the Central Economic Development Agency’s Draft Statement of Intent 2019/20 be received for information and that the following comments be conveyed to the CEDA Board for consideration in finalising their Statement of Intent:
   - the Financial Performance showing projected deficits be reviewed by the Chief Executive’s in conjunction with the CEDA Board
   - the regional identity not proceed ahead of the finalised investment, labour market and visitor strategies are adopted to ensure the regional identity supports these strategies.

The meeting finished at 2.11pm

Confirmed 19 June 2019

Chairperson
MEMORANDUM

TO: Manawatu District/Palmerston North City Joint Strategic Planning Committee

MEETING DATE: 19 June 2019

TITLE: Central Economic Development Agency’s Final Statement of Intent 2019/20

DATE: 11 June 2019

PRESENTED BY: Brent Limmer, General Manager, Community and Strategy, Manawatu District Council, -
Sheryl Bryant, General Manager - Strategy & Planning, Strategy & Planning

APPROVED BY: Sheryl Bryant, General Manager - Strategy & Planning

RECOMMENDATION(S) TO COMMITTEE

1. That the Central Economic Development Agency’s Final Statement of Intent 2019/20 be agreed.

1. ISSUE

The Central Economic Development Agency (CEDA), as a Council Controlled Organisation, is required to deliver to the shareholders its final Statement of Intent (SOI) on or before 30 June, having considered any shareholders’ comments on the draft SOI. The final SOI is attached for either agreement or modification.

Under the Local Government Act 2002, Section 65 (2) states that:

“A local authority must, as soon as practicable after a statement of intent of a council controlled organisation is delivered to it,—

(a) agree to the statement of intent; or

(b) if it does not agree, take all practicable steps under clause 5 of Schedule 8 to require the statement of intent to be modified.”
2. **BACKGROUND**

At its March 2019, the Committee considered the draft SOI. It requested CEDA to consider the following comments in finalising the SOI:

- the Financial Performance showing projected deficits be reviewed by the Chief Executives in conjunction with the CEDA Board
- the regional identity not proceed ahead of the finalised investment, labour market and visitor strategies are adopted to ensure the regional identity supports these strategies.

In considering whether the SOI is agreed or modified, the Committee must be satisfied that the comments conveyed to the CEDA Board have been considered and reflected in the final SOI.

The financial performance has been reviewed to ensure the budget accurately reflects the services CEDA is required to deliver. It should be noted the budget has taken into account the transfer of i-SITE services back to the Councils to enable CEDA to focus on its strategic priorities as set out in the Letter of Expectations from the Councils. There is a slight difference of $4,000 between the budget and what is in the Councils’ Annual Plans. The latter will be the grant paid to CEDA.

The following statement in the SOI reflects the intent that the regional identity will not be proceeding ahead of the investment, labour market and visitor strategies: “Our target audiences include prospective investors, students and education agents, new and current businesses, potential residents, current residents (ambassadors), and visitors. Profiling the region is an enabler of the strategic plans for Inward Investment, Visitor Sector, Talent Attraction and Retention, Regional International Education and more.”

3. **NEXT STEPS**

If the Committee is not satisfied that its comments have been considered, it has the ability to modify the SOI. In so doing, it would need to have regard to the Local Government Act 2002, Schedule 8, clause 5, which states:

“(1) Despite any other provision of the Act or of the constitution of any council-controlled organisation, the shareholders of a council-controlled organisation may, by resolution, require the board to modify the statement of intent by including or omitting any provision or provisions of the kind referred to in clause 9(1)(a) to (i), and any board to whom notice of the resolution is given must comply with the resolution.

(2) Before giving notice of the resolution to the board, the shareholders must consult the board concerned as to the matters to be referred to in the notice.”
This means that any resolution to modify the final SOI, must be subject to consultation with the Board. Once consultation has occurred, the final SOI will be presented back to the September Committee meeting with the resolution to modify. The modified SOI will become the final SOI.

If the Committee is satisfied that its comments have been considered, then the next step is for the Committee to agree to the SOI. This is the recommended action.

4. COMPLIANCE AND ADMINISTRATION

| Does the Committee have delegated authority to decide? | Yes |
| Are the decisions significant? | No |
| If they are significant do they affect land or a body of water? | No |
| Can this decision only be made through a 10 Year Plan? | No |
| Does this decision require consultation through the Special Consultative procedure? | No |
| Is there funding in the current Annual Plan for these actions? | Yes |
| Are the recommendations inconsistent with any of Council’s policies or plans? | No |

| Contribution to strategic direction | This report contributes to the constitutional purpose of CEDA, being driving and facilitating the creation and growth of economic wealth in the Manawatu region and beyond. |

Legal Status
Central Economic Development Agency Limited ("CEDA") was incorporated in New Zealand on 15 October 2015 under the Companies Act 1993 (NZBN 9429042001096). As the shareholders of CEDA are Palmerston North City Council (50%) and Manawatu District Council (50%) CEDA is a Council Controlled Organisation as defined in section 6 of the Local Government Act 2002.
Foreword

This Statement of Intent sets out the Central Economic Development Agency’s (CEDA) strategic framework, activities and performance outlook in order to deliver on our role of driving and facilitating economic growth and wealth creation for the Manawatū region.

Our aim for 2018/19 was to build upon the strong foundation we put in place in our first full year of operation. The focus on building our internal capability and capacity enabled us to begin to tackle some of the big issues that have constrained our region over the years; our identity and sense of regional pride, our labour market and our ability to attract the skills and talent we need; our success in attracting investment into our region, and to position Manawatū as a destination of choice for visitors.

This Statement of Intent outlines our work programmes for the year ahead; building on our 2018/19 achievements, continuing our long-term strategic projects, yet while maintaining enough capacity to take advantage of new opportunities and meet new challenges.

“We are clear on our purpose, and the role we play in supporting our shareholders to create and enable opportunities for employment and business growth, the diversification of our economy, and to support a culture that is future focused and innovative. Our three core work streams and goals of attracting national and international investment, the retention and expansion of business in the region, and developing a talent pipeline, drive our activities and the outcomes we aim to achieve.

To reach our goals requires investment. Our financial forecasts for the next three years show a budgeted deficit which is due to increased spend on our long-term strategic projects. This deficit will be covered by funds on hand from retained earnings.

The nature of economic development requires strategic thinking, long term focus, partnerships and collaboration – which will be our priority over the coming year.

CEDA acknowledges the ongoing support of Palmerston North City Council and Manawatū District Council, and partnerships with key stakeholders in the region including Massey University, UCOL, The Factory, FoodHQ, Talent Central, the National Driver Training Centre, and local iwi in achieving successful outcomes for the region.

Malcolm Bailey
Chairperson
Purpose of the Statement of Intent

This Statement of Intent is presented by Central Economic Development Agency Limited (CEDA) in accordance with the requirements of Section 64(1) of the Local Government Act 2002 (LGA 2002).

In accordance with the Local Government Act 2002, this annual Statement of Intent publicly states the activities and intentions of CEDA for the next three years, and the objectives to which those activities will contribute.

This Statement of Intent takes the shareholder letter of expectation comments into consideration and includes performance measures and targets as the basis of organisational accountability.
About CEDA

The Central Economic Development Agency (CEDA) was incorporated with the Companies Office in October 2015 and began full operations in September 2016. CEDA is a Council Controlled Organisation jointly owned by the Palmerston North City Council and the Manawatu District Council.

CEDA’s Purpose
To drive and facilitate the creation and growth of economic wealth for Manawatu and beyond.

CEDA’s Constitution Objectives
(a) The principal objectives of the Company are to achieve the objectives of the shareholders, both commercial and non-commercial as specified from time to time in the Statement of Intent and, in particular, to drive and facilitate the creation and growth of economic wealth for Manawatu and beyond;
(b) be a good employer;
(c) exhibit a sense of social and environmental responsibility by having regard to the interests of the community in which the Company operates and by endeavouring to accommodate or encourage these when reasonably able to do so.

CEDA’s Structure and Governance
The Board of up to seven (currently six) independent directors is responsible for the strategic direction and control of CEDA’s activities.

The Board guides and monitors the business and affairs of CEDA, in accordance with the Companies Act 1993, the Local Government Act 2002, the Company’s Constitution and this Statement of Intent.

The Board’s approach to governance is to adopt “good practice” with respect to:
• the operation and performance of the Board
• managing the relationship with the Chief Executive
• being accountable to all shareholders and reporting to the Joint Strategic Planning Committee of Manawatu District Council and Palmerston North City Council

The Chief Executive is responsible for the day-to-day operations of CEDA, engaging and oversight of staff and reporting to the directors on performance against CEDA’s objectives.
Our Vision

Manawatū 2025; New Zealand’s most progressive province

Our vision is bold and purposefully so, it encompasses the ambitions of both our shareholder Councils. It requires our region to move from comfortable to ambitious, from reactive to future focussed, and to move with an increased cadence and sense of resolve. We believe that Manawatū has the leadership and the ingredients to position itself on the national stage - a vibrant and innovative region that will be first choice for talent, business and investment.

Three key indicators that show we are on our way to achieving this vision are:

- Manawatū is recognised as one of the top three agrihubs in the world
- Manawatū is renowned for its exceptional lifestyle, competitive advantages, and is a magnet for investment, business and talent
- Manawatū is a leading distribution hub, and leverages off its role in central New Zealand

To achieve this vision CEDA must work in partnership with our shareholders, central government, Māori, local iwi, industry and other regional stakeholders - it cannot be achieved alone.
Our Strategic Objectives

Powering our progress; achieving the vision

CEDA works across three strategic pillars of economic development; People, Place and Business, and our success is underpinned and enabled by the strength of our relationships with regional and national partners. Our core objectives, programmes and activities are all aligned to these pillars, and are designed to create the environment, stimulate outcomes and impact that will power our economic prosperity and achieve our vision for Palmerston North city and Manawatū district.

These key objectives guide the development of the short and medium-term programmes of work for CEDA as articulated through this Statement of Intent for 2019/20.

When considering how to prioritise our efforts, and based on our current resources and functions, CEDA focuses on programmes and activities that offer the greatest opportunities for economic growth.

These are identified through research, monitored and reviewed using the latest data, and viewed through a regional, national and international lens.
What We Do
Attract, retain and develop talent in the region

We know that the biggest barrier to business growth is access to the right talent and skills; to retain and develop those that we have, as well as attracting more. We also know that we’re in a global competition for talent, so the importance of having a strategic and targeted approach has never been more important.

Develop the talent pipeline to grow a skilled workforce and better utilise the existing labour market.

Regional Skills Gaps – addressing the challenges

Our regional skills gap analysis research clearly identified that the labour market in our region is constrained across a number of sectors, and more specifically, in particular qualifications, skills and roles. We will be using this data to inform the development of a holistic and integrated talent attraction and retention strategy that will focus efforts on five different types of activities;

- Talent attraction
- Talent reception
- Talent integration
- Talent reputation
- Management of the ecosystem

It is important to acknowledge that this is a multi-stakeholder ecosystem, so the development and implementation will be done in partnership with members of the business community, our local councils, central government including agencies like the Ministry of Business, Innovation and Employment, Immigration New Zealand, Education New Zealand, and Ministry of Social Development, as well as our regional government partners, like Accelerate25, Te Pau Tawhiti and our education institutions. CEDA will seek to establish a working cluster that will ensure we’re across the challenges, opportunities and trends of talent attraction into our region while also driving a collaborative and cohesive approach to communicating the region’s strengths and profiling success stories of new residents to the region through video and digital channels. The Regional Identity will form a core part of this work, as we look to target the right talent to our sectors of strength, along with educating and inspiring our locals to be ambassadors for their region, building on the city and district’s unique value propositions. Building on ManawatuNZ.co.nz, CEDA will work with stakeholders to ensure there are strong resources available to support recruitment initiatives.

Our Regional Partnership Agreement with the Ministry of Business Innovation and Employment will continue to be used to provide an additional lever to connect businesses with the international talent and skills they need via immigration to meet immediate skills pressures in the short term.

Developing the skills in our region and supporting job opportunity connections

It’s not just about attracting more people to our region, it’s about developing the talent and skills that are already here, supporting them to enter the job market, to grow their career, or even to change careers.

Our region is facing a period of significant economic growth, driven largely by the investment in infrastructure by central government, and substantial commercial investment. We are acutely aware that our already stretched labour market will face further pressure to meet the supply of skilled civil construction workers, drivers, engineers, and tradespeople, which is why our partnerships with the National Driver Training Centre and
Talent Central are critically important. Through the Accelerate25 Talent and Skills committee, we are supporting the establishment and development of an employment hub – designed to connect those seeking training and employment in distribution, logistics, and civil construction with a workplace brokering service – connecting and matching them to employers with vacant positions who can provide them with the training and support they need to progress in these industries.

As part ofCEDA’s commitment to connect and inspire our community on the career opportunities that lie within our region, the Sort It Careers Expo (the Expo) provides access and exposure to a broad range of career options and the pathways needed to get there, while highlighting the regions sectors of strength and the career options within them.

The Expo aims to encourage secondary school students, those returning to work or newly relocated to the region, and those looking for a change of direction to explore the different types of skills and positions available to them by engaging with the industries and businesses directly. For many, this can fuel or re-ignite a passion for their current or future career pathways.

Looking ahead to the 2020 Expo, CEDA will ensure that our region’s Sectors of Strength and the skills gaps within these are better integrated, as well as looking at the year-round engagement programme to complement and extend the Expo, exploring digital platforms and ensuring alignment with the regions medium to long term talent needs and skills shortages.

Understanding the Future of Work and preparing our region for change

New and disruptive technology has arrived, with more on the way, our ways of working are changing, job demand is shifting, as are skills and aptitudes. These are just some of the challenges and opportunities our industry sectors, business and education sectors face when considering the employee, workplace and skills of the future. These changing needs are much talked about, but not well understood at a practical level. As a region we need to better understand the challenges and opportunities, the possible impacts on our sectors of strength and therefore our economy so we are prepared and ahead of the changes as they hit our work force.

Working in partnership with Massey University, UCOL, and our business community, CEDA will lead the development of a Future of Work project, so that as a region we can better understand what skills we will all need for our future prosperity.

The profiling and opportunity brought by showcasing leaders connected to the Manawatū is at the heart of Te Aho Tāmaka. Through Te Aho Tāmaka, we will profile and connect Manawatū’s most illustrious leaders across all fields – academia, business, arts, sport, culture, technology, theology and more, building a global network of leaders and advocates whose journeys are connected to Palmerston North city and Manawatū district.

This programme will provide platforms and engagements where the skills, knowledge and contributions of these leaders can be absorbed by others. This could be through speaking engagements, workshops, business mentoring, innovation support, internships or even investment. Te Aho Tāmaka will position, energise and develop Manawatū by highlighting what is on offer here, what can be achieved, and by introducing some of these leaders to the collaborative and investment opportunities that exist in our region.
ITEM 6 - ATTACHMENT 1

Deliver information, advice, programmes and initiatives to attract more international students to the region.

Increase the value of international students in the region

Through the implementation of the Regional International Education Strategy 2016-2020, CEDA supports the region’s schools and tertiary providers to increase the number of international students studying here and the economic value that they add to the city and district. In partnership with Education New Zealand, CEDA will drive collaborative activities in the priority target market of China and identify other potential markets for development. Through CEDA’s work to profile the region, we will provide marketing and communications support to help institutions profile the region’s strengths and benefits through consistent and powerful messaging.

Enhance the experience of international students

To further enhance the desirability of Palmerston North and Manawatu as a study destination, CEDA works alongside education institutions, Palmerston North City Council and other key stakeholders to identify opportunities to help integrate international students into the local community.

Increase the employability of international students

Employability and Pathways to Employment is an initiative designed to make Palmerston North city and Manawatu district a more attractive place to study. In partnership with Talent Central, the Manawatu Chamber of Commerce, Education New Zealand and Ministry of Business, Innovation and Employment, CEDA will identify regional skills gaps, help international tertiary students become more employable and identify opportunities for increased pathways into local employment.
Attract, retain and develop business and investment in the region

Attracting and retaining business and investment in the region is at the core of economic development. Our city and district have a strong competitive edge: a central location, comparatively affordable land and development costs, a diverse labour pool, and a growing culture of innovation and entrepreneurship. Manawatū is well positioned to begin to actively promote itself as an attractive, investment ready destination both in New Zealand and offshore.

Support our sectors of strength to grow through targeted business development actions, retention initiatives and activities

Support opportunities for growth

Visitor Strategy

This strategy was developed in 2018/19 in partnership with Palmerston North City Council, Manawatū District Council, local iwi and key visitor industry stakeholders, creating a shared vision and goals for the visitor sector through to 2026. This year, led by CEDA, the strategy moves into implementation, with each stakeholder taking responsibility for their part in delivering to our goals. We are focused on the destination marketing activities, including the roll out of the Regional Identity project, the continued development of The Country Road programme, cluster and operator development, trade and industry partnerships and our core functions as the Regional Tourism Organisation for Palmerston North and Manawatū.

This joined up and cohesive approach to managing the growth of the visitor sector in our region will enable us to leverage and target investment into the region through central government funding channels, such as the Tourism Infrastructure Fund and Provincial Growth Fund, as well as commercial investors. Our work to date in leading the ‘Transforming Ta Apli’ project clearly demonstrates the benefits of well researched and presented business cases and action plans to strengthen the case for funding and investment.

Agritech Strategy

With a history of innovation in agritech products and services, Manawatū will strategically build on the sectors strengths to position ourselves as world-leading agritech hub, establishing ourselves as a source of expertise grounded in New Zealand, with international profile and opportunities.

CEDA will lead the implementation of an agritech strategy with our key partners The Factory, and Sprout. With agritech a key feature in our city’s strategic plans and agribusiness for our district, CEDA is well positioned to implement and drive a strategy to grow our region’s reputation as a national and global source of agritech expertise.

Our collaborative partnerships with Sprout Accelerator, The Factory and FoodHQ ensure we can provide access to global expertise, accelerator programmes such as Innovate, and to research and development funding avenues and support of agritech businesses and innovators in the region.

NZ AgriFood Week and Pint of Science

New Zealand AgriFood Week sits at the intersection of agriculture, food and technology, and celebrates and discusses the future of
food. Bringing together industry leaders and experts with the next generation of leaders and talent, the week-long event hosted in Manawatū celebrates the strengths of Manawatū and profiles our region as a centre of agribusiness excellence and innovation, adding to New Zealand’s position as a leader in high value global food production. Stakeholders and partners include ASB, AgResearch, Fonterra, Plant and Food Research, Food HQ, New Zealand Trade and Enterprise, the Riddet Institute and more.

CEDA is the National Director of Pint of Science New Zealand, a science programme aimed at communicating and connecting a new audience with futuristic thinking and the latest discoveries in science, through an internationally coordinated festival. Internationally successful, Pint of Science could become a major national event, within New Zealand. Aligned with New Zealand Agrifood Week, the Pint of Science events further underpin our region’s leadership in the national agriculture scene.

Develop and grow business

CEDA delivers the Regional Business Partners Programme on behalf of New Zealand Trade and Enterprise, Callaghan Innovation and Business Mentors New Zealand.

Working across the Manawatū-Whanganui region in partnership with local authorities and economic development partners, CEDA brings support to businesses to help them grow and develop sustainably, invest in research and development, while connecting them to the right experts, tools and information, with access to capability development via shared funding with key service providers. The Regional Business Partners Network enables CEDA to work closely with central government to ensure businesses have access to high quality and practical business mentoring services, targeted and strategic co-funding schemes aimed at capability development, and research and development assistance that helps to convert ideas into innovation.

CEDA also provides general business advice and support; from those looking to start up a business through to more established businesses across all sectors of our economy including opportunities for Māori business.

As part of our work as the Regional Tourism Organisation for Manawatū CEDA works closely with operators in the visitor sector to ensure they have access to the right marketing tools, the skills and information needed to create their online presence, and support to form connections with national organisations.
Further to this CEDA works to connect and facilitate relationships and expertise through a wide range of initiatives throughout the region, including Accelerate25, and the Provincial Growth Fund. Providing this support ensures our region is coordinated and effective to make the most of these opportunities, and others, such as the Green Fund, Poutarua Investments, the Tourism Infrastructure Fund and more.

**Facilitate access to specialist innovation, business development and start up expertise**

Entrepreneurs, new ideas and fresh business ventures are essential to our economic growth and diversity, and CEDA provides people with information, support and advice to get business ideas off the ground and improve their chances of success.

Through the delivery of start-up clinics and innovation support CEDA helps to get people informed, connects ideas to people in the right regional or national organisations, including The Factory, our local business incubator, and the Manawatu Chamber of Commerce.

Our partnership with The Factory ensures a strong connection with the innovation and entrepreneurial centre of our region and developing a healthy and growing referral pipeline between our two organisations is key to supporting businesses in our region to scale up. CEDA also supports their global accelerator programme Sprout which grows the next generation of agrifood and agri-tech startups, and the Innovate programme that helps turn ideas or innovative start ups into investment ready businesses.

Through the Regional Business Partner Network we can provide research and development assistance by facilitating access to grants and expertise through Callaghan Innovation, Massey University and Crown Research Institutes.

**Attract business and investment to the region**

**Inward Investment Strategy Implementation**

Building on the development of Manawatu’s Inward investment strategy and implementation plan in 2018/19, CEDA will now move into the delivery phase, driving the profile of our region nationally and internationally through the development of a regional investment profile. This will be produced in partnership with our shareholders, regional stakeholders and partners New Zealand Trade and Enterprise, and relevant commercial parties, and will be focused on promoting our sectors of strength, our innovation culture, and our diverse talent and skills. Additionally, investment opportunities will be identified, and specific support provided to these to develop their investment readiness and then better connect them to national and international investors.

CEDA will continue to leverage our relationships with central government, with an emphasis on the Ministry of Business, Innovation and Employment and the Provincial Development Unit, New Zealand Trade and Enterprise, Callaghan Innovation and Immigration New Zealand, as well as other regional influencers including our education institutions, Accelerate25, Te Pae Tawahi and Manawatu Chamber of Commerce to seek out and target prospective investors and business relocation opportunities.

**Attraction of Conferences and Business Events**

The attraction of conference and business events to Palmerston North city and Manawatu district works to profile our region as a great place to do business, adds significant economic benefit, and builds connections with national organisations. CEDA is focused on targeting conferences and business events within our sectors of strength, while remaining agile to ensure we can identify and respond to opportunities as they arise, with the aim of growing our national share of business events.

CEDA proactively sources opportunities for potential conference and business events, leading the production of proposals and supporting local organisations with their bids. We aim to ensure effective information sharing with business event stakeholders and organisations throughout the region to maximise our collective opportunities. CEDA will actively drive venues to sign up to the Conventions Activity Survey (CAS Report) to improve the region’s profile when it comes to the data and benchmarking that takes place nationally in this sector, thereby providing clearer insights to inform future investment and investment attraction into this sector in our region.
Profile the region to attract people, business and investment

Raising the profile of the region to highlight our strengths, our people and our places through targeted storytelling and partnerships will ensure Palmerston North city and Manawatū district are known for their distinctive and compelling proposition and benefits. CEDA will lead the narrative of the city and district through the Regional Identity which will underpin our work across people, place and business and will enable us to target key audiences under one consistent rhetoric – dialed up or down to meet the needs of each target audience.

Profile Palmerston North city and Manawatū district locally, nationally and globally

In our role as the Regional Tourism Organisation for Palmerston North city Manawatū district, CEDA works with key national organisations including Tourism New Zealand, New Zealand Motor Caravan Association, Air New Zealand and more to ensure we’re maximising our relationships and opportunities as a region while establishing Manawatū as a desirable destination, and ensuring we’re well equipped as a region to offer a welcoming and memorable visitor experience. With a fast-growing visitor sector in Manawatū, CEDA works with regional tourism operators to provide support, marketing tools and market insights through the CEDA Resource Hub, workshops and communications.

Events make a positive contribution to our region by building vibrancy, enhancing the visitor experience and growing economic value. Through CEDA’s established digital channels and media partnerships, we work to leverage the opportunities that major events in the city and district provide, showcasing Manawatū to visitors to encourage longer stays and repeat visitation.

Supporting key events through our marketing works to ensure the region is profiled for its vibrancy and its variety of events and activities. CEDA’s digital channels of Facebook, ManawatūNZ.co.nz and eNewsletters, along with our partnerships with local and national media, means we can target potential residents and visitors, as well as local audiences to help ensure that our communities have easy access to event information, activity ideas and more – creating positive local advocates for our city and district. CEDA’s partnership with Eventfinder.co.nz helps drive our region’s online profile in the event space, and our work in assisting event organisers and their connections to get their events listed on this platform helps to ensure that the breadth of events taking place in our region is fully promoted.

Lead and develop stories of Manawatū

Profiling the region cannot be achieved by CEDA alone, so our shareholders, local iwi and stakeholders are crucial in both the development and the communication of a narrative, to ensure consistency as we collectively build momentum and awareness of the city, district and region.

Our target audiences include prospective investors, students and education agents, new and current businesses, potential residents, current residents (ambassadors), and visitors. Profiling the region is an enabling of the strategic plans for Inward Investment, Visitor Sector, Talent Attraction and Retention, Regional International Education and more.
Regional marketing and profile cannot happen without a cohesive identity, which clearly highlights Palmerston North city and Manawatu district’s unique value proposition. The Regional Identity will sit within all CEDA’s domestic and international marketing and communications, including all traditional and digital marketing, storytelling, and content creation.

Lead the creation of regional content

Our work with local, national and international media ensures a strong and consistent regional presence across all traditional and digital channels. This is driven from our social media channels and the digital platforms of ceda.nz and the regional website ManawatuNZ.co.nz. Through these platforms CEDA can effectively manage and profile the region’s strengths to attract talent and investment to the region, showcase lifestyle advantages, tell our region’s story and build increased awareness of the breadth of what Palmerston North and Manawatu has to offer. CEDA will leverage existing media relationships and proactively pitch stories and features to national and local media organisations and publications.

Grow engagement on digital platforms to increase awareness and promotion of the region

Digital marketing plays a key role in connecting with our main audiences and spreading our Regional Identity message across multiple platforms, from our regional social media channels and the regional website ManawatuNZ.co.nz, through to partner websites and national platforms.

CEDA will develop a media library of high-quality content, video and imagery to ensure that stakeholders, partners and the community can access and use these tools to profile the region on a local, national and global stage. The messaging and tone, imagery, campaign work, digital presence and every touch point we have going forward, will support our on-going work to profile the region’s distinctive and compelling proposition, including CEDA’s work in International Education and through the Inward Investment Strategy. Regional Identity guidelines will allow partners and the wider community to access this information to enhance their own organisations and businesses and support key regional messaging.
Lead inclusive and sustainable economic development for the Region

Underpinning everything we do is relationships and partnerships, with key regional and national stakeholders, central and local government, Māori and iwi. We take the lead on ensuring a cohesive approach across Palmerston North city and Manawatū district, harnessing our collective capabilities to achieve the vision and goals of the region.

Develop strategic partner relationships, leveraging opportunities

Strategic partnerships

Collaboration and partnerships are critical to ensuring the best outcomes for the city and district, and CEDA’s role in bringing our diverse stakeholders into one conversation, steering others in the same direction, and co-ordinating our region’s collective capability is key to achieving the vision and goals for the region.

We’re here to ask the hard questions about economic growth and challenge stakeholders to deliver on a broader sense of economic, social, cultural and environmental wealth.

While responsible for the prosperity of Palmerston North city and Manawatū district, CEDA holds strategic relationships with other regions and national organisations, as, to achieve success and growth in a local, national and global market, partnerships are crucial to leveraging opportunities.

Our work with businesses that identify as Māori continues to grow via our Regional Business Partners Network, and our focus is to build on this through the implementation of our Māori sector development plan. This will include working with key organisations to support the activation of Māori entrepreneurial and business planning skills.

CEDA will continue to work collaboratively with regional iwi through our strategic projects including the Regional Identity development, the Visitor Strategy and the Transforming Te Apiti Initiative.

Data and Insights

CEDA are the experts for insights and data on the local economy and national trends across priority sectors including the visitor economy. We keep our finger on the pulse through research and partnerships that enable us to better understand the strengths our region can build on, the weaknesses we can improve on and barriers we can bring down. We have a crucial role in enabling the coordination, connection and delivery of outcomes by striving for the transparency and alignment of the many economic development projects and initiatives that are underway or are planned across our region.

We work with national agencies including MarketView, Infometrics, and Ministry of Business, Innovation and Employment to provide the latest information from the visitor and retail sectors, our sectors of strength and key growth indicators such as GDP, population, house prices, consents, visitor spend and more. These relationships ensure CEDA has a voice in the discussions for addressing and future proofing the data gaps that we face as a region, and in key sectors including the visitor sector.
All of CEDA’s areas of work are underpinned with data and insight, to ensure smart investment of resources, funds and expertise, enabling us to achieve high impact results for our region.

Business Community Research
In 2016 we undertook research within the business community, seeking to understand their views on the opportunities and barriers to business growth in Maniwa. Three years on we will be repeating this research via an independent agency; measuring the pulse of our business community and identifying what has changed since our original benchmark. This research will serve to inform our work programme and initiatives into the future.

Quarterly economic updates provided in conjunction with shareholders
Working closely with Palmerston North City and Manawanui District Council’s economists and key industry leaders to provide context, analysis and commentary around how the region’s economy is performing. CEDA communicates and publishes this information on a quarterly and annual basis to enable businesses and our communities to better understand what’s happening in the local economy, with the latest information on the retail and visitor sectors, our sectors of strength as well as wider growth indicators for the regional economy.

Economic Update Events
Providing comprehensive regional data and insights is crucial to help businesses, investors and residents make informed decisions and provide an easy to understand overview of the region’s economy, from the drivers through to the barriers of growth. CEDA will host public forums twice yearly to deep dive into economic trends, challenges and opportunities for Palmerston North city, Manawatu district and beyond, working in partnership with our local stakeholders to inform and better equip our decision makers and influencers.

Nāku te rourou nāu te Rourou ka ora ai te iwi
With my basket and yours, the people will thrive
How We Operate

In keeping with best management practice, CEDA aims to operate efficiently and effectively using continual improvement practices. As a future-focused organisation we are committed to supporting initiatives that enhance and protect our natural and built environment.

CEDA will regularly review its internal processes, improving practices, removing duplication, and finding efficiencies. Continuous review of processes will ensure CEDA has enough working capital to fulfill any project or service commitments and contribute to delivery on regional growth opportunities identified.

As a Council Controlled Organisation (CCO), CEDA is also aware that much of its funding is derived from public monies and therefore all expenditure should be subject to a standard of probity and financial prudence that is to be expected of a CCO and be able to withstand public scrutiny. CEDA recognises the principles of the Treaty of Waitangi and acknowledges the importance of partnering with local iwi and recognition of Tangata Whenua in the region.

Working Sustainably

As part of CEDA’s drive to be a sustainable business, we have signed up to the Sustainability Commitment, via Tourism Industry Aotearoa, to expand on the initiatives that are already underway in our organisation. The commitment covers four pillars of sustainability: economic, visitor, host community and environmental sustainability. CEDA is committed to continually explore areas we could improve on and opportunities we can commit to. Alongside this internal focus, CEDA will proactively encourage tourism operators and businesses to understand the commitment and sign up.

Our Funding

CEDA receives funding from Palmerston North City Council and Manawatu District Council, its shareholders, in the form of contributions to operations as well as funds for specific contractual services or projects.

CEDA also receives funding from institutions and government partners for initiatives that bring benefit to the wider region and nationally. This additional funding enables CEDA to have additional resource, the ability to invest in local businesses, and engage in specific sector work important to the region and beyond.

Specific funding is received from commercial organisations for sponsorship of programmes and joint projects as identified.

Health and Safety

CEDA regards the promotion and maintenance of health and safety as a mutual objective for everyone who works, visits, or has business with CEDA. CEDA is committed to the health and safety of all workers, visitors and the public across all business premises and work sites by undertaking all measures reasonably practicable to provide a safe working environment. CEDA believes that creating and maintaining a healthy work environment is a shared, co-operative venture, where both employees and employers have roles and responsibilities, including the maintenance of a balance between work and non-work activities.

As such, CEDA will ensure it meets its obligations with respect to New Zealand laws and regulations and will undertake annual reviews based on established best practice guidelines.

As the region’s Regional Tourism Organisation, CEDA will ensure that its consumer communications and channels convey the appropriate health and safety messaging.

Our People

We are a team of thought leaders, subject matter experts, and doers, working together with a united purpose – prosperity for all our communities.

CEDA’s focus is on building an organisation that has the culture, capacity and capability to deliver on our expectations to grow and develop the wider region. With expertise in business development, education and talent development, trade relations, marketing,'
communications, and events, collectively we are the leadership team to effectively connect and work with stakeholders to drive regional economic development.

CEDA’s success is underpinned by its people, connections and networks locally and globally, and investment in this resource is critical to creating value and outcomes.

**Our Values**

Our values, when demonstrated every day, help to change individual and collective mindsets so that we can all deliver great outcomes and create a workplace in which people feel valued for delivering results.

- **Together we can achieve more**
- **Believe in what you do and how you do it**
- **Be proud and take ownership**

**OUR PURPOSE**

Drive and facilitate the creation and growth of economic wealth in Manawatū and beyond

- **Naku te rourou naku te rourou ka ora ai te iwi**
  With my food basket and yours the people will thrive
- **Mauria te pono**
  Believe in yourself
- **Whāia te iti kahurangi, ki te tuohu koe, me he maunga teitei**
  Seek the treasure that you value most dearly, if you bow your head, let it be to a lofty mountain
# Performance Outlook 2019-20

CEDA’s performance outlook identifies quantifiable measures of our programmes and activities aligned to our key strategic outcomes. These form the basis of our accountability and will be reported on six monthly. In our reporting, additional commentary will be used to inform on the delivery and effectiveness of the full range of CEDA’s activity.

Alignment with Our Shareholders

It is imperative that CEDA’s objectives are aligned with our shareholder councils’ plans and visions for the city and district. The Palmerston North City and Manawatū District Councils’ signed Long Term Plans outline these objectives.

CEDA plays a critical part in delivering outcomes identified in the relative Long Term Plans as outlined below:

<table>
<thead>
<tr>
<th>PNCC Long Term Plan Outcomes</th>

## Monitoring Indicators

In addition to our performance measures, the shareholders have identified a further set of monitoring indicators. These indicators reflect outcomes at the regional level which are impacted by a range of factors outside of our control, for example: exchange rates, natural disasters, and government policy. As the region’s economic development agency, we have a role in monitoring and influencing these indicators where we can, however we do not measure the performance of our organisation against them.

Palmerston North City Council and Manawatu District Council have the responsibility to report on these indicators.

See Appendix for Accounting Policies
Shareholder requirements

Joint Strategic Planning Committee
The Joint Strategic Planning Committee of Manawatū District Council and Palmerston North City Council is made up of ten local body elected members, five from each council including both Mayors.

The role of the Joint Strategic Planning Committee is to:
- Review the performance of CEDA, and report to shareholders on that performance on a periodic basis
- Undertake performance monitoring of CEDA, as per section 65 of the Local Government Act
- Approve the appointment, removal, replacement and remuneration of directors
- Review and approve any changes to policies, or the Statement Of Intent, requiring their approval

The Board aims to ensure that the Joint Strategic Planning Committee and the shareholders are informed of all major developments affecting CEDA’s state of affairs, while at the same time recognising that commercial sensitivities may preclude certain information from being made public.

CEDA will adhere to a ‘no surprises’ approach in its dealings with its shareholders and Joint Strategic Planning Committee.

Letter of Expectations
By 1 December in each year the shareholders will deliver to CEDA a Letter of Expectations. The Letter of Expectations is intended to provide direction on issues that are important to both councils, and to assist in the development of CEDA’s next Statement Of Intent. A Letter of Expectations for 2019/20 has been delivered to CEDA.

CEDA is continuing to collaborate with external agencies, including contracting to The Factory and Spearhead. Both are reported as activities in the Performance Outlook. CEDA is aware of the ability to utilise council support services.

Statement of Intent
By 1 March in each year CEDA will deliver to the Joint Strategic Planning Committee of the shareholders its draft Statement Of Intent for the following year in the form required by Clause 9(1) of Schedule B and Section 64(1) of the Local Government Act 2002.

Having considered any comments from the Joint Strategic Planning Committee received by 30 April, the Board will deliver the completed Statement Of Intent to the Joint Strategic Planning Committee of the shareholders on or before 15 June each year.

Half Yearly Report
By the end of February each year, CEDA will provide to the Joint Strategic Planning Committee a Half Yearly Report complying with Section 66 of the Local Government Act 2002. The Half Yearly Report will include the following information:
- Director’s commentary on operations for the relevant six-month period
- Comparison of CEDA’s performance regarding the objectives and performance targets set out in the Statement Of Intent, with an explanation of any material variances
Annual Report

By 30 September each year, CEDA will provide to the Joint Strategic Planning Committee and its shareholders an Annual Report complying with Sections 67, 68 and 69 of the Local Government Act 2002 and the Companies Act.

The Annual Report will contain the information necessary to enable an informed assessment of the operations of the company, and will include the following information:

- Directors’ Report
- Comparison of CEDAs performance regarding the objectives and performance targets set out in the Statement Of Intent, with an explanation of any material variances
- Auditor’s Report on the financial statements and the performance targets
- Any other information that the directors consider appropriate

Shareholder Meetings

CEDA will hold an Annual General Meeting (AGM) between 30 September and 30 November each year to present the Annual Report to all shareholders unless it is agreed between CEDA and the shareholders that the business of the AGM will be done by resolution in writing.

Shareholder Approval

Any subscription, purchase or acquisition by CEDA of shares in a company or organisation will require shareholder approval by special resolution as will the other matters outlined in clause 3 of CEDAs Constitution.

Dividend policy

CEDA is a not for profit Council Controlled Organisation, as such the Board is not intending to pay any dividends in the foreseeable future.
Appendices

Accounting Policies

1. Reporting Entity

Central Economic Development Agency Ltd (CEDA) was established and commenced operations in New Zealand on 15 October 2015 under the Companies Act 1993 (NZBN 9429042001096). As the shareholders of CEDA are Palmerston North City Council (50%) and Manawatu District Council (50%) CEDA is a council-controlled organisation as defined in section 6 of the Local Government Act 2002.

CEDA has designated itself as a public benefit entity (PBE) for financial reporting purposes.

2. Statement of Accounting Policies

Basis of Preparation

The financial statements are prepared on the going concern basis, and the accounting policies have been applied consistently throughout the period, unless otherwise stated.

Statement of Compliance

The financial statements of CEDA have been prepared in accordance with the requirements of the Local Government Act 2002, the Companies Act 1993, and the Financial Reporting Act 2013. This includes the requirement to comply with generally accepted accounting practice in New Zealand (NZ GAAP).

These financial statements comply with Public Benefit Entity International Public Sector Accounting Standards (IPSAS) Reduced Disclosure Regime (RDR). CEDA is eligible and has elected to report in accordance with Tier 2 PBE standards RDR on the basis the entity has no public accountability and has expenses > $2m and < $30m.

Presentation Currency

The financial statements are presented in New Zealand dollars (NZS) and all values are rounded to the nearest NZS, except when otherwise indicated.

Historical Cost

These financial statements have been prepared on a historical cost basis.

Changes in Accounting Policies

There have been no changes in accounting policies. Policies have been applied on a consistent basis with those of the previous reporting period.

Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable for the sale of goods and services, excluding goods and services tax rebates and discounts, to the extent it is probable that the economic benefits will flow to the entity and revenue can be reliably measured. Specific accounting policies for significant revenue items are explained below.
Accounting Policies

Sales of goods are recognised when the goods are sold to the customer.
Sales of services are recognised in the period by reference to the stage of completion of the services delivered at balance date as a percentage of the total services to be provided.
Lease revenue is recognised on a straight-line basis over the life of the lease.
Interest received is recognised using the effective interest method. Interest revenue on an impaired financial asset is recognised using the original effective interest method.
Grants are recognised as revenue when they become receivable unless there is an obligation in substance to return the funds if conditions of the grant are not met. If there is such an obligation, the grants are initially recorded as grants received in advance and recognised as revenue when conditions of the grant are satisfied.
Donated assets. Where a physical asset is gifted to or acquired by CEDA for nil consideration or at a subsidised cost, the asset is recognised at fair value. The difference between the consideration provided and fair value of the asset is recognised as revenue. The fair value of donated assets is determined as follows:
  • For new assets, fair value is usually determined by reference to the retail price of the same or similar assets at the time the asset was received.
  • For used assets, fair value is usually determined by reference to market information for assets of a similar type, condition, and age.

Inventories
Inventories held for use in the provision of goods and services on a commercial basis are valued at the lower of cost and net realisable value.
The amount of any write-down for the loss of service potential or from cost to net realisable value is recognised in the surplus (deficit) in the period of the write-down.

Property, Plant and Equipment
Property, plant and equipment are stated at historical cost less any accumulated depreciation and impairment losses. Historical cost includes expenditure directly attributable to the acquisition of assets and includes the cost of replacements that are eligible for capitalisation when these are incurred.
An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is derecognised.

</tr>
</tbody>
</table>
Accounting Policies

From 1 July 2018 all Office Furniture and Equipment purchases (excluding computer/IT equipment) has been depreciated using the straight line method of depreciation to better represent the reduction of the value of these assets over their useful life. This change will apply to all purchases of Office Equipment and Furniture (excluding Computer equipment) in future accounting periods.

As this change is a change in accounting estimates, no changes have been made to previously purchased assets in prior financial years, or the depreciate method on these assets in the current or future years.

Income Tax
Income tax expense includes components relating to current tax and deferred tax.
Current tax is the amount of income tax payable based on the taxable profit for the current year, and any adjustments to income tax payable in respect of prior years.
Deferred tax is the amount of income tax payable or recoverable in future periods in respect of temporary differences and unused tax losses. Temporary differences are differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.
Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which the deductible temporary differences or tax losses can be utilised.
Deferred tax is not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition of an asset or liability in a transaction that affects neither accounting profit nor taxable profit.
Current tax and deferred tax are measured using tax rates (and tax laws) that have been enacted or substantively enacted at balance date.
Current and deferred tax is recognised against the profit or loss for the period, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Cash and cash equivalents
Cash and cash equivalents comprise cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts.
Bank overdrafts are shown within borrowings in current liabilities in the statement of financial position.

Receivables
Receivables are recorded at their face value, less any provision for impairment.

Impairment of financial assets
Financial assets are assessed for evidence of impairment at each balance date. Impairment losses are recognised in the surplus or deficit.

Loans and receivables
Impairment is established when there is evidence CEDA will not be able to collect amounts due according to the original terms of the receivable. Significant financial difficulties of the debtor, probability that the debtor will enter into bankruptcy, receivership, or liquidation and default in payments are indicators that the asset is impaired. The amount of the impairment is the difference between the asset’s carrying amount and the present value of estimated future cash flows, discounted using the original effective interest rate. For debtors and other receivables, the carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognised in the surplus or deficit. When the receivable is uncollectable, it is written-off against
Accounting Policies

the allowance account. Overdue receivables that have been renegotiated are reclassified as current
(that is, not past due). Impairment in term deposits or bonds are recognised directly against the
instrument’s carrying amount.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that
are not quoted in an active market. They are included in current assets, except for maturities greater
than 12 months after the balance date, which are included in non-current assets.

After initial recognition, they are measured at amortised cost, using the effective interest method,
less impairment. Gains and losses when the asset is impaired or derecognised are recognised in the
surplus or deficit.

Payables

Short-term creditors and other payables are recorded at their face value.

Equity

Equity is the shareholders’ interest in CEDA and is measured as the difference between total assets
and total liabilities.

Good and Services Tax

All items in the financial statements are stated exclusive of GST, except for receivables and
payables, which are presented on a GST inclusive basis. Where GST is not recoverable as input tax,
it is recognised as part of related asset or expense.

The net amount of GST recoverable from, or payable to, the IRD is included as part of receivables or
payables in the statement of financial position.

The net GST paid to, or received from, the IRD, including the GST relating to investing and financing
activities, is classified as operating cash flow in the statement of cashflows.

Commitments and contingencies are disclosed exclusive of GST.

Employee Entitlements

Employer contributions to KiwiSaver are accounted for as defined contribution superannuation
schemes and are expensed in the surplus or deficit as incurred.

Short-term employee entitlements - Employee benefits that are due to be settled within 12 months
after the end of the year in which the employee provides the related service are measured based
on accrued entitlements at current rates of pay. These include salaries and wages accrued up to
balance date, and annual leave earned but not yet taken at balance date, and sick leave. These are
classified as a current liability.

A liability and an expense are recognised for bonuses where there is a contractual obligation or
where there is past practice that has created a constructive obligation and a reliable estimate of the
obligation can be made.

CEDA does not provide for long service or retirement leave entitlements.

Leases - Where CEDA is the Lessee

An operating lease is a lease that does not transfer substantially all the risks and rewards incidental
to ownership of an asset to the lessee. Lease payments under an operating lease are recognised as
an expense on a straight-line basis over the lease term. Lease incentives received are recognised in
the surplus or deficit as a reduction of rental expense over the lease term.

MEMORANDUM

TO: Manawatu District/Palmerston North City Joint Strategic Planning Committee

MEETING DATE: 19 June 2019

TITLE: Regional Pathways Map

DATE: 4 June 2019

PRESENTED BY: David Murphy, City Planning Manager, Strategy & Planning

APPROVED BY: Sheryl Bryant, General Manager - Strategy & Planning

RECOMMENDATION TO MANAWATU DISTRICT/PALMERSTON NORTH CITY JOINT STRATEGIC PLANNING COMMITTEE

1. That the Joint Committee receive the Regional Pathways Map for information.

1. ISSUE

There is over $4.8m planned expenditure to extend the shared path network in the region and new opportunities are continuing to arise.

The purpose of this memorandum is to set out the context at a region wide level to assist in understanding the ‘big picture’.

For ease of reference two maps are provided to set the scene. Appendix 1 shows key existing planned and proposed pathways. Appendix 2 shows the regional cycle network and is included to provide broader scale information.

2. BACKGROUND

The following paragraphs provide supporting information to be read alongside the maps in the appendices.

Type of Facility

This memorandum is focused on the wider shared path network as distinct from dedicated walking or cycle facilities. For the avoidance of any doubt the following bullet points describe the types of facilities:
• **A shared path** *(the subject of this memorandum)*—designed for use by those on foot (walking, jogging, running etc) and cyclists. Typically, these are 2m-3m wide and have a compacted limestone or asphaltic concrete (*‘hotmix’*) surface. These cater for higher usage numbers and have a dual role allowing for commuting as well as recreational use. A good example is the Manawatu River Pathway in Palmerston North.

• **A walkway** — designed for walkers only, generally for recreational purposes. Often a crushed metal surface. For example, the Manawatu Gorge Walking Track at Te Apiti.

• **A cycleway** — designed for cyclists only, often for commuting reasons. These can be ‘on-road’ in the form of a shared area marked as a cycling lane or ‘off-road’ where it is a specific lane not available for walkers. For example, road marking along College Street in Palmerston North is an ‘on-road’ facility.

• **A footpath** — included as part of all urban streets and designed for walkers only for local connectivity purposes.

**Participation and Popularity**

There has been a rapid expansion of walking and cycling facilities throughout the nation over the last decade to keep pace with demand both from New Zealanders and tourists. For example, the Te Araroa Trail (a 3000km network of trails extending from Cape Reinga to Bluff) has experienced growth with about 1000 walkers doing the route in 2018, up 25% from the 800 who did it in 2017 according to CEO Mark Weatherall. The New Zealand Cycle Trail network, comprising 22 ‘Great Rides’ and 20 ‘Heartland Rides’ throughout the country, had an estimated 400,000 users doing 1.3 million trips in 2018 according to their website.

The Sport New Zealand ‘Active New Zealand Survey 2017’ identifies the number one weekly participation activity for adults is walking (with running at #4 running and road cycling at #8). The survey indicates the activity is primarily undertaken on the road or footpath or on a specific walkway (#3) or ‘off-road’ (#8) or cycleway (#12).

Turning to our region, for the ‘Manawatu’ survey area (which includes Palmerston North City and Feilding) a participation rate for all activities of 36% in walking against 29% for the nation. Whereas for cycling, the survey indicates a participation rate of 28% vs 29% for the nation.

Similar to the national trend regional facilities have been expanded over the last decade. For example, the Manawatu River Pathway has been upgraded and extended in Palmerston North. The counter at Dittmer Drive indicates over 300 users per day in this area. In Feilding the development of the ‘Green Spine’ since 2014 is a popular facility with its central location.
Committed Expenditure

The planned capital expenditure in the respective Manawatu and Palmerston North Long Term Plans is a combined $4.822m for the key regional pathways as shown in the table:

Table 1 – Planned Shared Path Expenditure by MDC/PNCC

Policy Context

At national level the Government Policy Statement on Land Transport 2018 sets out four strategic priorities – Safety, Access, Environment and Value for Money. In particular, under the safety priority the direction is to ‘increase investment in footpaths and cycleways to support access to, and uptake of, active travel modes’.

At the regional level the Horizons Regional Council Land Transport Plan 2015-2025 (2018 Review) sets out the strategic direction for land transport. With regard to walking and cycling there is a strategic priority for ‘An integrated walking and cycling network’ with the objective to provide a safe transport system with less modal conflict.

For Palmerston North City programmes the Creative and Liveable Strategy 2018 includes as priority 5 to ‘Have the most active community on New Zealand’. The Active and Public Transport Plan 2018 is the action plan to achieve the strategy and includes as its central purpose ‘...to have a safe, efficient, and effective active and public transport system and the most active community in New Zealand’. A specific programme in the plan references the ‘Bunnythorpe-Feilding Shared Path’.

For the Manawatu District Council, it is noted the Rural Area Vision statement in the 2018-28 Long Term Plan sets out ‘Providing world-leading food, products and services within a beautiful sustainable rural landscape that offers outstanding recreational opportunities’. It is also noted a Walk and Cycleways Strategy is under development with key stakeholder
engagement taking place at the time of preparing this memorandum. The document is expected to be finalised in late 2019.

Proposals
As identified on the Regional Pathways Map, aside from the planned connections between the City and Feilding and the City and Ashhurst, the other two key proposals are:

- **Ashhurst to Woodville Shared Path** – This is a 14km long shared path to be funded and constructed by NZTA as part of their Te Ahu a Turanga Manawatu-Tararua Highway project between 2020-25. This will provide ‘off-road’ access along the entire length of the route includes separated facilities on both the existing Ashhurst Bridge and over the new Manawatu River Bridge.

- **City to Sea Rail Trail** – This is a 29km shared path on the northern side of SH56, Rangiotu Road, Himatangi Beach Road extending from Longburn to the Himatangi Beach settlement.

These are described as ‘proposals’ at this stage as in the case of the NZTA Te Ahu a Turanga project the Commissioners’ Panel’s recommendation report is under consideration by NZTA at the time of preparing this memorandum. It is noted that NZTA has indicated publicly that it will support the development of a shared path. With respect to the City to Sea Rail Trail, there is no specific funding allocation from PNCC, NZTA, MDC or Horizons Regional Council for the project at this stage.

It is also important to note that the map also shows conceptual routes in the Horowhenua district proposed at SH1, the Manawatu River and the rail line between Tokomaru and Shannon. These options along with others are being considered as part of the Council’s Integrated Transport Study which is currently being prepared.

3. **NEXT STEPS**

Nothing is planned as this memorandum is provided for information only purposes.

4. **COMPLIANCE AND ADMINISTRATION**

<table>
<thead>
<tr>
<th>Question</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>Does the Committee have delegated authority to decide?</td>
<td>Yes</td>
</tr>
<tr>
<td>Are the decisions significant?</td>
<td>No</td>
</tr>
<tr>
<td>If they are significant do they affect land or a body of water?</td>
<td>No</td>
</tr>
<tr>
<td>Can this decision only be made through a 10 Year Plan?</td>
<td>No</td>
</tr>
<tr>
<td>Does this decision require consultation through the Special Consultative procedure?</td>
<td>No</td>
</tr>
<tr>
<td>Is there funding in the current Annual Plan for these actions?</td>
<td>No</td>
</tr>
<tr>
<td>Are the recommendations inconsistent with any of Council’s policies or plans?</td>
<td>Yes</td>
</tr>
<tr>
<td>---</td>
<td>---</td>
