AGENDA

Meeting to be held

WEDNESDAY 18 SEPTEMBER 2019
1.00PM

In the Palmerston North City Council Chambers,
First Floor, Civic Administration Building
32 The Square, Palmerston North

Richard Templer
Chief Executive
MEMBERSHIP

Chairperson
Mayor Grant Smith

Deputy Chairperson
Mayor Helen Worboys

Members
Manawatu District Council  Palmerston North City Council
Councillor Barbara Cameron  Councillor Susan Baty
Councillor Shane Casey     Councillor Leonie Hapeta
Councillor Michael Ford    Councillor Jim Jefferies
Councillor Phil Marsh      Councillor Tangi Utikere
ORDER OF BUSINESS

1. APOLOGIES

2. NOTIFICATION OF ADDITIONAL ITEMS
   Where an item is not on the agenda for a meeting, that item may be dealt with at that meeting if:
   2.1 The Committee by resolution so decides; and
   2.2 The Chairperson explains at the meeting at a time when it is open to the public the reason why the item is not on the agenda, and the reason why the discussion of the item cannot be delayed until a subsequent meeting.

3. DECLARATIONS OF INTEREST
   Notification from elected members of:
   3.1 Any interests that may create a conflict with their role as an elected member relating to the items of business for this meeting; and
   3.2 Any interests in items in which they have a direct or indirect pecuniary interest as provided for in the Local Authorities (Members’ Interests) Act 1968

4. PUBLIC COMMENT
   To receive comments from members of the public on matters specified on this Agenda or, if time permits, on other Committee matters.
   (NOTE: If the Committee wishes to consider or discuss any issue raised that is not specified on the Agenda, other than to receive the comment made or refer it to the Chief Executive, then a resolution will need to be made in accordance with clause 2 above.)

5. CONFIRMATION OF MINUTES
   Draft resolution
   That the minutes of the Manawatu District / Palmerston North City Joint Strategic Planning Committee meeting of 19 June 2019 be confirmed as a true and correct record.

6. OFFICER REPORTS
   6.1 CEDA ANNUAL REPORT 2018-19
       Report of the General Manager - Strategy and Planning and General Manager – Community and Strategy dated 6 September 2019
   6.2 CEDA 2020-2021 LETTER OF EXPECTATIONS
       Report of the General Manager - Strategy and Planning and General Manager – Community and Strategy dated 14 August 2019

7. CONSIDERATION OF ADDITIONAL ITEMS (IF ANY)
8. PUBLIC EXCLUDED BUSINESS

COMMITTEE TO RESOLVE:

That the public be excluded from the following parts of the proceedings of this meeting, namely:

a) CEDA 2020-2021 Appointment of Directors

That the general subject of each matter to be considered while the public is excluded, the reason for passing this resolution in relation to each matter, and the specific grounds under Section 48(1) of the Local Government Official Information and Meetings Act 1987 for the passing of this resolution are as follows:

<table>
<thead>
<tr>
<th>General subject of each matter to be considered</th>
<th>Reason for passing this resolution in relation to each matter</th>
<th>Grounds under Section 48(1) for the passing of this resolution</th>
</tr>
</thead>
<tbody>
<tr>
<td>CEDA 2020-2021 Appointment of Directors</td>
<td>Section 7(2)(a) – to protect the privacy of natural persons, including that of deceased natural persons.</td>
<td>Section 48(1)(a) - the public conduct of the relevant part of the proceedings would be likely to result in a disclosure of information for which good reason for withholding that information would exist, under Section 7 of the Local Government Official Information and Meetings Act 1987.</td>
</tr>
</tbody>
</table>

This resolution is made in reliance on Section 48(1) of the Local Government Official Information and Meetings Act 1987 and the particular interests protected by Section 6 or Section 7 of the Act which would be prejudiced by the holding of the whole or the relevant part of the proceedings of the meeting in public as specified above.

9. MEETING CLOSURE
PALMERSTON NORTH CITY COUNCIL

Minutes of the Manawatu District/Palmerston North City Joint Strategic Planning Committee Meeting Part I Public, held in the Council Chamber, First Floor, Civic Administration Building, 32 The Square, Palmerston North on 19 June 2019, commencing at 1.00pm

Members Present: Palmerston North City Council
Councillors Susan Baty, Jim Jefferies, Leonie Hapeta and Tangi Utikere.

Manawatu District Council
The Mayor (Helen Worboys) (in the Chair) and Councillors Barbara Cameron, Shane Casey and Michael Ford.

Non Members: Palmerston North City Council
Councillors Brent Barrett, Rachel Bowen, Adrian Broad, Lorna Johnson, Duncan McCann and Bruno Petrenas.

Manawatu District Council
Councillor Alison Short.

Apologies: Palmerston North City Council
The Mayor (Grant Smith) and Councillors Adrian Broad (early departure), Leonie Hapeta (early departure) and Karen Naylor.

Manawatu District Council
Councillors Steve Bielski, Hilary Humphrey and Phil Marsh.

Councillor Leonie Hapeta left the meeting at 1.40pm during consideration of clause 11. She was not present for clause 11.

8-19 Apologies
Moved Michael Ford, seconded Leonie Hapeta.

The COMMITTEE RESOLVED
1. That the Committee receive the apologies.

9-19 Confirmation of Minutes
Moved Susan Baty, seconded Michael Ford.

The COMMITTEE RESOLVED
1. That the minutes of the extraordinary Manawatu District/Palmerston

North City Joint Strategic Planning Committee meeting of 27 March 2019
Part I Public be confirmed as a true and correct record.

10-19
Central Economic Development Agency’s Final Statement of Intent 2019/20
Memorandum, dated 11 June 2019 presented by the General Manager,
Community and Strategy, Manawatu District Council, Brent Limmer and the
General Manager - Strategy & Planning, Palmerston North City Council, Sheryl
Bryant.

Moved Helen Worboys, seconded Michael Ford.

The COMMITTEE RESOLVED

1. That the Central Economic Development Agency’s Final Statement of
Intent 2019/20 be agreed.

Note:
Moved Tangi Utikere, seconded Helen Worboys.

On a motion that the words ‘subject to further discussion with CEDA regarding the inclusion of
international education as a strategic priority’ be added the motion was lost.

11-19
Regional Pathways Map
Memorandum, dated 4 June 2019 presented by the City Planning Manager,
David Murphy.

Councillor Leonie Hapeta left the meeting at 1.40pm

Moved Helen Worboys, seconded Tangi Utikere.

The COMMITTEE RESOLVED

1. That the Joint Committee receive the Regional Pathways Map for
information.

The meeting finished at 2.01pm

Confirmed 18 September 2019

Chairperson
MEMORANDUM

TO: Manawatu District/Palmerston North City Joint Strategic Planning Committee

MEETING DATE: 18 September 2019

TITLE: Central Economic Development Agency’s Annual Report 2018/19

PRESENTED BY: Sheryl Bryant, General Manager - Strategy & Planning; Brent Limmer, General Manager – Community and Strategy

APPROVED BY:

RECOMMENDATION(S) TO COMMITTEE

1. That the Annual Report and Financial Statements for the Central Economic Development Agency (CEDA) for the year ended 30 June 2018 be received.

1. ISSUE

CEDA, as a Council Controlled Organisation, has prepared its Annual Report for the year ended 30 June 2019 and is attached.

2. BACKGROUND

Section 67 of the Local Government Act 2002, CEDA must deliver to the Shareholders the Annual Report within three months of the end of the financial year. This requirement has been met.

CEDA provides a summary of the year’s highlights on page 7 of the Annual Report. CEDA’s Statement of Service Performance (page 54) shows a majority of targets set have been achieved or exceeded.

Pages 66-70 includes the CEDA annual statement on Financial performance with a deficit of $88,678 to the year ended June 2019. This deficit is significantly less than that budgeted.

3. NEXT STEPS

The Committee is responsible for receiving the CEDA Annual Report for 2018/19.
4. COMPLIANCE AND ADMINISTRATION

As the region’s economic development agency, we have a role in monitoring and influencing a range of these indicators where we can, however we don’t measure the performance of our organisation against them. These indicators reflect outcomes at a regional level which are impacted by a range of factors outside our control, such as exchange rates, natural disasters and government policy, for example.
Chairperson Report

Tenā Koutou Katoa

Manawatū 2025, New Zealand’s most progressive region,

Our vision for Manawatū is ambitious. It means that our rate of economic growth must be above that of New Zealand as a whole. It also means that our growth is based on skills and knowledge that raises employment and incomes and addresses the social, cultural, and environmental needs of our community.

Over the past year we have further developed the strategy and programme of work and partnerships to deliver this.

2018-19 has been a year of strong growth for Manawatū; we have consistently outperformed the national average GDP growth. Our population growth remains solid and our consumer spending is confident and shows strong support for our local business community. Visitor spending has continued to rise, and our residential and commercial construction markets are exceptionally buoyant. To date, we have not seen the slowdown in growth rate that some parts of the New Zealand economy are experiencing.

Our primary industries are doing well. Our construction sector is strong, and this will stay strong because of the healthy ten-year regional investment pipeline of over $3.5 billion coming from central and local government, as well as the private sector.

While the past and future outlook for economic performance is very positive, we must also acknowledge the stresses that comes with this. Our house prices have seen double digit growth over the past year, with prices reaching record highs. Our rental prices have increased significantly, and with population growth, we have seen real pressure being placed on housing availability across the region. This supply shortage is having an impact on those needing social housing with the number of families eligible for social housing in the Manawatū region having increased from 11 in March 2015 to 409 in March 2019. There are now 354 applicants in Palmerston North and 55 in our district that can neither find housing or cannot afford the housing that is available.

Access to affordable housing is crucial to supporting the wellbeing of our community, and to help us to continue to attract the labour and skills our businesses need to continue to grow.

At CEDA we are focused on encouraging business investment and expansion, along with labour market development, that can respond to the significant growth opportunities that are upon us. This includes the large infrastructure projects such as Te Ahu a Turanga, the multi-modal distribution hub, and the Gorge replacement road. Another exciting development is the FoodHQ led agrifood precinct which builds on our existing world class capability in the science sector.

Our emphasis over the past year on developing and strengthening our partnerships with our councils, iwi, The Factory, Sprout, FoodHQ and Manawatū Chamber of Commerce will stand us all in good stead as we move forward. Each of these organisations play an important role in fulfilling the potential that lies within Manawatū.

As you look through the pages of our annual report, you will see the significant progress that CEDA has made. There is still much for us to do to achieve our vision for Manawatū.

Our success is based on your support and engagement.

On behalf of the CEDA Board and the whole of the team at CEDA, thank you to our shareholder Councils for their ongoing commitment, support and guidance. And thank you to all our partners from across the region and across New Zealand. He waka eke noa, we are all in this together.

Ngā mihi nui ki a koutou katoa.

Malcolm Bailey Chairperson
Chief Executive Report

Tenā Koutou Katoa
Manawatū offers one of the best lifestyles in New Zealand. From our easy commutes and compact, vibrant city and town centres, to the variety and quality of our retail shopping, cafés, restaurants and bars. This is matched with great career opportunities, excellent education and healthcare providers and easy accessibility of our great outdoors, with Te Apiti – Manawatū Gorge, the Manawatū River Pathway, Arapuke Mountain Bike Park and the Ruahine and Tararua Ranges on our doorstep.

For the past year, CEDA has been dedicated to building the reputation, profile and visibility of our region, something that we know, and that you have all told us, has been lacking for some time.

It’s a complicated issue and one that has taken time and research to understand, and then plan how to authentically overcome it. As Jack Welch once said, ‘If you don’t have a competitive advantage, don’t compete!’ While that might sound harsh, it strikes to the core of what we’ve struggled to nain as a region over the years – who we are, what we’re renowned for, and why people need to know about us. Without this compelling elevator pitch or story, we have not been heard and our message has been diluted.

But this is changing.

We are a region rich in Māori culture, with a history that is founded in food, science and innovation, and we are at the crossroads of the centre of the lower North Island. We are a region that is proud of our history and the people who live here, and there is collective momentum and energy building that we all have a role to play in showcasing what it is like to live and do business here, so we can attract more people to be a part of what we have. As a region, we are becoming increasingly united in our direction, which is focused on achieving economic prosperity for all in our community, and we are now ready to take our story to the world.

The programmes delivered by CEDA in the past year are beginning to drive real and lasting change for our communities and region’s growth. I am proud to share with you our annual report which reveals what we have undertaken and achieved.

The attraction of business, investment and people to the region has required us to take a hard look at our value proposition, our natural assets, the cost and ease of doing business here, the infrastructure being developed, and our comparative advantages as a region. Our expansion and investment strategy defines this and sets out a clear and focused action plan to drive outcomes that will take us towards our vision and goals. Alongside this, we attracted investment from the Provincial Growth Fund to assess the cultural, educational, and visitor opportunities that lie in the transformation of Te Apiti – Manawatū Gorge. This multi-stakeholder project brought ten commercial organisations and investors to the region to critically assess the potential, the current activities, and the future ventures that may flourish within this natural asset and the surrounding areas.

We are not just focused on attracting more, though. Economic gardening is an approach that is growing in momentum, meaning there is a focus and emphasis on growing what you have, not just spending time attempting to attract more. This is evident through our work in supporting business capability and fostering a culture of innovation, research and development in our business community. Almost 500 businesses have received support from CEDA over the year, and more than $1.5 million in research and development growth grants have been allocated. In partnership with Sprout, we developed the Manawatū AgriTech Sector Strategy and three-year action plan to provide a clear focus and a collaborative programme of projects to drive growth in this high value sector that is a real strength and point of difference for our region.

Complementary to this is our work in developing a strong pipeline of talent to support the growth we are experiencing. The Primary Sector Skills Gaps Analysis has taken a deep dive into the needs of this sector now, and into the future, seeking to understand, and
develop a plan to address the challenges faced when it comes to developing, retaining and attracting talent into the sector.

More broadly, our international education sector continues to grow in the face of national decline, and we are focused on how we can retain more of these students in our region. To inform the approach we should take to do this, we undertook an employability scoping study to identify the barriers faced by students and employers when it comes to employing international talent. And it would be remiss of me not to recognise that this year’s Sort It Careers Expo was the largest ever seen in the region, with more than 5000 attendees and 80 exhibitors connected throughout the day, discussing the training and career opportunities that are available right here in Manawatū and beyond.

Programmes that have acted as a catalyst to putting our city and region on the map and attracting more people here, include the development and launch of Te Aho Tāmāka, a first of its kind programme in New Zealand that recognises, celebrates and connects with the region’s most illustrious leaders. The aim is to build a global network of ambassadors who want to contribute to regional growth and be advocates for Palmerston North and Manawatū. The Move to Manawatū digital campaign shone a light on the region’s lifestyle and opportunities in a way that has not been done before: highlighting real residents’ stories to resonate and connect with people who may not have considered moving here. And by bringing the global science festival, Pint of Science to New Zealand for the first time, we put the research and innovation that’s taking place in the region on front and centre stage, joining more than 400 cities around the world who are involved in the festival.

From a financial perspective we have invested in delivering these substantial projects, which as projected, has resulted in a deficit for the year. We forecast that this spend will continue into the 2019/20 year as we continue to drive and deliver larger, strategic projects beyond core business, as we strive to meet our own ambitions, and those of our shareholders.

I would like to take this opportunity to thank our shareholder councils, Palmerston North City Council and Manawatu District Council, whose vision, ambition and clear direction have ensured that we are aligned and work collectively to fulfil the potential of our region and overcome the challenges we face together. I must also thank the Board for their commitment and relentless focus on achieving our vision and purpose and delivering meaningful outcomes for our communities. And thank you to the team at CEDA; you are the ones that are leading, delivering and enabling this work to happen, and you should be very proud of what you have achieved over the past year.

Our vision is for Manawatu to be New Zealand’s most progressive region in 2025 and over the year, the Board and the team at CEDA have set some ambitious goals and a clear action plan to ensure we make them happen. They are:

- Manawatū is nationally and internationally recognised as one of the top three agri-food hubs in the world.
- Manawatū is a leading distribution hub and leverages off its role in central New Zealand.
- Manawatū is renowned for its exceptional lifestyle and competitive advantages, and is a magnet for investment, business and talent.

Together, with our shareholder councils, partner organisations, iwi, business community, central government and communities, we are well positioned to make the most of the unprecedented growth our region is experiencing. Central and local government investment is strong, which provides our private sector with confidence, we have significant infrastructure projects underway or about to commence, our population is growing as our reputation and profile is heightened, and our place in the global world of food and distribution is strengthening.

While we take a moment to reflect on that past year and all that’s been achieved, we remain focused on the future, ensuring that as a region we are able to take advantage of this time of growth, not just in the short term, but to build sustainable businesses and resilient communities well into the future.

Ngā mihi nui ki a kiutou katoa,

Linda Stewart
Chief Executive

Destination Management Plan framework developed

Delivered Westpac Manawatū Business Awards 2018

Move to Manawatū campaign developed and launched

Launched global science festival, Pint of Science, in NZ for the first time
About CEDA

The Central Economic Development Agency (CEDA) is a Limited Liability Company incorporated and registered under the Companies Act 1993. CEDA commenced full operations in September 2016 and is a Council controlled organisation jointly owned by the Palmerston North City Council (50%) and the Manawatū District Council (50%).

CEDA’s Purpose and Principal Activities

The primary objective of CEDA is to drive and facilitate the creation and growth of economic wealth for Manawatū and beyond. CEDA’s principal activities are directed by:

(a) The principal objectives of the Company are to achieve the objectives of the Shareholders, both commercial and non-commercial as specified from time to time in the Statement of Intent and, in particular, to drive and facilitate the creation and growth of economic wealth for Manawatū and beyond;

(b) be a good employer;

(c) exhibit a sense of social and environmental responsibility by having regard to the interests of the community in which the Company operates and by endeavouring to accommodate or encourage these when reasonably able to do so.

CEDA’s Structure and Governance

The Board of up to seven (currently six) independent directors is responsible for the strategic direction and control of CEDA’s activities.

The Board guides and monitors the business and affairs of CEDA, in accordance with the Companies Act 1993, the Local Government Act 2002, the Company’s Constitution and this Statement of Intent.

The Board’s approach to governance is to adopt “good practice” with respect to:

• the operation and performance of the Board
• managing the relationship with the Chief Executive
• being accountable to all shareholders and reporting to the Joint Strategic Planning Committee of Manawatū District Council and Palmerston North City Council

The Chief Executive Officer is responsible for the day-to-day operations of CEDA, engaging and oversight of staff and reporting to the directors on performance against CEDA’s objectives.
Our Vision

Manawatū 2025; New Zealand’s most progressive region

Our vision is bold and purposefully so, it encompasses the ambitions of both our shareholder councils. It requires our region to move from comfortable to aspirational, from reactive to determined, and to move with an increased cadence and sense of resolve. We believe that Manawatū has the leadership and the ingredients to reposition itself on the national stage - a flourishing and evolving region that will be first choice for lifestyle and success.

Four key indicators that we are on our way to achieving this vision are:

- Our regional story is embraced, promoted and stated proudly by residents, businesses and visitors
- We are the renowned central hub for agribusiness
- We are growing sustainably
- Innovation is part of the fabric of our community and culture, and it’s celebrated

To achieve this vision CEDA must work in partnership with our shareholders, central government, iwi, industry and other regional stakeholders - it cannot be achieved alone.
Our Strategic Objectives

Powering our progress; achieving the vision
CEDA works across three strategic pillars of economic development; People, Place and Business. Our key objectives, programmes and activities are all aligned to these pillars, and are designed to create the environment, stimulus, outcomes and impact that will power our economic prosperity and achieve our vision for Palmerston North and Manawatu. These key objectives guide the development of the short and medium-term programmes of work for CEDA as articulated through our Statement of Intent for 2018/19.
When considering how to prioritise our efforts, and based on our current resources and functions, CEDA focuses on programmes and activities that offer the greatest opportunities for economic growth. These are identified through research, monitored and reviewed using the latest data, and viewed through a regional, national and international lens.
What We Do
Grow and Retain Education and Talent
Whai Matauranga

Key to cultivating a competitive and innovative economy are our people; developing and growing our talent pool with the right skills, knowledge and expertise, and increasing the number of international students and their employability.

**International Education**

In partnership with Education New Zealand through the implementation of the Regional International Education Strategy 2016-20, CEDA supports the region’s schools and tertiary providers (Massey University, IPU New Zealand and UCOL) to increase global awareness of Manawatū as a leading study destination to grow the number of international students studying here.

We work alongside education institutions, Palmerston North City Council and other key stakeholders to drive collaborative activities in the priority target market of China and other potential markets for development. We identify opportunities to help integrate international students into the local community and we lead the marketing and communications to showcase the region as a leading study destination to support institutions in telling our regional story. This includes targeted digital campaigns like Mote to Manawatū, designed to attract talent to the region.

**Pathways to Employment – Student Employability**

In partnership with Talent Central, the Manawatū Chamber of Commerce and MBIE, CEDA has been working to help international tertiary students become more employable and identify opportunities for increased pathways into local employment.

Connecting international education graduates with employers in the region to meet skills shortages was the focus of a scoping study undertaken this year, with funding from Education New Zealand. The purpose of the study was to assess the viability of developing a Central Regions’ Employability Programme, which would prepare international students and graduates with the skills needed for employment. Students and employers took part in the research so we could understand the current situations, barriers and opportunities.

To better prepare and equip international students to integrate into the workforce and make the most of employment opportunities in the region, a Work Ready Seminar was held in conjunction with Sort It Careers Expo for 40 senior international tertiary students. Presenters included immigration officials and career and job experts who explained ways in which the students could manage career pathways.

Whai Matauranga

Te Aho Tāmaka
Te Aho Tāmaka is a unique, New Zealand first regional growth initiative that was launched in 2018 and is designed to celebrate and engage with highly influential and successful leaders that are connected to Manawatū, locally, nationally and internationally.

Establishing a strong national and global network of leaders who are proud of their connection to Manawatū, Te Aho Tāmaka will identify and develop opportunities for these leaders to contribute to the region. This may be through mentoring people and businesses, fostering regional pride, raising awareness of the lifestyle, career and business opportunities in the region, to investing in mutually beneficial projects. Following its launch, we have developed and designed next steps for the leaders who are already committed to Te Aho Tāmaka and the identification and invitation of further leaders.

Talent Central Collaboration
Building on our regional talent and skills action plan, we partner with priority sectors, Talent Central and central government to deliver specific programmes to address regional skills shortages, and connect talent, particularly youth, with employment opportunities across the region. This has resulted in initiatives such as the Work Ready Portfolio, summer work programmes and an application to Te Ara Mahi (Provincial Growth Fund) to expand the pathways into employment programme ensuring all young people in the region obtain their drivers licence.

Primary Sector Skills Gaps Analysis Completed
Manawatū’s economic growth is largely underpinned by the primary sector and the skills and labour gaps we are experiencing within the region are also a national and global phenomenon. To better understand the skills and labour shortage faced by the industry and to support our work towards developing a comprehensive agri cluster in Manawatū, a Primary Sector Skills Gaps Analysis was completed in partnership with Immigration NZ. The research has helped to identify where the main skills gaps are in the Manawatū food production industry and explored potential strategies for addressing these gaps, including the use of migrant labour and migrants who are studying at local tertiary institutes. The research also provided an overview of current gaps in the agriculture and food sector nationally, with a focus on Manawatū.

This research will be used to underpin ongoing work between regional partners in education and training, industry and central government agencies like Immigration New Zealand and the Ministry for Business Innovation and Employment, as we work together to help identify long-term and sustainable solutions to navigate challenges and barriers to growth.

NxtStep Manawatū
During the year a pilot project was commenced aimed at increasing the New Zealand tertiary talent that is interested in starting their career journey in the Manawatū, by digitally connecting with tertiary students and graduates across New Zealand. Leveraging off the established NxtStep platform the initial focus is on graduate jobs, internships and entry-level positions. NxtStep is a leading New Zealand graduate, job and internship website.

5000

Primary sector skills gaps
analysis completed
Sort It Careers Expo

The sixth and largest ever Sort It Careers Expo was delivered in May as part of our commitment to attract and retain talent in the region. Sort It acts as a platform to future-proof the region’s workforce and talent pipeline by providing an opportunity for local and national businesses, industries, training and education providers to showcase careers in their fields.

A record 80 exhibitors and 5,000 people attended Sort It, including 3,000 secondary school students from 23 high schools across the Manawatū-Whanganui region.

Sort It is aimed at people who are looking for a career change, furthering their education or planning their career. Attending the Expo provides them with important information on different pathways that they can follow, while showcasing the diverse array of sectors available here in Manawatū, and nationally.
International Education in Manawatū

Strong Growth in New Student Visas

The number of international students choosing Manawatū grew at a higher rate than anywhere else in New Zealand in the past year.

Manawatū-Whanganui was the only region to experience double digit growth in the number of new student visas issued in the year to September 2018, according to Education New Zealand figures. This shows the collaborative approach and combined efforts are delivering results for the region.

The number of first-time student visas increased by 12 per cent, which compared to a five per cent lift in Canterbury and declining numbers in Auckland, Wellington and Otago. Growth in first-time student visas is significant because they are new students who have applied to come to New Zealand and have chosen to live in Manawatū.

International students and their visiting friends and relatives are big contributors to the regional economy, estimated to be worth $122.4 million in Manawatū. These figures were released by the Government in late 2018 after it adjusted the way it captures the students’ economic contribution, so while the figure can’t be compared to previous years, it highlights a greater contribution than initially thought.

Relationships Key to Growing Priority Markets

Fifteen international education recruitment agents from China, Japan and the Middle East were hosted in the region, as a result of building on the international delegations to China and Japan. Agents play a crucial role in sending international students to cities and countries and hosted visits provide an opportunity to showcase what studying and living is like in New Zealand, as well as our local education providers. There is increasing interest from international education agents wanting to place students in cities outside of main centres and all agents said they would be more likely to send students here after they had experienced what is on offer.

Putting Manawatū on a Global Stage

Digital marketing is an effective and measurable way to grow awareness of the region in the priority market, China. Social media apps like WeChat for example have more than a billion users.

Thousands of prospective Chinese international students and their families learnt about studying and living in Manawatū as a result of multiple digital campaigns that were designed and run in partnership with Education New Zealand and international education recruitment agencies based in China.

These campaigns were hosted on Education New Zealand’s official WeChat account, which specifically focused on the world-class education available at our providers with a strong focus on food, nutrition and agri science. Study Manawatū featured comprehensively on a New Zealand Central Region’s page on EIC Education’s website (the organisation the Memorandum of Understanding was signed in 2018). As a result, hundreds of people expressed interest in the local schools and tertiary institutes that were featured.
Move to Manawatū Campaign

Palmerston North and Manawatū are experiencing levels of growth and investment that have not been seen in decades. This is attracting new residents to move to the region; however, research shows businesses are needing more people, particularly at a management level in order to grow.

Population estimates increased by 2,000 people or 1.6 per cent in the year to June 2018 and school rolls also experienced strong growth, with an extra 440 students enrolling in schools across the region in the year to June 2017 (latest data available).

A national Move to Manawatū digital campaign was launched, targeting Auckland, Wellington, Hamilton and Tauranga. The purpose of the campaign was to raise awareness of the lifestyle and career opportunities that exist in Palmerston North and Manawatū and to support businesses and organisations that are trying to attract talent.

The campaign, content and approach were designed with input from more than 20 businesses, employers, recruitment specialists and residents to better understand the challenges and barriers employers faced to attracting new people and the information those people considering the move would want to know before moving. These insights allowed us to ensure the content created included the key messages and information people wanted to know.

The digital campaign reached more than 158,000 people and the videos were watched 64,500 times. The content was distributed to all partner organisations and widely promoted to businesses in the region who feature the information on their websites, social media and in job descriptions.

Move to Manawatū is a content hub on ManawatuNZ.co.nz and features other regional data including population, house and rent prices, the number of cafes and more.

Build the Reputation and Experience
Kia Whaitohu

Building the reputation and experience of our region goes far beyond increasing visitor nights and their direct economic impact. A vibrant region that is welcoming to visitors also attracts new residents, businesses and investment, students and major events.

Destination Marketing
As the Regional Tourism Organisation for Manawatū, CEDA works with key national organisations including Tourism New Zealand, NZ Motor Caravan Association, Air New Zealand and more to maximise the exposure of our city and district nationally and internationally, while establishing Manawatū as a desirable destination by ensuring we’re well equipped as a region to offer a welcoming and memorable visitor experience.

With a fast-growing visitor sector in Manawatū, we work with regional tourism operators to provide support, marketing tools and market insights.

The Country Road experience enables connection with operators and communities to offer expertise, support and connections, ensuring our region’s visitor experience is exceptional, and that our operators and communities are benefiting from increased, sustainable visitation.

Visiting friends and relatives is Manawatū’s biggest visitor market, meaning our locals play an important role in championing the city and region as a place to live and play when they host friends and family. Through consumer-facing social media channels and the regional website ManawatuNZ.co.nz, we showcase inspiring content to attract people to move, visit and study here, while growing regional pride among locals.

Destination Development
Leading the development and growth of the region’s visitor sector, CEDA works with stakeholders across central and local government, iwi and businesses, to ensure growth is well managed, sustainable and beneficial to our communities and residents.

This has led to the development of a Manawatū Destination Management Plan framework in partnership with Palmerston North City Council and Manawatū District Council to fully leverage all that our region has to offer and ensure the lifestyle that is on offer here is protected and enhanced while ensuring that Manawatū is well positioned to both respond and leverage visitor growth.

Regional Identity Strategy
A cohesive regional identity acts as a springboard for destination marketing, building national and international awareness of who we are as a region, what we offer and what our unique value proposition is. Through extensive target market research and collaboration with our shareholders, CEDA is developing a unified and interconnected identity that will enable us to showcase each part of our region – from the city, through to our rural communities - to visitors, and to potential new residents, businesses and investors through our talent attraction work.

Business Events and Conferences
Conferences and business events are a major contributor to the region’s economy and work to attract new business events and support conference organisers to bring events to the region is key.
In the past year, we successfully won five conference bids with an estimated combined economic impact of $980,370. We supported a further 35 conferences to attract them to the region, which will collectively be worth a further $4.4 million.
Attendance at the annual Meetings NZ expo, the only dedicated national tourism event for the conference, meetings, events and travel incentive industry, enabled several upcoming conference bids for the region to be secured along with future leads. A successful application to Air New Zealand’s Business Events Familiarisation Programme will further support our work by contributing to the travel costs for familiarisation visits.

Visitor Information Services
Through the Palmerston North City i-SITE and the Feilding and Districts Information Centre both visitors and resident’s are able to access expert local knowledge, information and national travel booking services.
The Palmerston North City i-SITE’s customer service team were awarded their fifth TripAdvisor Certificate of Excellence award in 2018, and were recognised as national leaders for customer service, receiving the 2018 i-SITE New Zealand Customer Service Award for the first time, presented at the annual i-SITE New Zealand Conference.
Support of the NZ Secondary School Sports Council’s Winter Tournament Week by facilitating the accommodation bookings for 3,000 competitors and visitors to the region and provision of regional information for their stay here ensured the tournament was retained in the region.

Destination Management Plan

In the past five years the number of visitors to Manawatu has grown by more than 30 per cent. In the year to May 2019, visitors spent $487.7 million, up almost five per cent on the year before. Domestic visitor spending was $409.9 million compared to international visitor spending at $77.8 million, according to the Ministry of Business, Innovation and Employment.

The purpose of a Destination Management Plan is to have clear, collaborative alignment across public and private organisations that are involved in the visitor sector to ensure Manawatu is positioned and can respond to ongoing and sustained visitor growth.

Over the past year, a framework for the Destination Management Plan has been developed in partnership with Palmerston North City Council and Manawatu District Council with input from the Ministry of Innovation and Employment.

With the framework now in place the Manawatu Destination Management Plan will include:

- Community engagement
- Marketing the region
- Product development
- Infrastructure
- Council bylaws
- Barriers to growth
- Sustainable and strategic growth

The next steps are to work with stakeholders involved in the attraction, development and maintenance of the visitor sector and the community to help inform the plan, ensuring it reflects the region and shared aspirations of sustainable growth.

Targeted Visitor Growth

A key focus of the Destination Management Plan is to target the right visitors to the region at the right time. To begin with, domestic travellers will be targeted with a view of growing the number of international visitors, through relationships with key national organisations like Tourism New Zealand.

Alongside the development of the Destination Management Plan framework, a complementary piece of research has been undertaken: an extensive audit on the existing visitor experiences that are available in the city and region. The project, known as Capturing A Day in a Visitor’s Journey has helped to identify the barriers, gaps and opportunities in the region’s visitor sector.

As a result of this audit, we packaged together what the region currently offers visitors under key “themes” and then tested these at a Tourism New Zealand trade event in April where we met with 50 travel buyers and sellers to understand what they are looking for in visitor destinations and what their markets needs are.

This has forged strong relationships and a clear road forward on how we can continue building on our visitor offering through the Destination Management Plan over the next one to three years.
Inspiring Locals and Visitors Through Digital and Social Media

(a 20.5% increase on 2017/18: 7,900)

ManawatuNZ.co.nz is the digital window to our region and the platform through which we portray Manawatu’s ultimate lifestyle and visitor offerings using high quality and engaging content, video and imagery.

The content is then widely distributed across social media and digital advertising to support the attraction of new residents, visitors and international students who choose to locate to Manawatu, and to support the efforts of industries and organisations who are trying to attract new people.

Visits to ManawatuNZ.co.nz have now passed a quarter of a million, up by more than 10 per cent on a year ago. This increase has been driven through the creation of specific pieces of content that we know is of interest to locals and visitors alike, including showcasing things to see and do and places to visit in the city and region, coupled with high quality imagery and video.

Visitor-focused regional social media channels – Facebook and Instagram – have experienced strong growth in the past year including more than 20 per cent growth in Facebook users and a 34 per cent rise in Instagram followers. These channels are a core focus of marketing our region and help to drive new users to ManawatuNZ.co.nz. Collectively, these social media channels reach an audience of 27,378.
Te Āpiti – Manawatū Gorge Tourism Opportunity

Investigating the potential of Te Āpiti - Manawatū Gorge as a major visitor destination has been the focus of a feasibility study, following a successful application to the Provincial Growth Fund.

Te Āpiti - Manawatū Gorge is a unique and culturally significant landmark and a rich natural asset in our region. Given the major investment into infrastructure surrounding the Gorge, an opportunity was identified to get a better understanding of the shared aspirations and future opportunities that exist for Te Āpiti and the potential benefits these could bring to regions surrounding it. The study also explored what challenges and barriers exist to developing future opportunities and what public sector investment may be needed to make it more attractive to private and commercial investment.

The feasibility study involved more than 45 stakeholders including private and commercial landowners, iwi, hapu groups, councils, the Department of Conservation and commercial tourism operators from inside and outside the region. It has also investigated a mix of commercial and non-commercial opportunities which span education, conservation, eco-tourism and visitor activities. These could include building on the networks of walking and biking trails, through to cultural and environmental visitor experiences, accommodation and adventure activities such as ziplining.

A major component of the study was getting the perspectives and input of tourism industry experts from around the country. This included a hosted visit to the region so they could experience the city, region and Te Āpiti and provide feedback on what they saw were the biggest opportunities and what steps would be required to make the Gorge more appealing for private commercial investment. This visit was supported by Rangitane o Manawatū, and Rangitane o Tamaki nui a Rua, who shared their unique history and insights with guided walks in and around Te Āpiti.

The study has remained focused on ensuring the development and attraction of any new visitor experience or investment remains true to who the region is, while preserving Te Āpiti’s environmental and cultural values. With a focus on differentiating our region, the aim is to offer unique and genuine experiences that set us apart from other areas and which provide sustainable economic growth, new business opportunities and employment pathways, that will benefit our communities and people.

The final report is due in August 2019.
Media Features

Securing and supporting media features on Palmerston North and Manawatu in local, national and international publications ensures Manawatu has strong and consistent visibility across various print, digital, social media and broadcasting channels.

Features in the past year have focused on the region’s visitor, lifestyle and international education opportunities, and events, through to the growth, expertise and capabilities within some of the region’s key sectors like agrifood and agritech.

We identify opportunities to maximise this media coverage and leverage strong relationships with reporters and editorial teams in leading publications like Kia Ora, AA Traveller and NZ Motor Caravanner Magazine, and industry-specific publications like Economic Development New Zealand’s Mahi Tahi journal and industry bodies like Tourism New Zealand.

In the past year, 44 media articles on the region were featured, with highlights including:

- Kia Ora Magazine – front cover of the March edition and five-page feature article
- Kia Ora Magazine – three-page feature on local bars, cafes and restaurants
- TVNZ Breakfast – Manawatu hosts New Zealand AgriFood Week
- The Spinoff – a feature on Manawatu’s business community
- AA Directions – double page spread on the city’s arts scene
- AA 101 Must Do’s this Summer – Te Apati - Manawatu Gorge and Limestone Creek Reserve Glow Worm Caves Features
- Cuisine Magazine – featuring Plate of Origin’s winning restaurants
- Guiyang News Daily – digital feature on Guiyang scholarship announcement in China

Support the Growth of Business
Whai Pakihi

Growing, retaining and attracting business to the region is at the core of economic development. Having strong, innovative and thriving businesses here drives job growth and increases regional confidence.

Business Growth and Development
As part of the Regional Business Partner programme CEDA’s team of Business Growth Advisors support businesses on their journey through the business lifecycle, enabling growth and development through tailored support and action plans. This requires working in conjunction with seven councils and strong working relationships with businesses throughout the Manawatu-Whanganui region.
A key focus is to champion growth orientated businesses to help them achieve export readiness, explore research and development opportunities, and build their management capability. By partnering with New Zealand Trade and Enterprise, Business Mentors New Zealand and Callaghan Innovation, we are able to deliver an extensive programme of activities and support networks.

Startup Support
Supporting the growth of startups via tailored advice, business mentoring and resources has been a focus for the year, including the delivery of 11 Startup Clinics to assist people to turn business ideas into a reality or grow their startup business to the next level. The development of a Business Startup Guide, a digital one-stop-shop, which features the most critical information for those wanting to begin their first business, has supported this outcome. The guide is focused on the three key areas of viability, structure and strategy, and pulls together a wealth of online resources, tips and advice into one document.

Advancing Innovation
As well as working with Callaghan Innovation to support business innovation through access to research and development grants and funding, ongoing work with Massey University, Crown Research Institutes and businesses, CEDA focuses on building the skills and capabilities of regional businesses to engage and grow in the global digital environment. This ensures we can collectively support and capitalise on innovation opportunities at a national and global level. This is further enhanced by CEDA’s collaborative partnership with FoodHQ and The Factory providing access to global expertise, accelerator programmes such as Innovate, and support of technology businesses in the region, particularly where they align with the regions sectors of strength e.g. Agritech.

Collaboration with The Factory
Innovate 2018 was delivered by The Factory, with the finalists pitching to judges and the community in November. The programme’s main purpose is to encourage local entrepreneurialism, grow young companies, new business and thought leaders as well as new technology. CEDA provided key financial support to this year’s programme, which had 91 entries, 20 of which were shortlisted, and six finalists were selected, and received one on one mentoring.
CEDA’s partnership with Sprout enables us to assist in connecting regional agritech and future food companies to capital and expertise to scale their business.
Sprout’s work also brings industry-leading organisations to the region for their Sprout Partners Summit, national and international investors and corporates visit, as well as their Sprout Underground events, one of which was held during New Zealand AgriFood Week, where startups from around the country and the world come to Manawatū to grow their business.

Sector Development
Key sectors of strength for the region are distribution and logistics, agriculture including food-tech, government including defence, health and education, and digital/technology. CEDA leads the high-level growth and development of these priority sectors, as identified in partnership with our shareholder councils.
By building on what currently exists in the region – businesses, their staff, the infrastructure through to our geographical location – sector development is focused on the fundamentals of economic development, from developing, retaining and attracting people, businesses and investment, to delivering programmes of work that help sectors overcome challenges and barriers to meet growth opportunities.

Business Attraction and Retention
An investment strategy for Manawatū has been developed, with an aim of attracting businesses and investment into the logistics and agrifood sectors and supporting the expansion of existing businesses in these sectors. The strategy and resulting action plan defines Manawatū’s strategic advantage and value proposition, identifies primary themes that will underpin successful execution, clearly defines the market approach, the implementation plan, success metrics and core competencies required for success.
By partnering with our councils, central government agencies, iwi, The Factory and the private sector, CEDA works to ensure that Palmerston North and Manawatū are seen as investment ready and deliver compelling reasons for establishment in our region. Post investment or relocation support services to companies or individuals ensures ease of settlement, retention, and the identification of future expansion opportunities.
Collaboration with FoodHQ

FoodHQ is a partnership involving most of New Zealand’s capability in food science and innovation, partnering with public and private sector research, education and industry organisations, with support from local government. CEDA provides ongoing support to FoodHQ as a key enabler to the development of foodtech in the region and to support its vision to have New Zealand recognised as a world leader in high value food production.

Support was also provided to FoodHQ this year through contribution towards the economic analysis component of their provincial growth fund application. The application will support FoodHQ’s objectives of attaining global relevance and recognition in food science and innovation; and providing easy access for food businesses to the full value of New Zealand’s food science and innovation capability.

Regional Support for Provincial Growth Fund Applicants

To ensure there was a coordinated, aligned and strategic approach to all applications from Manawatū to the Provincial Growth Fund, support, guidance and feedback was provided to 16 fund applications over the year. This approach enabled us to identify and connect opportunities, linkages and to avoid duplications and to ensure connectivity to other Manawatū regional strategies, objectives and applications within the region.

Manawatū Business Awards

The biennial Westpac Manawatū Business Awards were successfully delivered during the year, recognising and celebrating the best businesses in Palmerston North and Manawatū. 390 guests were hosted at the Gala Awards evening, with 115 nominations received in total, 48 businesses received preliminary judging feedback, and 22 progressed to the finalist round, with 12 awards for business excellence given on the night.

Supporting and Developing the Region’s Sectors of Strength

Project Unlock
The defence, distribution and logistics, digital and information technology, and education sectors account for more than 17,000 jobs across Manawatū and contribute hundreds of millions of dollars to the overall economy, according to Statistics New Zealand.

Project Unlock was developed as a broad and holistic approach to sector development plans for the distribution and logistics, education, defence and digital/technology sectors, to get a better understanding of shared challenges, barriers and opportunities.

A workshop with key regional and national stakeholders and expertise from across the sectors, explored shifting global work trends, the impact of technology on the workplace, differences in generational attitudes and employment values, before bringing a national and regional lens to focus on the challenges, risks, barriers and opportunities businesses and organisations are facing within these sectors.

The outcome from the Project Unlock is a collection of key workstreams, actions and outputs, which align to addressing regional skills gaps, developing effective approaches to training and retaining staff, having industry-led skills and training development, through to collaboration and strategic partnerships, including central government connections.

This builds on the work previously undertaken in the distribution and logistics sector, with a focus on strengthening the talent pipeline in partnership with Talent Central, developing the business attraction and retention proposition for this sector, and work with Accelerate25 to support the development of Manawatū as the central logistics hub for the North Island.

Health Sector Scoping Study
The health care and social assistance sector is one of the largest employers in Manawatū, accounting for 13,100 jobs and contributing $431 million in the year ended March 2017, according to Statistics New Zealand.

Palmerston North is known for its central location and ease of access to health services, including the Palmerston North Hospital, Mid Central District Health Board and much more. The region’s growing population is reflected in the rising number of enrolments to health services, which grew by 2,760 people (or 2.6 per cent) in the year ended March 2019, according to Central Primary Health Organisation figures.

During the year, research was undertaken to better define opportunities within the health sector, with input from key stakeholders including the Mid Central District Health Board, Te Tahi Whānau Ora Alliance Charitable Trust, MASH Trust, Crest Hospital, Massey University and more. This input was focused on global, national and regional trends, the challenges and disruptors within the sector and central government policy drivers – especially as New Zealand works towards the Wellbeing budget.

Identifying the challenges within the sector, from the attraction and retention of skilled staff to an aging population and shifting, better enables the ability to identifying programmes and connections that will support the growth and development of the health sector.

Manawatū based agri-tech company Biolumic...
Strengthening Manawatū’s Agrifood and Agritech Ecosystem

Agritech is a pivotal point of difference and strength for Manawatū. The sector is one part of the region’s wider agrifood landscape and requires a focus on developing, growing and deepening the capabilities that exist here. This includes developing the skills and talent we have already, growing the businesses that are based here and raising international awareness to unlock even greater potential for the region.

An important part of this work has been the development of the Manawatū Agritech Strategy, which has been created in partnership with Sprout, the global agritech accelerator based in Manawatū.

The sector-led strategy was completed in June, with the input of more than 20 industry leaders including entrepreneurs, large commercial companies, research and education institutions, iwi, local government and more.

The strategy identifies and aligns the region’s key agritech stakeholders and includes:

- A shared definition of agritech
- Defines the regional and national agritech landscape
- Identifies the gaps that would act as barriers to Manawatū becoming a global leader in agritech and how these can be overcome
- A vision of what Manawatū’s global agritech hub will be known for in 20 years’ time
- Four clear areas of actions which will enable the region to achieve the vision: funding new ideas, connecting and growing talent, developing a physical infrastructure that signifies a hub and building a brand
- A three-year overview of the programmes and activities required to deliver outcomes to ensure Manawatū is one of the top three agrihubs in the world

The Agritech Strategy features bold and ambitious goals, reflecting our shared vision for the region, but it also includes tangible steps and programmes that can be achieved in the short-term.

Manawatū’s agritech ecosystem is made up of 68 international and national organisations across the value chain, from education and research, finance, production, farmers and growers, post-harvest, startups, SMEs and large corporate companies. The sector is estimated to contribute roughly $1.30 million to the region’s economy, while the broader agrifood sector contributes $606 million and employs 8,600 people, according to the agritech strategy.

Manawatū’s agritech ecosystem is made up of 68 international and national organisations across the value chain.
New Zealand AgriFood Week 2019

The agrifood sector employs more than 8,600 people locally and contributed $666 million to the region’s economy in the year to March 2018, according to Manawatū District Council and Infometrics. Strong primary sector prices (meat and dairy in particular) are underpinning levels of economic growth that have not been seen for many years in Manawatū.

New Zealand AgriFood Week is a flagship event for Manawatū and aims to raise awareness of Palmerston North and Manawatū’s leadership, capabilities and expertise in agri-food – from research, development, production, agitech and agribusiness.

As the nation’s only week dedicated to celebrating, showcasing and driving a future-focused conversation around food, it provides a platform for extensive national media coverage and puts Manawatū’s leadership in developing one of the country’s key industries on front and center stage.

This year marked the fourth and largest New Zealand AgriFood Week, with an inaugural international keynote speaker – Rob Ward of The Grocery Accelerator – and more than 15 events, workshops and competitions held.

The Week was supported by industry-leading sponsors – ASB, AgResearch, Plant and Food Research, AgMARDT and Fonterra – as well as 18 partners, both local and national.

Events and workshops featured the smartest minds across the food value chain, locally, nationally and internationally. Presenters and speakers included leading researchers, farmers and growers, young entrepreneurs, and representatives from global commercial food companies who presented on the latest challenges, barriers, opportunities and new approaches to producing, manufacturing and selling food.

Raising the national profile was a key objective for 2019 and was achieved through hosting an international keynote speaker and the execution of a comprehensive marketing and communications campaign. The inaugural AgResearch Future Feeder and ASB Perspective 2025 were both sell-out events, highlighting audience demand for the thought leaders who presented at both. The Official Opening reached audience capacity, was opened by the Prime Minister’s Chief Science Advisor Juliet Gerrard and followed by our keynote speaker Rob Ward.

Pint of Science – global science festival launched for the first time

Pint of Science is an award-winning international science festival that’s held concurrently around the world in May, which CEDA brought to New Zealand for the first time in 2019.

Bringing the festival to New Zealand and Palmerston North meant we joined more than 400 cities and 24 countries across the globe, shining a spotlight on the breadth and capabilities we have across research and innovation in the city.

Together with Massey University, Fonterra and Horizons Regional Council researchers, more than seven events were held across the wider Manawatū-Wanganui region over the festival, with topics ranging from how cows and beers co-exist to the state of our region’s environment, and the relationship between aging, food and your brain.

Supporting and Enabling the Growth of Startups

Fostering a dynamic and supportive business environment where people can launch startups or begin new business ventures attracts like-minded people and creates new jobs, making our region even more attractive to new entrepreneurs and investors.

Connecting a Startup with a Business Mentor

Artist Sophia Parun, of Ngāi Tahu descent, was able to tap into the support of Puna Pakihi, a business support programme developed by Te Rūnanga o Ngāi Tahu. Its goal is to help Ngāi Tahu whanau reach their business potential and make their ideas a reality. As part of this support, they assist in linking new businesses with the right business mentor and in Parun’s case this was achieved through the Business Mentor’s New Zealand programme, which is delivered by CEDA.

“Having a mentor streamlined the process of starting a business as I had so much support. He was always encouraging and was a huge help in developing a robust business plan. I wouldn’t be where I am today without him,” said Parun.

Parun found that her mentor not only gave her sound business advice but was also someone to talk to about struggles and doubts, being able to empathise and give timely encouragement.

“The constant learning and inspiration have been invaluable. The follow up contact to check how the mentoring is going and the support to help me through the next stages of business, has been fantastic. It’s great to have that ongoing relationship and know that others out there are genuinely interested in what and how you are doing.”

Parun is now part of the Regional Business Partner programme and is working with a Business Growth Advisor for the next phase of her business journey.

“Having a mentor streamlined the process of starting a business as I had so much support. He was always encouraging and was a huge help in developing a robust business plan. I wouldn’t be where I am today without him.”
Business Success Story: Levno

Levno is the brainchild of entrepreneur Larry Ellison who has built and grown several successful companies in Palmerston North.

He founded Levno in 2012 with a goal of providing farmers with one place for on-farm data and insights by creating technology that monitors fuel, milk and water. The team began with two people and is now at more than 20, including Massey University graduates.

Levno began working with CEDA four years ago and over this time has received two Callaghan Innovation Research and Development Project Grants, six Student Experience Grants, and co-funding for training programmes to upskill staff in areas such as intellectual property, software development practices, and Lean principles, through the Regional Business Partner programme.

The Student Experience Grants have provided Levno with specific support to undertake research and development on internal projects, by matching Massey University engineering students with the company. This connection has also provided the students real commercial experience over their university summer break.

“We’ve been really lucky to have those students work for us,” says Levno’s founder Larry Ellison.

The students have worked on projects including updating the accuracy of fuel sensors and building an app that reduced installation time by a significant amount. At the completion of the projects, two students have been employed full time.

One of those is Michael Coleman, Levno’s Embedded Software Engineer.

He gained an internship with Levno during his university summer break between his third and fourth year and then went on to work on a specific programme for the company for 12 months, before being employed full time.

“I liked the idea of coming to Levno because I came from a dairy farm and most of our key customers are dairy farmers. The work is very broad, normally an engineer specialises in one or two areas, but we get a great mix of the firmware, hardware, circuit board design and the mechanical design work as well,” he said.

This year, three more Massey University students are working one day a week at Levno following their summer internships.

They are working on a project to develop a product that can assign fuel withdrawal from a fuel tank on farm to a vehicle and a person.

“It is great to work on this product at Levno because usually at university we don’t get a real-world perspective on our problems,” said Liam Potts, a Product Development Intern.

Having Massey University locally and access to tertiary students through the Student Experience Grants means Levno can identify students who will be a good fit for the company in the long term, said Levno’s New Product Development Manager Michael Davis.

“It means we can develop the students to make sure they’re the best engineers they can be by the time they finish.”

This support has enabled Levno to grow, keep ahead of technology and has placed them in a great position to move forward, said Ellison.

“It is great to work on this product at Levno because usually at university we don’t get a real-world perspective on our problems.”
Manawatu based company Leivo
Business Success Story:
Beta Solutions

Matthew van der Werff and Terry Southern founded Beta Solutions in 2006 in Matthew’s sleepout attached to his garage. The pair became good mates while studying a Bachelor of Engineering, majoring in Mechatronics, at Massey University in Palmerston North.

After spending a few years working in the electronics industry, they saw an opportunity to start their own electronic design service in the city.

Beta Solutions specialises in electronic product design and development, creating hi-tech products like aviation GPS tracking systems, tank monitoring devices, LED lighting systems and advanced motor controllers for clients all around New Zealand, including Resene, Ravensdown, and Biolumic, plus international clients as well.

“We are privileged to partner with so many entrepreneurs and innovative businesses to help transform their ideas into reality,” said Beta Solutions Chief Executive Terry Southern.

From a modest beginning, they built Beta Solutions from the ground (well, garage) up. After outgrowing their small office in the sleepout, they shifted into The Factory’s co-working space where they learnt the basics of building a company.

In 2016 they were again outgrowing the space and set about to find their own premises. Today, their team can be found in a purposely designed office space that stretches across the first floor of an inner-city building that overlooks Broadway Avenue. Stylish greenery hangs from the walls and divides the open plan office space from the communal areas. At one end of the office is a table tennis table and the other is a mini-golf, the company’s professional yet fun, people-focused culture is evident as soon as you walk in.

Being engineers, building something was not daunting, but early on Matthew and Terry recognised they needed support to help them grow and develop their company.

They connected with our team of Business Growth Advisors in 2012 and have worked with a Business Growth Advisor over the past eight years, receiving support in several ways to help them achieve their business goals. This has included Callaghan Innovation Fellowship and Student Experience Grants, and connection to training providers to help develop their senior leadership team and build better governance skills, through the Regional Business Partner programme.

Southern said being able to work with a Business Growth Advisor has helped them to pinpoint the specific areas they needed to upskill in – leadership, governance, sales and negotiation training.

Beta Solutions has invested in developing processes, modernising equipment and expanding their service offerings. They have also established a board of directors as a result of governance training, and Southern said this leadership has been pivotal to the company’s success.

“The board helps to guide us in key areas around the future of our business, and strategies, so we are not just focused on management issues.”

The company also employed two Massey University graduates who worked for them over the university summer break through Callaghan Innovation’s Student Experience Grants. The students worked on specific internal research and development projects in areas the company identified to innovate in, and Beta Solutions employed them at the end of their study.

“Being able to hire someone like a Massey University graduate who has already worked with us for a period of time, has been great for our business growth.”

Van der Werff said the company has experienced significant growth over the past decade.

“Moving forward, we will continue to focus on using our experience and culture of continuous learning to design excellent and commercially viable products for our clients.”
Build an Environment Conducive to Economic Growth
Ko tahi te hoe

Strengthening Iwi and Māori Engagement
An iwi and Māori Engagement framework has been developed to support and enhance CEDA’s engagement with iwi and Māori based on the Treaty of Waitangi. When connecting with iwi and Māori, the framework with which to engage includes; Kawanatanga/Governance, Rangatiratanga/Self Determination and Rite, Tahi/Equality.

Our priority is to have strong relationships with local iwi and Māori to:
• Facilitate effective Māori engagement to improve business and economic growth outcomes;
• Help develop partnerships and relationships with Tangata Whenua/Ra Ngatira;
• Improve understanding of Tikanga and Maurauanga Māori; and
• Add value to what we do as CEDA

Providing Regional Insights and Analysis
CEDA strives to be the go-to experts for insights, data and analysis on the local economy and priority sectors including the visitor economy.

Working closely with economists at Palmerston North City Council and Manawatū District Council, we keep our finger on the pulse of economic trends locally and how we compare to other regions nationally. We produce regular economic updates and overviews that are communicated to a database of regional leaders, stakeholders and the business community. We also partner with Manawatū Chamber of Commerce to deliver two Regional Economic Update events, annually.

Having a sound understanding of regional and national trends and communicating this within the region enables us to play a crucial role in knowing the strengths our region can build on, the weaknesses we can improve on and barriers we can bring down.

We aim to play a leading role in enabling the coordination, connection and delivery of outcomes by striving for the transparency and alignment of the many economic development projects and initiatives that are already happening or are planned across our region.

With this knowledge CEDA can ensure smart investment of resources, funds and expertise, and is able to achieve high impact results for our region.

Partnerships
Connect, Enable and Create – bringing our diverse stakeholders into one conversation, steering others in the same direction, and coordinating our region’s collective capability towards achieving great things together.

We’re here to ask the hard questions about economic growth and challenge stakeholders to deliver on a broader sense of economic, social, cultural and environmental wealth. While responsible for the prosperity of Palmerston North and Manawatū, CEDA is already working further afield and partnering with other regions, as to achieve success in a national and global market, partnerships are something we’re going to need more of.

See Appendix for a list of Partners we currently work with.
Nāku te rourou nāu te rourou ka ora ai te iwi
With my basket and yours, the people will thrive
How We Allocate our Resources

CEDA receives funding from Palmerston North City Council and Manawatu District Council, its shareholders, in the form of contributions to operations as well as funds for specific contractual services or projects.

We also receive funding from institutions and government partners for initiatives that bring benefit to the wider region and nationally.

This additional resource, the ability to invest in local businesses, and engage in specific sector work important to the region and beyond.

Specific funding is received from commercial organisations for sponsorship of programmes and joint projects as identified.

Our funding

Council funding 70.5%
Central Government funding 17.6%
I-SITE Revenue 4.3%
Industry contribution 7%
Other revenue 0.6%

How we allocated our funding

- Inward Investment Expenses
- Director and Board Expenses
- International Education
- Visitor Information Services
- Sector Events
- Economic Development Projects
- Regional Marketing Expenses
- Business, Innovation and Sector Development

*Note: employee and operating expenditure where not directly related to a project or activity has been allocated on a percentage of expenditure incurred basis.
How We Operate

In keeping with best management practice, CEDA aims to operate efficiently and effectively. As a future-focused organisation we are committed to supporting initiatives that enhance and protect our natural and built environment.

As a Council Controlled Organisation we are also aware that much of our funding is derived from public monies and therefore all expenditure is subject to a standard of probity and financial prudence, and able to withstand public scrutiny. We work to optimise existing funding and generate savings from within current funding arrangements in order to deliver value for money to the shareholders and the rate payer.

Treaty of Waitangi
CEDA recognises the principles of the Treaty of Waitangi and acknowledges the importance of partnering with local iwi and recognition of Tangata Whenua in the region.

Health and Safety
We regard the promotion and maintenance of health and safety as a mutual objective for everyone who works, visits, or has business with CEDA. We are committed to the health and safety of all workers, visitors and the public across all business premises and work sites by undertaking all measures reasonably practicable to provide a safe working environment.

We believe that creating and maintaining a healthy work environment is a shared, co-operative venture, where both employees and employers have roles and responsibilities, including the maintenance of a balance between work and non-work activities.

As such, CEDA will ensure it meets its obligations with respect to obligations as a Regional Tourism Organisation, New Zealand laws and regulations and will undertake annual reviews based on established best practice guidelines.

Our People
The team at CEDA are a passionate group of people driven to grow and develop the wider region. With expertise in marketing, communications, events, national travel, business advice and development, collectively they are an effective support team, all connecting with the community to foster regional and economic development. Our focus is on building an organisation that has a culture, capacity and capability to deliver on expectations.

CEDA’s success is underpinned by its people, connections and networks both locally and globally. Investment in this resource is critical to creating value and outcomes.
Our Values
Our values when demonstrated every day, help to change individual and collective mindsets so that we can all deliver great outcomes and create a workplace in which people feel valued for delivering results.

Together we can achieve more
Believe in what you do and how you do it
Mauria te pono Believe in yourself
Be proud and take ownership

OUR PURPOSE
Drive and facilitate the creation and growth of economic wealth in Manawatū and beyond

Naku te rourou naku te rourou ka ora ai te iwi
With my food basket and yours the people will thrive

Whāia te iti kahurangi, ki te tuohu koe, me he maunga teitei
Seek the treasure that you value most dearly, if you bow your head, let it be to a lofty mountain

- **Showcasing the Region**
  - A programme of activity was delivered to showcase the region to international students:
    - Two videos were produced showcasing international students who stayed on for work in the region.
    - International education promotional material was extended to include Thai and Vietnamese (to supplement existing English, Japanese and Chinese material).
    - A regional story was featured on the Education NZ WeChat channel. Manawatu Stories WeChat channel created, featuring regular articles on life in the region and the education experience.
    - An e-newsletter published in December, circulated to a database of 120 agents and 60 related parties.

As part of developing education recruitment agent relationships CEDA hosted five Auckland-based agents and one Guiyang-based agent for 3.5 days in November, hosted ENZ led Japanese agent group for half a day in October and participated with four local schools at Schools International Education Business Association agent workshop in March.

Leveraging off memorandums of understanding signed by Central regions in Guangzhou 2018 to continue building relationships and the Central Regions footprint in China and Japan:

- Six Manawatu education providers visited Guangzhou and Shenzhen as part of a CEDA-led Central Regions mission to China.

**Student Experience**

As part of the Welcoming Communities pilot a programme of international student events were held during the year in collaboration with education providers and PNCC:

• An inaugural Student Connect event - pizza and fireworks – with 100+ students in attendance

• Festival of Colours held in conjunction with the Festival of Cultures

• Two Mayoral Welcomes with around 220 students attending both events.

Welcome signage was also placed at Palmerston North Airport for the arrival of international students to Palmerston North.

**Pathways to Employment**

An employability project has been commenced with the completion of a Manawatu scoping study. The study, informed by students, tertiary education organisations, employers and local experts, identifies existing employability support in the region, potential gaps, and possible interventions to fill the gaps.

A Study to Work seminar for international students was held at the annual Sort It Careers Expo attended by approximately 40 international tertiary students.

**Te Aho Tāmaka**

Te Aho Tāmaka was launched in December 2018, a New Zealand first regional growth initiative designed to celebrate and engage with highly influential and successful leaders that are connected to Manawatu, locally, nationally and internationally, and help inspire our younger people and grow regional pride.

| Grow a skilled workforce and talent pipeline that meets the needs of priority sectors | Programmes and initiatives developed and delivered to meet needs identified through regional skills gap analysis | 2 programmes delivered | Talent Central Collaboration  
CEDA funded Talent Central to identify and connect talent, particularly youth, with employment opportunities across our region.  
- Application to Te Aro Mahi (Provincial Growth Fund) to expand key education to employment pipeline initiatives, specifically the Work Ready Portfolio, extending the pathways programme across four sectors of strength, and ensuring all young people in the region obtain their drivers licence. |

- Delivery of the Work Ready Portfolio on a digital platform into schools across the region  
- Development of a work experience programme across all industries and developed with consultation from local employers through the Talent Central Industry Advisory Group.  
- JobFest 2018 where over 800 students engaged with just under 20 regional employers.  
- A partnership developed with National Driver Training Centre to deliver Class 1 Licences to school students – a key component of being work ready in the Talent Central Work Ready Portfolio  
- Awesome Summer Jobs – a summer work programme for graduates was delivered to Massey University students (75 graduates applied, 32 successfully interviewed and eight were placed into roles) with some graduates doing the Work Ready Portfolio and receiving help with CV writing and interview techniques.  

Primary Sector Skills Gaps  
Research undertaken to understand where the main talent and skills gaps are in the Primary Sector across Manawatu and subsequent growth barriers in food production in the region. Partially funded by the Ministry of Business Innovation and Employment, specifically through CEDA’s partnership agreement with Immigration NZ, this research will help inform our talent and skills retention strategy, and future of work project.
## Grow and Retain Education and Talent

### Sort It Careers Expo
Delivery of the 2019 Sort It Careers Expo, with over 5000 attendees and 80 exhibitors, with an aim to help future-proof the region’s workforce by providing an opportunity for local and national businesses, industries, training and education providers to showcase what a career in their field can offer, and providing attendees with important information on different pathways that they can follow.

### NxtStep Manawatū
CEDA commenced a pilot project aimed at increasing the New Zealand tertiary talent that is interested in starting their career journey in the Manawatū, by digitally connecting with tertiary students and graduates across New Zealand. The initial focus is on graduate jobs, internships and entry-level positions.

### Move to Manawatū Campaign
An extensive digital campaign, Move to Manawatū, was launched, aimed at raising awareness of the lifestyle and career opportunities in the region. The campaign was targeted to Auckland, Wellington, Hamilton and Tauranga and included Facebook, Instagram, YouTube advertising as well as digital video advertising during The Block. Results include reaching more than 158,187 people, 64,486 video views to the end, and 4719 unique visitors to ManawatūNZ.co.nz.

CEDA has had an active role in the Accelerate25 Talent and Skills Sub-committee, which has now developed into the Manawatū regional skills and talent group which CEDA Chairs.

Event Support

CEDA has supported over 35 key city and regional events to showcase the vibrant events scene, to both a local and national audience. Partnering with Air New Zealand has resulted in monthly events featured in Kia Ora Magazine. Six major events were measured, looking at the economic impact and overall visitor experience for the region. These events included National Young Performers, Superstock Teams Champs, Grand Prix and Harlem Globe Trotters. The results showed the likelihood of visitors to these events recommending the city and region to friends and family was 79.5%.

**FoodHQ Collaboration**

Support was provided to FoodHQ to contribute to the economic analysis component of their provincial growth fund application. The application will support FoodHQs vision to have New Zealand recognised as a world leader in high value food production.

**New Zealand AgriFood Week**

CEDA led the strategic direction of the 2019 New Zealand AgriFood Week with 15 events being held over the week. New Zealand AgriFood Week showcases Palmerston North and Manawatu's leadership, capabilities and expertise in agrifood – from research, development, production, agritech and agribusiness.

CEDA delivered five key events, with 500 attendees, as well as the overall marketing and communications for the week, resulting in National Coverage with 20 articles, features, radio and television interviews, and 947,820 digital views, including 505,750 on social media.

Support was provided to partner events including the AgTech Hackathon, which connects tech talent to employers in the primary industry.

A specialist marketing workshop for regional food producers was held with Rob Ward, Co-Founder and Director of The Grocery Accelerator.

**Pint of Science**

CEDA launched the global science festival, Pint of Science, in New Zealand for the first time and partnered with Massey University, Fonterra and Horizons Regional Council to deliver their latest research through events. The aim of the festival is to connect researchers with an audience to present and discuss their research, and in turn raise the profile of the depth and capabilities of researchers in some of Palmerston North and Manawatu’s sectors of strength, including food innovation, agriculture (business and tech) and health.

Six events were held. Media coverage included digital and television.

**The Factory Collaboration**
CEDA provided key financial support to Innovate 2018, which had 91 entries, 20 of which were shortlisted, and six finalists were selected. CEDA provided additional support through the provision of two mentors and a judge. Innovate works with entrepreneurs to turn ideas into reality.

Support was also provided to the Sprout Agritech Accelerator which worked with ten businesses, including two international companies from the USA, to scale up their businesses and internationalise.

CEDA provided judging support the Young Enterprise Scheme, to encourage secondary students into entrepreneurship.

Monitoring Indicators

In addition to our performance measures, the shareholders have identified a further set of monitoring indicators. These indicators reflect outcomes at the regional level which are impacted by a range of factors outside of our control, for example, exchange rates, natural disasters, government policy. As the region’s economic development agency, we have a role in monitoring and influencing these indicators where we can, however we do not measure the performance of our organisation against them.

The councils have the responsibility to report on these indicators.

Corporate Report

For the year ended June 2019

Ownership
Central Economic Development Agency Limited ("CEDA") is a Limited Liability Company incorporated and registered under the Companies Act 1993.

CEDA is a council-controlled organisation as defined in section 6 of the Local Government Act 2002. The shareholders of CEDA are Palmerston North City Council (50%) and Manawatu District Council (50%).

CEDA's Mission and Principal Activities
The primary objective of CEDA is to drive and facilitate the creation and growth of economic wealth for Manawatu and beyond.

CEDA's principal activities during the year to 30 June 2019 were directed by the Statement of Intent 2018/19 under the key strategic objectives of; support the growth of business, grow and retain education and talent, and enhance the brand and experience of the region.

Company's Affairs
The Directors regard the state of the Company's affairs to be satisfactory. Details of the year under review are included in the joint Chairman's and Chief Executive's Report and the statutory accounts of the Company published herewith.

The Directors are responsible for the preparation of CEDA's financial statements which give a true and fair view of the financial position of CEDA as at 30 June 2019 and the results of its operations and cash flows for the 12 months ended on that date.

The Directors consider that to the best of their knowledge and belief the financial statements have been prepared using accounting policies appropriate to CEDA's circumstances, consistently applied and supported by reasonable and prudent judgments and estimates.

The Directors have the responsibility for establishing and maintaining a system of internal controls designed to provide reasonable assurance as to the integrity and reliability of financial reporting. The Directors consider that to the best of their knowledge and belief adequate steps have been taken to safeguard the assets of CEDA and to prevent and detect fraud and other irregularities.

In our opinion, these financial statements and statement of performance fairly reflect the financial position and operations of CEDA for the year ended 30 June 2019.

Directors

Retirements
No Directors retired during the 2018/2019 financial year.

Appointments
During the 2018/2019 financial year the following Directors were reappointed to the Board:

- Malcolm Bailey, 13 December 2018
Corporate Report

Directors remuneration
The amount of $180,000 per annum to 30 June 2019 and $168,390 (pro rata for Susan Foley) to 30 June 2018 was paid, or due and payable, to members of the Board as authorised by the shareholders as follows:

No other remuneration or benefits other than reimbursement of expenses has been paid or given to Directors.

Directors indemnity and insurance
The Company is responsible for the payment of Directors indemnity insurance premiums.

Use of company information by Directors
There were no notices from Directors of the Company requesting to use company information received in their capacity as Directors that would not otherwise have been available to them.

Shareholding by Directors
During the year there were no shareholding transactions involving Directors.

Directors interests
During the course of the year to 30 June 2019, Directors declared interest in the following entities:

The accompanying accounting policies and notes form part of and are to be read in conjunction with these financial statements.
Notes to Accounts

1. Reporting Entity
Central Economic Development Agency Ltd (CEDA) was established and commenced operations in New Zealand on 15 October 2015 under the Companies Act 1993 (NZBN 9429042001096). As the shareholders of CEDA are Palmerston North City Council (50%) and Manawatū District Council (50%), CEDA is a council-controlled organisation as defined in section 6 of the Local Government Act 2002. CEDA has designated itself as a public benefit entity (PBE) for financial reporting purposes. The financial statements of CEDA are for the 12 months ended 30 June 2019.

2. Statement of Accounting Policies

Basis of Preparation
The financial statements are prepared on the going concern basis, and the accounting policies have been applied consistently throughout the period, unless otherwise stated.

Statement of Compliance
The financial statements of CEDA have been prepared in accordance with the requirements of the Local Government Act 2002, the Companies Act 1993, and the Financial Reporting Act 2013. This includes the requirement to comply with generally accepted accounting practice in New Zealand (NZ GAAP).

These financial statements comply with Public Benefit Entity International Public Sector Accounting Standards (PBE IPSAS) Reduced Disclosure Regime (RDR). CEDA is eligible and has elected to report in accordance with Tier 2 PBE standards RDR on the basis the entity has no public accountability and has expenses > $2m and < $30m.

Presentation Currency
The financial statements are presented in New Zealand dollars (NZ$) and all values are rounded to the nearest NZ$, except when otherwise indicated.

Historical Cost
These financial statements have been prepared on a historical cost basis.

Changes in Accounting Policies
There have been no changes in accounting policies. Policies have been applied on a consistent basis with those of the previous reporting period.

Revenue Recognition
Revenue is measured at the fair value of the consideration received or receivable for the sale of
goods and services, excluding goods and services tax rebates and discounts, to the extent it is probable that the economic benefits will flow to the entity and revenue can be reliably measured. Specific accounting policies for significant revenue items are explained below:

Sales of goods are recognised when the goods are sold to the customer.

Sales of services are recognised in the period by reference to the stage of completion of the services delivered at balance date as a percentage of the total services to be provided.

Lease revenue is recognised on a straight-line basis over the life of the lease.

Interest received is recognised using the effective interest method. Interest revenue on an impaired financial asset is recognised using the original effective interest method.

Grants are recognised as revenue when they become receivable unless there is an obligation in substance to return the funds if conditions of the grant are not met. If there is such an obligation, the grants are initially recorded as grants received in advance and recognised as revenue when conditions of the grant are satisfied.

Donated assets. Where a physical asset is gifted to or acquired by CEDA for nil consideration or at a subsidised cost, the asset is recognised at fair value. The difference between the consideration provided and fair value of the asset is recognised as revenue. The fair value of donated assets is determined as follows:

- For new assets, fair value is usually determined by reference to the retail price of the same or similar assets at the time the asset was received.
- For used assets, fair value is usually determined by reference to market information for assets of a similar type, condition, and age.

Inventories

Inventories held for use in the provision of goods and services on a commercial basis are valued at the lower of cost and net realisable value.

The amount of any write-down for the loss of service potential or from cost to net realisable value is recognised in the surplus (deficit) in the period of the write-down.

Property, Plant and Equipment

Property, plant and equipment are stated at historical cost less any accumulated depreciation and impairment losses. Historical cost includes expenditure directly attributable to the acquisition of assets and includes the cost of replacements that are eligible for capitalisation when these are incurred.

An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is derecognised.
Notes to Accounts

**Depreciation**

<table>
<thead>

</tr>
</tbody>
</table>

**Income Tax**

Income tax expense includes components relating to current tax and deferred tax.

Current tax is the amount of income tax payable based on the taxable profit for the current year, and any adjustments to income tax payable in respect of prior years.

Deferred tax is the amount of income tax payable or recoverable in future periods in respect of temporary differences and unused tax losses. Temporary differences are differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which the deductible temporary differences or tax losses can be utilised.

Deferred tax is not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition of an asset or liability in a transaction that affects neither accounting profit nor taxable profit.

Current and deferred tax are measured using tax rates (and tax laws) that have been enacted or substantively enacted at balance date.

Current and deferred tax is recognised against the profit or loss for the period, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

**Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts.

Bank overdrafts are shown within borrowings in current liabilities in the statement of financial position.

**Receivables**

Receivables are recorded at their face value, less any provision for impairment.

**Impairment of financial assets**

Financial assets are assessed for evidence of impairment at each balance date. Impairment losses are recognised in the surplus or deficit.
Notes to Accounts

Loans and receivables
Impairment is established when there is evidence CEDA will not be able to collect amounts due according to the original terms of the receivable. Significant financial difficulties of the debtor, probability that the debtor will enter into bankruptcy, receivership, or liquidation and default in payments are indicators that the asset is impaired. The amount of the impairment is the difference between the asset’s carrying amount and the present value of estimated future cash flows, discounted using the original effective interest rate. For debtors and other receivables, the carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognised in the surplus or deficit. When the receivable is uncollectable, it is written-off against the allowance account. Overdue receivables that have been renegotiated are reclassified as current (that is, not past due). Impairment in term deposits or bonds are recognised directly against the instrument’s carrying amount.

Payables
Short-term creditors and other payables are recorded at their face value.

Equity
Equity is the shareholders’ interest in CEDA and is measured as the difference between total assets and total liabilities.

Good and Services Tax
All items in the financial statements are stated exclusive of GST, except for receivables and payables, which are presented on a GST inclusive basis. Where GST is not recoverable as input tax, it is recognised as part of related asset or expense.
The net amount of GST recoverable from, or payable to, the IRD is included as part of receivables or payables in the statement of financial position.
The net GST paid to, or received from, the IRD, including the GST relating to investing and financing activities, is classified as operating cash flow in the statement of cashflows.
Commitments and contingencies are disclosed exclusive of GST.
Notes to Accounts

Employee Entitlements
Employer contributions to KiwiSaver are accounted for as defined contribution superannuation schemes and are expensed in the surplus or deficit as incurred.

Short-term employee entitlements - Employee benefits that are due to be settled within 12 months after the end of the year in which the employee provides the related service are measured based on accrued entitlements at current rates of pay. These include salaries and wages accrued up to balance date, and annual leave earned but not yet taken at balance date, and sick leave. These are classified as a current liability.

A liability and an expense are recognised for bonuses where there is a contractual obligation or where there is past practice that has created a constructive obligation and a reliable estimate of the obligation can be made.

CEDA does not provide for long service or retirement leave entitlements.

Provisions
A provision is recognised for future expenditure of uncertain amount or timing when there is an obligation (either legal or constructive) as a result of a past event, it is probable that an outflow of future economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to the passage of time is recognised as an interest expense and is included in 'finance costs'.

Leases - Where CEDA is the Lessee
An operating lease is a lease that does not transfer substantially all the risks and rewards incidental to ownership of an asset to the lessee. Lease payments under an operating lease are recognised as an expense on a straight-line basis over the lease term. Lease incentives received are recognised in the surplus or deficit as a reduction of rental expense over the lease term.

Critical accounting estimates and assumptions
In preparing these financial statements CEDA has made judgements, estimates and assumptions concerning the future.

These judgements, estimates and assumptions may differ from the subsequent actual results. Judgements, estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are:

- Useful lives and residual values of property, plant, and equipment – refer to Note 11.
- Fair value of property, plant and equipment – refer to Note 11.

Critical judgements in applying accounting policies
Management has exercised the following critical judgements in applying accounting policies:

- Funding received – refer to Note 4.
3. Subsidiaries
CEDA consolidates in the group financial statements all entities where CEDA has the capacity to control their financing and operating policies so as to obtain benefits from the activities of the subsidiary. This power exists where CEDA controls the majority voting power on the governing body or where such policies have been irreversibly predetermined by CEDA or where the determination of such policies is unable to materially affect the level of potential ownership benefits that arise from the activities of the subsidiary.
CEDA has the power to appoint 100% of trustees of the Events Manawatū Trust. The consolidation of the Events Manawatū Trust into CEDA’s financial statements has resulted in no change to the reported financial statements.

Restructuring

On 20 May 2019 the Palmerston North City Council (PNCC) proposed to transfer the Palmerston North City i-SITE operations from the operations of CEDA to the control of PNCC. CEDA has agreed and the transition of this service will be effective 1 September 2019.

CEDA commenced a proposal for a formal restructure on 5 June 2019. The restructuring commenced at the end June 2019, with implementation expected to be complete by the end of August 2019.

A provision has been made for any possible redundancies.

</tr>
</tbody>
</table>

Due to the difficulty in determining the full time equivalent for Directors the full time equivalent figure is taken as the number of Directors. As one director commenced partway through the year this has been estimated on a proportional basis.

During the year ended 30 June 2019, 0 (2018: 0) employees received compensation and other benefits in relation to cessation totaling nil (2018: nil).

**Revenue**

Westpac is naming sponsor of the Manawatū Business Awards. Malcolm Bailey and Sue Foley are Director's of Westpac. Money was received for sponsorship of the awards. GST Inclusive.

The i-Site building is rented from the Palmerston North City Council. The lease expires on 31 August 2019, with three rights of renewal of three years each. This disclosure has included the lease payments up to the expiry date of 31 August 2019 as the lease will not be renewed.

The office space located at Level 1, 478 Main Street, Palmerston North, has a lease term to June 2020. The current conditions are a monthly lease charge with a notice period of 3 months.

20. Events after balance date

*On 20 May 2019 the Palmerston North City Council (PNCC) proposed to transfer the Palmerston North City i-SITE operations from the operations of CEDA back into PNCC. CEDA has agreed to this transfer and the transition of this service will be effective 1 September 2019. It has yet to be determined the value of the assets to be transferred and whether there will be a cash settlement for these assets is yet to be determined.*

The following amounts relating to the i-SITE operations are included in the 2019 amounts:

- Agency income of $62k
- Other income of $108k
- Expenditure of $148k
- Employee costs of $213k
- Property, plant and equipment of $29k
- Creditors of $38k
- Inventory of $10k

A portion of the grant from PNCC relates to these operations and the grant for 2020 will be reduced as a result.
Independent Auditor’s Report

To the readers of Central Economic Development Agency Limited’s group financial statements and performance information for the year ended 30 June 2019

The Auditor-General is the auditor of Central Economic Development Agency Limited Group (the Group). The Auditor-General has appointed me, Clint Ramoo, using the staff and resources of Audit New Zealand, to carry out the audit of the financial statements and the performance information of the Group, on his behalf.

Opinion

We have audited:

- the financial statements of the Group on pages 74 to 91, that comprise the statement of financial position as at 30 June 2019, the statement of comprehensive revenue and expense, statement of changes in equity and statement of cash flows for the year ended on that date and the notes to the financial statements that include accounting policies and other explanatory information; and

- the performance information of the Group on pages 54 to 67.

In our opinion:

- the financial statements of the Group on pages 74 to 91:
  - present fairly, in all material respects:
    - its financial position as at 30 June 2019; and
    - its financial performance and cash flows for the year then ended; and
  - comply with generally accepted accounting practice in New Zealand in accordance with Public Benefit Entity Standards Reduced Disclosure Regime; and

- the performance information of the Group on pages 54 to 67 presents fairly, in all material respects, the Group’s actual performance compared against the performance targets and other measures by which performance was judged in relation to the Group’s objectives for the year ended 30 June 2019.

Our audit was completed on 27 August 2019. This is the date at which our opinion is expressed.

The basis for our opinion is explained below. In addition, we outline the responsibilities of the Board of Directors and our responsibilities relating to the financial statements and the performance information, we comment on other information, and we explain our independence.
Basis for our opinion

We carried out our audit in accordance with the Auditor-General’s Auditing Standards, which incorporate the Professional and Ethical Standards and the International Standards on Auditing (New Zealand) issued by the New Zealand Auditing and Assurance Standards Board. Our responsibilities under those standards are further described in the Responsibilities of the auditor section of our report.

We have fulfilled our responsibilities in accordance with the Auditor-General’s Auditing Standards.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the Board of Directors for the financial statements and the performance information

The Board of Directors is responsible on behalf of the Group for preparing financial statements that are fairly presented and that comply with generally accepted accounting practice in New Zealand. The Board of Directors is also responsible for preparing the performance information for the Group.

The Board of Directors is responsible for such internal control as it determines is necessary to enable it to prepare financial statements and performance information that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements and the performance information, the Board of Directors is responsible on behalf of the Group for assessing the Group’s ability to continue as a going concern. The Board of Directors is also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless the Board of Directors intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors’ responsibilities arise from the Local Government Act 2002.

Responsibilities of the auditor for the audit of the financial statements and the performance information

Our objectives are to obtain reasonable assurance about whether the financial statements and the performance information, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit carried out in accordance with the Auditor-General’s Auditing Standards will always detect a material misstatement when it exists. Misstatements are differences or omissions of amounts or disclosures, and can arise from fraud or error. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of readers, taken on the basis of these financial statements and the performance information.
For the budget information reported in the financial statements and the performance information, our procedures were limited to checking that the information agreed to the Group’s statement of intent.

We did not evaluate the security and controls over the electronic publication of the financial statements and the performance information.

As part of an audit in accordance with the Auditor-General’s Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. Also:

- We identify and assess the risks of material misstatement of the financial statements and the performance information, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- We obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group’s internal control.

- We evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.

- We evaluate the appropriateness of the reported performance information within the Group’s framework for reporting its performance.

- We conclude on the appropriateness of the use of the going concern basis of accounting by the Board of Directors and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the financial statements and the performance information or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- We evaluate the overall presentation, structure and content of the financial statements and the performance information, including the disclosures, and whether the financial statements and the performance information represent the underlying transactions and events in a manner that achieves fair presentation.

- We obtain sufficient appropriate audit evidence regarding the financial statements and the performance information of the entities or business activities within the Group to express an opinion on the consolidated financial statements and the consolidated performance information. We are responsible solely for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.
We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify in our audit.

Other information

The Board of Directors is responsible for the other information. The other information comprises the information included on pages 2, 5, 6, 7 and 69 to 73, but does not include the financial statements and the performance information, and our auditor’s report thereon.

Our opinion on the financial statements and the performance information does not cover the other information and we do not express any form of audit opinion or assurance conclusion thereon.

In connection with our audit of the financial statements and the performance information, our responsibility is to read the other information. In doing so, we consider whether the other information is materially inconsistent with the financial statements and the performance information or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on our work, we conclude that there is a material misstatement of this other information, we are required to report the fact. We have nothing to report in this regard.

Independence

We are independent of the Group in accordance with the independence requirements of the Auditor-General’s Auditing Standards, which incorporate the independence requirements of Professional and Ethical Standard 1 (Revised): Code of Ethics for Assurance Practitioners, issued by New Zealand Auditing and Assurance Standards Board.

Other than the audit, we have no relationship with, or interests in, the Group.

MEMORANDUM

TO: Manawatu District/Palmerston North City Joint Strategic Planning Committee

MEETING DATE: 18 SEPTEMBER 2019

TITLE: Letter of Expectations for Central Economic Development Agency

DATE: 14 August 2019

AUTHOR/S: Sheryl Bryant, General Manager - City Future, City Future, Palmerston North City Council
Brent Limmer, General Manager – Community and Strategy, Manawatu District Council

RECOMMENDATIONS TO COMMITTEE

1. That the Joint Strategic Planning Committee approves the proposed 2020-2021 Letter of Expectations (LOE) for the Central Economic Development Agency Limited.

2. That the Mayor and Chief Executive of the Manawatu District Council and the Mayor and Chief Executive of the Palmerston North City Council be delegated authority to approve minor amendments to the Letter of Expectations prior to the document being signed.
1. ISSUE

The purpose of this report is to seek approval for the 2020-2021 Letter of Expectations (LOE) for the Central Economic Development Agency Limited (CEDA).

2. BACKGROUND

The Letter of Expectations sets out the shareholders’ expectations of the Central Economic Development Agency (CEDA). The purpose of the Letter of Expectations is to provide guidance to the CEDA Board when it is developing its Statement of Intent. A draft Letter of Expectations was provided to the Board. This report presents the final Letter of Expectations for formal approval by the Committee.

During 2018, both Councils and the Joint Committee reviewed what its expectations are of CEDA for the new financial year. This was achieved through a number of workshops, including with the CEDA Board and Chief Executive. The Letter of Expectations for 2019 provided greater clarity to the CEDA Board with a focus on:

- Inward investment, national and international
- Retention and expansion of business in the Manawatu region, and
- Developing a talent pipeline

The CEDA Statement of Intent for 2019-2020 has reflected those expectations. CEDA has also re-aligned its organisational structure to deliver on these core functions.

To provide consistency and certainty for CEDA to deliver on the Councils expectations, the LOE for 2020-2021 is substantially the same as for 2019-2020.

3. NEXT STEPS

Once the Letter of Expectations has been adopted, it will be formally presented to the CEDA Board.

4. COMPLIANCE AND ADMINISTRATION
| Does the Committee have delegated authority to decide? | YES |
| Are the decisions significant? | NO |
| If they are significant do they affect land or a body of water? | NO |
| Can this decision only be made through a 10 Year Plan? | NO |
| Does this decision require consultation through the Special Consultative procedure? | NO |
| Is there funding in the current Annual Plan for these actions? | YES |
| Are the recommendations inconsistent with any of Council’s policies or plans? | NO |
| Contribution to strategic direction | This report contributes to the constitutional purpose of CEDA, being driving and facilitating the creation and growth of economic wealth in the Manawatu region and beyond. |

**ATTACHMENTS**

1. CEDA Letter of Expectations 2020/21

| Sheryl Bryant | Brent Limmer |
| General Manager - City Future | General Manager - Community and Strategy |
| Palmerston North City Council | Manawatu District Council |
Draft Letter of Expectations 2020-2021

Expectations of CEDA 2020-2021

The purpose of this Letter of Expectations is to provide CEDA with the Shareholders’ focus and priorities for delivery, against its purpose of driving and facilitating the creation and growth of economic wealth in the Manawatu region and beyond.

When working beyond the Manawatu, there must be a causal link of the outcomes or benefits back to the Manawatu region based on the core functions and measures of success outlined below.

It is also expected that CEDA will use this letter to guide the development of the Statement of Intent (SOI) for 2020-2021.

Strategic Relationships

Taking a leadership position and building strategic relationships in the Manawatu region and beyond, is fundamental for CEDA to achieve its purpose. CEDA must be relationship-driven at all levels and we appreciate your commitment to this. From our perspective (both as shareholders and partners), this means CEDA developing a deep understanding of the roles of its strategic partner organisations, what their priorities and strengths are, and how CEDA can add value to the relationship (and vice versa) to achieve better economic outcomes for the region.

CEDA formalising these strategic relationships, is important to us as shareholders, to ensure we have cohesion in the region around economic development activities. We would like this to be driven further by CEDA through mutually agreed partnership agreements or similar, to ensure everyone is on the same page and provide the basis for a consistent and collective approach with measureable outcomes.

We would like this strategic relationship agreement process to be concluded by [date to be determined].

The shareholders have identified the following strategic partners for CEDA: Palmerston North City Council, Manawatu District Council, Iwi, Manawatu Chamber of Commerce, Talent Central, The Factory, and key central government agencies. [Tertiary institutes, Maori Business, International Education ?].
We look forward to working with CEDA to agree on the list of strategic partners. There may be opportunities for CEDA to leverage existing strategic relationship agreements entered into by the shareholders, e.g. Councils and NZ Defence Force.

Key Agreed Functions and Outcomes

We understand that to be effective, CEDA must be able to focus on key outcomes within a well-defined mandate. We also recognize this is a challenge given historical expectations and activities undertaken by CEDA’s antecedent organisations, along with differing stakeholder expectations.

This means CEDA focusing on the delivery of its core functions and outcomes in:
Inward investment, both national and international
Retention and expansion of business in the Manawatu region, and
Developing a talent pipeline

Action plans to deliver on these core functions should identify KPIs based on clear intervention logic.

[We acknowledge that CEDA has re-aligned it organisational structure to deliver on these core functions and needs the Shareholders to provide strategic certainty within the well-defined mandate to deliver on the functions and outcomes.]

As we have discussed, it is expected that CEDA will work very closely with key stakeholders of the regions strengths of research/agri-food/business/land/horticulture, distribution and logistics, defence, health, visitor, education (domestic and international), digital and technology, and a growing Maori economy.

CEDA is expected to scan for new opportunities, whether or not it is a key strength, where this can benefit the region.

CEDA’s success will be measured by the shareholders using the following indicators of the health of the regional economy:
Job growth
Increase in median household income
Number of investment leads and deals secured
Strength of the relationship with strategic partners
The shareholders acknowledge that the first two measures are not directly under CEDA’s control. Significant changes in international and national economic factors will be taken into account when the Shareholders measure CEDA’s performance.

Understanding the strategic drivers of the Councils and aligning CEDA’s core functions to those drivers is critical to the partnership between the Councils and CEDA. The Councils have a key role in setting the economic environment for business to flourish and CEDA acts on the Councils behalf in facilitating opportunities for improved economic outcomes. CEDA is the Councils Agency for the delivery of economic development across the region.

Therefore, it is expected that CEDA will engage with the Councils in the development of their strategies and plans (such as Inward Investment Strategy, Labour Market Plan, Visitor Strategy and Māori Engagement Plan). These strategies and plans are expected to demonstrate active engagement with other strategic partners in their development.

The Councils are obliged to ensure that our services are delivered effectively and efficiently. As a Council-Controlled Organisation (CCO), this expectation extends to CEDA. The Shareholders require CEDA to provide an activity-based budget so the Council can effectively communicate levels of service and value for money to their ratepayers. In addition, there are many opportunities where shared resourcing, expertise and services should be explored and we would like to discuss these opportunities from both a short-term and long-term perspective.

To ensure the Shareholders and CEDA are on the same page, the focus, scope of activity, and priorities will be set through the Statement of Intent (SOI), and delivery managed through the contractual relationship.

The Shareholders would like to continue the monthly Lead team meeting between the Mayors, Council CE’s and contract managers with the CEDA Chair and CE.

The Shareholders would like a quarterly slot on your Board agenda to further build relationships and understanding.

The Shareholders will invite CEDA to report quarterly to the Joint Strategic Planning Committee.

[There are a number of activities that CEDA currently undertakes that are beyond the focus, scope and priority expressed by the Shareholders in this letter. In the spirit of partnership we]
would like to continue discussing with the CEDA Board its role in activities such as events and visitor services. Has this been completed?]

We look forward to working with CEDA to develop an economic development model that successfully delivers. We thank the Board, CEDA CE, and CEDA staff for their continued commitment to economic growth in the Manawatu region.
