REPRESENTATION

I have had to try and do
this as a power point
presentation – by the way
my first.

This will also be the last presentation that I make to a public forum. My health condition has deteriorated further and it is now impossible to speak other than in a whisper.

I have also had the belief that if I wanted to send a written presentation somewhere then I had to back it up with a personal presentation and own my thoughts and ideas.

As far as representation is concerned **my plea** is to go back to wards or community boards over the whole of the city area. From personal experience this gives residents the very best communication direct to council. The cost to a prospective candidate on a city wide election is quite expensive.

Now I am going to hijack my presentation to say thank you. A big thank-you to the various councils/committees that I have presented to and always been heard in grace and dignity. Presentations would have spanned 45 years

Palmerston North City
Council was never quite
as friendly as the District
Council but you have
changed over the years.

To the longer serving council members here, Duncan, Lew, Jim, Tangi, Susan, Aleisha and Rachel, thank you for the courtesies and love you have specially shown over the last few years.

Please carry on listening to those who make submissions . I am not sure where the future will go for me but I will carry on reading about what is going on and sticking bits of paper on open forum presentations. Please keep those up!.
