Organisation	
Hearing	
Do you want to speak to Council in support of your submission?	No
Your submission	
Do you support the proposed light motor vehicle prohibitions?	No
Can you tell us why?	Without wishing to sound insincere, this proposal is silly. Street racing is everywhere in Palmerston North. It's a subculture that, for whatever reason, flourishes here. Spending money on signage and giving police powers they can only exercise on a handful of streets is a waste of money and will only result in street racers selecting different meeting points. Ultimately, these proposed changes will just have to be repeated in a few months' time as council and police chase the tails of local boy racers.
Are there any changes you would make to the proposed amendments?	Yes. Ban congregation of modified vehicles on ALL city streets, as a blanket rule. Issue a couple of permits per household, allowing residents to park their vehicles on-street during the ban period. Then, work with manfield or the speedway to run regular track days where racing is free. Those track nights need to be regular enough to satiate the demand of racers and at a time of night equivalent to when they would normally be racing. The only requirement should be that racers provide their car rego and driver licence on entry. I live right near pioneer highway and see that street racing is constant and affects almost all Palmerston North. I not only see property being damaged, but outside being killed and people put in danger. It's a serious issue that requires a much more serious and wide ranging response than this proposal is able to deliver.
Do you have any other feedback on this proposed bylaw amendment?	Please don't spend my rates on signage for this irrelevant amendment, for goodness sake.

Do you support the proposed light motor vehicle prohibitions?	In part
Can you tell us why?	<p>Restrictions should cover more than the specified streets as once those streets are covered, the street racers will find other streets to race. therefore, the problem will not cease but will be shifted to other accessible streets.</p> <p>Not racing between 10pm and 4am is not adequate as residents need their peace and quiet regardless of time period.</p> <p>Penalties are too low as it costs quite a lot to modify such cars for racing, so higher penalties are required.</p>
Are there any changes you would make to the proposed amendments?	Restrictions should cover all streets not a specified few. Racing should not be allowed at all hours of the day and night. Penalties should be greater, and not merely financial.
Do you have any other feedback on this proposed bylaw amendment?	Street racing causes several problems - it is noisy (ear-splitting!) and dangerous, causes damage to public property, e.g. roads, and can cause serious injury to others. Such behaviour must not be condoned for the sake of the community. There must be some way to engage these speedsters and find out the reason(s) behind such behaviour. Having a race track may or may not resolve the matter.

Can you tell us why?	These people and their cars aren't going to just go away because a few people aren't happy. Yes they are annoying and as of recent someone did pass away but this is a nationwide issue. This city's roads need more attention than this and not to mention the youth issues ie downtowns lockdown. This city ain't safe
Are there any changes you would make to the proposed amendments?	How are you gona enforce any of this?
Do you have any other feedback on this proposed bylaw amendment?	Good luck I sponse

Your submission	
Do you support the proposed light motor vehicle prohibitions?	No
Can you tell us why?	It's not going to stop anybody from doing skids there, you need to find some cheap land and slap a bunch of concrete down that around 500 or so cars can park there and do skids there. And make a gate which will be like \$5 entry every car and use those cost to pay for the land.
Are there any changes you would make to the proposed amendments?	Yes, make a 24/7 available spot where there can be legal skids done !
Do you have any other feedback on this proposed bylaw amendment?	It's ridiculous, it's not gonna work no body cares about the laws

Hearing	
Do you want to speak to Council in support of your submission?	Yes
Your submission	
Do you support the proposed light motor vehicle prohibitions?	Yes
Can you tell us why?	<p>We support the proposal to amend the City Traffic and Parking Bylaw prohibiting light motor vehicles from being on specific roads between 10pm and 4am.</p> <p>The Manawatu Business Chamber represents our Members (the business community) across the wider Manawatu region. In recent months we have been involved with the City Council and Police with regards to the problems associated with 'street-racing' in the City. We have had numerous interactions with businesses who over the last year have complained about the actions of street-racers and the impact on their businesses, included significant levels of noise and disruption, along with damage to roads and property.</p> <p>We are aware that Council has also implemented traffic devices and engineering solutions on some roads in an attempt to lessen the problem and the amendment to the bylaw will go some way towards reducing the problem; specifically on the designated roads, with the option to add other roads if required.</p> <p>Our concern is that those who engage in the street-racing will simply move elsewhere, and possibly into even more public areas, and that the proposed restrictions won't address the real issue; which is too many, mostly young people, feeling as though they can congregate in the way they do in our city (and others). This is a nationwide issue, a central government issue, a local government issue and a community issue and we offer our support in looking at solutions to this issue going forward.</p> <p>We believe the amendment to the Traffic and Parking Bylaw does go some way to address the issue as a starting point and therefore we fully support the amendment as it stands.</p>
Are there any changes you would make to the proposed amendments?	None
Do you have any other feedback on this proposed bylaw amendment?	All as stated above

Do you support the proposed light motor vehicle prohibitions?	In part
Can you tell us why?	This is an issue all over the city and not just in the places you propose to restrict. We are kept awake every week from Thursday through to Saturday nights right up to early hours of the mornings as these joins congregate at the Richardsons and Roberts Road junction. We are weary about traveling to and home our home on those nights in case we come across them. They leave their blown and shredded tyres behind them not to mention their takeaway rubbish and booze bottles. The road is black with tyre marks which surely must destroy the roads.
Are there any changes you would make to the proposed amendments?	Just stop these goons full stop. They do not have a right to congregate in this way and they disturb innocent citizens peace.
Do you have any other feedback on this proposed bylaw amendment?

Your submission	
Do you support the proposed light motor vehicle prohibitions?	Yes
Can you tell us why?	We need to support the police to be able to enforce the right actions for bad behavior & actions that affect the while community.
Are there any changes you would make to the proposed amendments?	Can we give them access to a facility or area (at their own risk & liability) away from residents? If caught offending within residential areas they lose access to the "approved area".
Do you have any other feedback on this proposed bylaw amendment?	My concern is that the racers will just keep moving to a different street unaffected by these restrictions. We will always be behind, chasing where they move to.

Do you support the proposed light motor vehicle prohibitions?	No
Can you tell us why?	I think it is unfair on those who aren't boy racers being unable to use certain streets. It's punishing the majority because of the minority. I also question whether it would actually solve the problem anyway, I suspect they would just move to even less suitable streets.
Are there any changes you would make to the proposed amendments?	Could always just chuck some speed cameras on those roads you are concerned about and get them that way or do more regular police drive bys
Do you have any other feedback on this proposed bylaw amendment?	I don't think it will change the problem and will just punish those who are abiding by the rules

Your submission	
Do you support the proposed light motor vehicle prohibitions?	In part
Can you tell us why?	I live in Ashhurst and have to go down past the river over the bridge, to go the back way to work in Summer hill. I start work at 4am, so leave around 3.30am. multiple times I have just about hit car tires, bumpers and wire from tires whilst juat trying to drive to work
Are there any changes you would make to the proposed amendments?	Instead of prohibition on certain streets for certain times seems pointless as they will find different areas to go to. Instead build a designated burnout pad for them. Somewhere that is away from residents but can still be monitored by police and it will be a lot more safer.
Do you have any other feedback on this proposed bylaw amendment?	I am not a car enthusiast or boy racer but I am also not against them. They work hard on their vehicles and want to show it off and do burnouts. Understandably so too. Building a monitored, designated burnout pad will solve a lot of problems. I mean this is Palmy and we have the speedway so it kind of is a part of the community. A burnout pad would be the ideal way to minimize damages, inconvenience and danger. Just banning certain streets isn't going to stop them so rather than discourage them, find a way to control it.

Your submission	
Do you support the proposed light motor vehicle prohibitions?	No
Can you tell us why?	Your taking away spots they use for them to just find new places to go and wasting resources to enforce this. People would be calling up the police blocking the line from real emergencies and this would also result in more car chases and potentially more damage down.
Are there any changes you would make to the proposed amendments?	Instead of resulting to restricting cars in these streets and having to put resources towards monitoring those streets, actually dedicate an area to them.
Do you have any other feedback on this proposed bylaw amendment?	Everyone immediately cast a dark shadow upon anyone owning a loud car when in fact half the people who own them love cars as their hobby. I am one of the hobbyist and don't participate in the destruction but understand the frustration from the other side. Other activities get spaces to do things, gun clubs, archery, cyclists, swimming etc and they are open all year round. These people get maybe 1 or 2 events a year to do skids at the events held at Manfield but then what? Something they enjoy is halted because no one thinks they deserve the same freedom to do so. Understandable it's got more risks but swimming requires lifeguards for example, so safety measures would need to be in place like at events. Just hoping some more thought into the matter before going crazy and limiting every light motor vehicle between these times is put in place.

Can you tell us why?	
Are there any changes you would make to the proposed amendments?	while dangerous at times, the street racing community is mostly harmless gatherings. people often travel to palmy from across NZ from auckland to wellington to come to these meetings, so i think prohibiting vehicles on specific roads is a short sighted poorly thought through solution to a problem. because the street racing community is so vibrant, creating a dedicated strip on the edge of town away from residents and main roads would be the best long term solution. having the strip have a small entry fee would be an easy way to monetise this for maintenance costs and host events/fundraisers. turn this into an opportunity to make something good instead of pushing back
Do you have any other feedback on this proposed bylaw amendment?	having a staffed police vehicle on the grounds would be an easy way to keep things contained and in control, eg small fires, smoke, or too many attendees. often these large meetups happen to spite officials and make it impossible for them to catch anyone, so i don't think these laws would work

Can you tell us why?	The cost of policing this over time would be far great than putting in speed bumps. It's better than nothing but not as effective short or long term as speed bumps.
Are there any changes you would make to the proposed amendments?	Put speed bumps in ..
Do you have any other feedback on this proposed bylaw amendment?	As above

Can you tell us why?	Be good to get those cars and people off the roads. The noise is incredible
Are there any changes you would make to the proposed amendments?	Why are they allowed on the road at all to seek out places to do the burn outs. Home come they don't pay costs towards the fixing of the road. If I damage something, I pay. If they knowingly damage a road..... we still pay with taxes or rates
Do you have any other feedback on this proposed bylaw amendment?	As above

Do you support the proposed light motor vehicle prohibitions?	No
Can you tell us why?	<p>This isn't a solution, the council addressed that themselves in March when they determined removing access to one location will simply move 'racers' to another street or location and that these fixes are short-term. The fix needs to be long-term otherwise there will be no end to it.</p> <p>There is no stopping this with more laws, the laws are already disregarded and not followed what makes you think this will change things? If anything it's going to cause more disconnect between the citizens & the police which is already in a bit of a shitter (window washers). This gives police the discretion to fine anyone simply driving through Palmerston North who happens to end up on one of these streets. I can see this leading to a situation similar to Australia where the police have tried to crack down on 'boy racers' but ended up worsening the situation by creating such a disconnect between the two 'sides' and essentially starting a war.</p>
Are there any changes you would make to the proposed amendments?	<p>Get rid of it, go back to the drawing board and think of a long-term solution to get car enthusiasts off the streets. They won't stop skidding, regardless of laws it seems. The council needs to address this properly & actually put a stop to the street activity.</p> <p>How? Give the racers a spot that they can go, far away from residents & off public roads.</p> <p>This ensures safety of those not involved & actually can put a stop to the weekly shenanigans.</p>
Do you have any other feedback on this proposed bylaw amendment?	I doubt many people will make the effort to fill out this form. The world runs on social media now so go read the comments on your posts & gather some opinions from there too, I imagine only certain demographics would even click the link to this page.

Can you tell us why?	You can't just close off streets and give them no where to go, this is their passion and although they should not be doing this it is better than other things they could be doing in the community. No point giving them more fines they are already struggling with the cost of living, and the ones that can not pay their fines will end up in court system which could affect employment etc.
Are there any changes you would make to the proposed amendments?	Give them a place to do the skids, and use this as a chance to offer driving courses help with getting licenses etc, but don't put stupid laws in place so it becomes like prison and have approachable car enthusiasts down there as mentors to the young ones

Do you support the proposed light motor vehicle prohibitions?	No
Can you tell us why?	I don't understand how it will be policed. how will police decide what a "legitimate reason to use the roads" is. It sounds like a open end for discrimination based on class or ethnicity. I have reservations about personal police decisions in this area of law. It seems scary to me that I could be pulled over and questioned just for driving down a particular street. Overpolicing rarely works as a form of crime prevention
Are there any changes you would make to the proposed amendments?	I don't like the layout of this bylaw at all and would like to see it from a completely different angle. Specifically better outlines on how this would be policed and better outlines on what is considered a "legitimate reason to use the road"

Can you tell us why?	I don't think its going to stop them, they will find new places to go so what is the long term solution as this just a band aid and still requires policing to catch them at the time they are on that road/street.
Are there any changes you would make to the proposed amendments?	I've lived on shelley street for 9 years and every friday night and sometimes Saturdays the drag chain of 50+ cars goes past my house between 10-12 at night. Ive rung the police and nothing comes of it.. its to many cars for police to deal with and they are often on other calls. The cost of policing it and the drama it causes and mess it creates can we not just source some money and give them a safe, legal way to participate in these activities surely the cost of this outweighs the long term costs. Find land and put a drag strip and burnout pad. Make them pay a couple dollars to come in and go for it.

Can you tell us why?	I agree with the concept of aiming to target problem areas, I agree that there should be some form of punitive measure for transgressing, but I don't believe the issue will be solved and will just move the problem elsewhere.
Are there any changes you would make to the proposed amendments?	Yes, I'd like to see us break the mould and try something out of the box, like providing a safe area for these guys to do what they are going to do regardless of whether you want them to or not. Let them vent at Manfeild or some other private area. Then strongly enforce the law when they choose to use public roads instead. It seems that we are looking to do the same thing but expect different results.

Can you tell us why?	This will add costs to already huge rates. It will inconvenience general public and the 'boy racers' will always move on to the next place
Are there any changes you would make to the proposed amendments?	<p>My idea is for the council to build a purpose built skid pad between palmy and fielding. If you build a bank around the pad this will lessen the noise travel (just like Harrisville near bulls)</p> <p>There could be a charge to get in eg \$5 per person, so in the long term the council will start to profit of this.</p> <p>If you have waivers that drivers and passengers sign that state it is done at their own risk and no one can be held responsible for car damage, injury or death.</p> <p>A first aid person and a fire officer with fire extinguishers could be on site for safety.</p> <p>The clean up is minimal.</p> <p>The long term cost would be less than the council needing to fix public roads and purchase cameras.</p> <p>The police would be freed up for more important issues.</p> <p>The hours could be run from 10pm-2am on a Friday night to start with and then if the hours could be reviewed after 6-8 weeks.</p> <p>You could host events/competitions where you ask car businesses to donate prizes and up the entry charge to \$10 and you would bring cars from Wellington and Masterton.</p> <p>If 500 turned up it would bring in \$5000. If a big event like that was run for 6 hours that's a \$833.33 per hour income.</p> <p>If you paid a first aid officer and a fire officer \$50 per hour to be there that would end up being a \$4400 profit for one event.</p>

Can you tell us why?	I think no matter what there are going to be skids, there has already been talk in the skid community about the response that will take place if this by law passes. Leave the skids be or supply somewhere.
Are there any changes you would make to the proposed amendments?	Instead make a skid pad, have a monthly fee, or small entry fee. Enough people would use it for it to pay for itself. Yes there may be clean up but it is as simple as having the prices fluxuate to match the clean up cost from the previous night/week.
Do you have any other feedback on this proposed bylaw amendment?	Banning streets to skid cars is just going to make them use busier streets and cause more havoc

Do you want to speak to Council in support of your submission?	No
Your submission	
Do you support the proposed light motor vehicle prohibitions?	No
Can you tell us why?	I believe this wouldn't change their behaviour at all. Most if not all vehicles involved in those activities travel in groups with fake plate numbers, and do not care about the law. With the number of police officers in Palmerston North, it is impossible to chase / catch any of the due to the huge number of cars involved in these activities. When these activities take place, certain people there are designed to stop/block any police vehicle entering the area. With the hundreds of cars being there, clearly all don't care about the law, they are impossible to stop. If police do take actions such as chase / attempt to stop cars while "skidding" this will turn into chaos.
Are there any changes you would make to the proposed amendments?	I believe the best solution to this issue is to build a designated area for these people to do their activities safely. The way I personally think of it is the same as skateboarders having their place to safely skate, these cars need their own place away from any residential areas do to their activities safely.

Can you tell us why?	<p>People have been whinging about boy racers since forever. How about instead of vilifying their passion, give them an outlet - a safe place to have their fun.</p> <p>There was a skid pad in Levin for doing burnouts, I'm not sure if thats still going but it's the sort of thing boy racers need.</p> <p>I think the effort, funding (and stress) put into policing this issue could be put to better use by making sure it's done safely, away from suburban areas.</p> <p>A lot of laws like the anti-smacking law (in my view) are complete failures because although it may have had a noble cause against child abuse, it didnt actually stop child abuse, it just hid it a little better. What ended up happening is they vilified good parents wanting their children to grow up respectfully, while taking away from those same good parents a key technique and failing to replace it with anything. Parents struggled to find a way to discipline their children and resented the government for the change. Every good parent knows the difference between a smack, and abuse. Unfortunately what we ended up with was a ton of parents at their wits end raising a generation of defiant, obnoxious, self entitled deadbeats (who still live at home.)</p> <p>Boy racer laws tend to do a very similar thing; While noble in intent, in reality it vilifies people who just want to have a bit of fun, while also making it harder for everyday people to go about their business.</p> <p>What we need is a way for racers to meet, show off their cars, and race safely, well away from suburban areas full of people who don't like it.</p> <p>If you are going to heavily fine boy racers, then I think it's only fair that most of the money be put towards a project like a racing strip, even if it's only open once a week or something.</p>
Are there any changes you would make to the proposed amendments?	<p>What we need is a way for racers to meet, show off their cars, and race safely, well away from suburban areas full of people who don't like it.</p> <p>If you are going to heavily fine boy racers, then I think it's only fair that most of the money be put towards a project like a racing strip, even if it's only open once a week or something.</p>
Do you have any other feedback on this proposed bylaw amendment?	<p>This is likely to just cause more animosity between boy racers and cops.</p> <p>A better solution is out there.</p>

Can you tell us why?	Street racers, 'drags' every Friday night, are causing chaos to Palmerston North and surrounding road users. I have been negatively impacted by these illegal acts on numerous occasions at the proposed places. Police are currently only (realistically and safely) able to carry out intel related tasks on offending vehicles at these events. Every Friday night countless vehicles are speeding through Palmerston North city streets in their 'train', Police have been assaulted (Works Road, February 2022) along with a person being stabbed, vehicles have fled from Police and drive extremely dangerously and sadly in more recent times, a vehicle involved in 'skids' sped through the Ruahine St/Main St intersection causing a motor vehicle accident which killed an innocent pedestrian. More needs to be done, harsher punishments need to be imposed & this needs to happen NOW before anyone else dies as a result of these people's actions.
Are there any changes you would make to the proposed amendments?	Genuine & legal road users mustn't be targeted by Police during these times, eg. those going for a 'night drive' or those going from X street to Y street (Bennett to Benmore). I would also propose additional patches, such as the Tiakitahuna Road X SH56 intersection where the street racers block the intersection to do their activities, the Amberley Ave X Pioneer Hwy intersection (where 100+ cars blocked the intersection in recent months), and Tennent Drive past Massey University - as well as numerous other locations.
Do you have any other feedback on this proposed bylaw amendment?	PNCC (if and where practicable) in conjunction with NZTA, Police etc. need to enforce this bylaw amendment and work harder to introduce further measures to deter these illegal activities. Victoria Police were provided the ability/legality to impound or immobilise vehicles whereby Police had reasonable grounds to believe a vehicle had committed a hoon-related offence for 30 days - this is one harsher punishment Police need to be provided (although I understand PNCC cannot grant Police these powers - however it is worth escalating the conversation). I believe PNCC should work in conjunction with Police further and request additional support (more Police from other areas for a mass crackdown, potential air support from Police Eagle helicopter or the Palmerston North based rescue helicopter).

Can you tell us why?	Ive been in and out of the car scene since 2006. I have seen it go from drag racing showing skills off and actual racing to doing the skids now and popping tyres. I've watched private landowners help sort out places and learnt that council shuts it down. No matter what we try to do we get shut down.
Are there any changes you would make to the proposed amendments?	Actually provide a free area to do it and state rules regarding rubbish and clean up. Not all of us want to be known as menaces to society and some people do Actually help clean up... don't punish every day people driving down those streets during that time
Do you have any other feedback on this proposed bylaw amendment?

Can you tell us why?	Yes it causes a lot of hassle for the Public and can be dangerous for other drivers. However, they are just gonna keep finding different spots to continue this interest of theirs.
Are there any changes you would make to the proposed amendments?	I believe providing a space where people can express their passion with cars is the best option. Coming up with their own legislation, health and safety, fees to cover costs and penalties that will occur if this space is disrespected in anyway. If a space was provided for them, I guarantee a big community would be created where they would make sure that rules are followed.

Can you tell us why?	<p>So I own a Nissan 200SX (lightweight vehicle) I finish a hard weeks work and love to just drive around to relax and just see what the nightlife in palmys like on fridays and Saturdays, but you guys are trying to seriously make it so I can't do that now and I'll be facing fines just because I'm down a certain street at a certain time? This is the worst idea you guys have came up with since trying to up charge the parking. I know this won't affect everyone but I myself have a done up car that could be looked at as a "boy racer" even though it isn't it's just a Japan classic car and now I'm meant to fear going out?</p> <p>Also you do realise by doing this you are basically asking the skids hosts to go crazy and giving them a reason to make things worse right? Remember that big skids event that happened in the middle of town after you guys put ya little speed bumps on the skids spots? Now imagine that and what the outcome will be once this reaches the wrong audience of people. You can expect most of the north island "Skids" coming down to celebrate and absolutely destroy palmy once this "law" comes into play.</p> <p>This will not end how you guys are hoping with striving to get "good publicity" from the public. This will end with more skids in the actual main parts of town and way more complaints to the police and council.</p> <p>I hope you guys seriously sit back and rethink this whole thing over cause this won't look good once it comes into play and will absolutely ruin palmys city.</p> <p>I myself don't skid but I know of people who do and once the "Hosts" get this knowledge of it coming into play I'm telling you palmy is gonna be ruined.</p> <p>Please rethink this over and maybe setup more high definition cameras in popular skid spots and just more police presence at the spots for when it's skids night like even an Eye Car just watching and waiting then checkpoints and impounding every car skidding.</p> <p>Or better yet, invest into a SKID PAD or would you guys rather spend all that tax payers money into fixing the main roads once this law comes to play lmao</p>

Can you tell us why?	Because if the number of incidents where they have caused harm (and even death) of other citizens.
Are there any changes you would make to the proposed amendments?	I trust the police to have the best knowledge and judgement.
Do you have any other feedback on this proposed bylaw amendment?	There needs to be a space where they can go. I understand that it will be a huge investment, but perhaps looking into private investors or sponsorship would be good, as well as a "\$10 per car pay at the gate" to help cover on going costs. This is a hobby like many other they should have to pay to use the facilities and possibly sign a once off waiver that covers damage and if harm occurs they're still liable like they would be anywhere else.

Can you tell us why?	It's not going to solve the issue that has been going on for years
Are there any changes you would make to the proposed amendments?	
Do you have any other feedback on this proposed bylaw amendment?	The need for a skid pad for car enthusiasts has been an ongoing battle for as long as I can remember, well before the no cruising of the square was brought in, that just pushed car enthusiasts to move their meet up location. Yes there are lots of hurdles that need to be jumped through to get a skid pad but there has to come a time that counsel and police realize that they should stop wasting money on pointless plans and actually get in people who know what they are talking about, instead of squishing their proposals come up with a result that is going to benefit everyone in a positive light. But you're probably going to stop reading this at the first sentence, so what's the point. If you do read all of this feel free to contact me to discuss more.

Can you tell us why?	After speaking to some street racers around palmy they are saying they will just take their meets to new spots and even use main town areas. Like they have done earlier this year. Which is a hassle for all pubic. The better option would be to build a skid pad for them to use. Or let them use they street they having been using out of town. Keep them out of town is safer for everyone. 10 years ago when I was going to street racing meets we use to stay right out of town and when the cops turned up they use to ask us to move on to a spot that not in they area. So we would go from palmy to feilding and not be hassled by cops again. They were fine with this now that cops are blocking their out of town spots off they want to come into town more which isn't good for palmy. Either let them use the out of town spots or build a pad. 10 years ago we went to manawatu council meeting and spoke with them about a skid pad and they were all for it but didn't want to help us get it done. This isn't just a street racer problem this is a problem for everyone to sort out together.
Are there any changes you would make to the proposed amendments?	We shouldn't be wasting tax payers money on this when their is a solution out there to move the street racers on

Can you tell us why?	It isn't going to stop the boy racers, as someone who knows a lot of people in the car scene, I know that doing this is only going to make things worse for not only the council but every single resident of Palmerston North and surrounding areas. We need to think of a realistic solution by working with the boys racers not against them. Had the council ever actually ever sat down with any of them and work together on this issue? If you want war then that's the councils choice but I know that myself and many other residents do not want to be in the cross fire that YOU will be causing it this prohibition is put in place.

Can you tell us why?	There is a very large number of cars that speed down botanical road and surrounding streets. I'm concerned this will push them all over this way and my weekends will be even worse than currently.
Are there any changes you would make to the proposed amendments?	Included speed bumps on road such as botanical. Including some streets in each area (none listed for Takaro) to avoid migration.
Do you have any other feedback on this proposed bylaw amendment?	I have called police many weekends about loud cars in my streets and they can't do anything unless I have number plates or videos. Please make these laws less restrictive so something as simple as multiple complaints = disturbing the peace.

Can you tell us why?	Vehicles gather and do burn outs on a regular (weekly) basis at this intersection. (Birch Way) Sometimes there are multiple times a night on a Friday and Saturday night when this occurs.
Are there any changes you would make to the proposed amendments?	Yes the addition of Kahuterawa road and Old West road because it it not only Birch Way but the intersection of Kahuterawa and Old West road as well. Cars park right along Old West road (from Tennant drive to the first bend) as well as along the verge at the beginning of Kahuterawa road and right along Birch way.
Do you have any other feedback on this proposed bylaw amendment?	I have multiple videos of these car gatherings on various nights if the council would like to view these.

Do you support the proposed light motor vehicle prohibitions?	Yes
Can you tell us why?	I am aware of the street racing problem throughout the city and in particular in those semi industrial areas. I am also aware, from speaking with Police how difficult it is to stop. This provides a workable tool for police potentially before racing starts (reducing people fleeing). Good start.
Are there any changes you would make to the proposed amendments?	Well, no doubt they will move to other streets pretty quickly, so I would like to see wider powers for Police, in this regard, most of which is probably central govt, but anything that can be done locally is welcome
Do you have any other feedback on this proposed bylaw amendment?	Good start, but I would to see this be flexible/extended to other areas, in some form. Would also like to see more policing/ticketing of the 'minor' stuff -breaches of licence conditions car wofs/regos... as there is a correlation between relaxation of this and a rise in this (frankly arrogant) driving behaviour

Can you tell us why?	I believe that we need less legislation and more common sense. Has anyone spoken to these youth, and seen what solutions they think would work? I am sure that they don't want to keep getting fines etc.
Are there any changes you would make to the proposed amendments?	
Do you have any other feedback on this proposed bylaw amendment?	This seems rather Draconian to me, and the thin end of the Legal wedge. Why would we want to have public roads closed to the public, and who is going to decide if someone has "a legitimate" reason to be on a road. I get that people are frustrated, but surely there must be a way to redirect this behavior. Perhaps with a mutually acceptable venue and make it "user pays" to cover upkeep. After all, weren't skate parks originally in answer to youth causing issues using other public areas to skate.

Can you tell us why?	Some road users are inconsiderate of other city residents rights, causing disturbance of sleep, and damaging both public infrastructure and the broader environment, by their misuse of their lethal weapons, which they seem to treat as toys. If these proposed amendments help to decrease such behaviour then it is commendable.
Are there any changes you would make to the proposed amendments?	Yes, I would expand them to include more parts of the city and its road network as the roads/stretches of road included in the proposed Bylaw are not the only areas that are affected. I have heard from people in various parts of the city that they also experience street racing in their neighbourhoods, depriving them of sleep, damaging road surfaces and sometimes worse. This behaviour has degraded the quality of life for many residents, particularly on those streets where the vehicles are driven as though in a race - rapid acceleration, sudden hard braking, high speeds, creating excessive noise - but also on many other streets as the vehicles can be heard from kilometres away when being driven in this manner.
Do you have any other feedback on this proposed bylaw amendment?	I am not convinced that the Council has the ability to exempt people from the prohibitions proposed. I could see nothing in LTA 1998 s22A and s22AB that provides for exemptions from prohibitions based on class of vehicle. I suggest a better approach that could more easily cover virtually the whole city would be by imposing no parking prohibitions on public roads for certain period of each day (with exemptions for a limited number of vehicles for residents) and enforcing the anti-cruising provisions of the LTA.

Are there any changes you would make to the proposed amendments?	Nearly every Friday night, boyracers congregate on Napier Road, across the Ashhurst bridge (by the entrance to the Gorge). They turn up on time, midnight, and do burnout's for hours! In Feb, they blocked the bridge and wouldn't let anyone over it. I heard this boyracer meet was called 'Wellington Invasion' and there were hundreds of cars. They yelled, they threw bottles and they displayed dangerous behavior. Since then, many cars have continued to congregate at this place every single Friday night. We have called *555 many times, with no police presence being available and the boyracers left to continue disrupting the neighborhood and leaving debris, alcohol bottles and blown up car tyres on the sides of the road. We are over it! It's antisocial behavior which is affecting many families who live on Napier Road by the Ashhurst Domain.
Do you have any other feedback on this proposed bylaw amendment?	Harsher penalties - bring back J Collins and crush their cars!

Can you tell us why?	<p>Yes I believe something needs to be done.</p> <p>Recently I received a \$150 fine in post from tauranga city council for accessing a road that they had recently changed to a 'bus lane' was at 1am when no buses were there, didn't actually notice the sign until the following day when I did not go that way after noticing the signs and lucky I didn't.</p> <p>Cameras were set up to catch the number plates and a fine was automatically sent out.</p> <p>If signs are up. And cameras in designated areas, infringement fines would be a deterrent. I don't believe most 'boy racers' would know if the fines aren't paid then thier vehicles can be impounded also.</p>
Are there any changes you would make to the proposed amendments?	Don't leave it to just police. Invest money in cameras and automated systems.
Do you have any other feedback on this proposed bylaw amendment?	If signs are up people can make a choice to 'use' certain streets or send in a letter contesting a fine if necessary.

Can you tell us why?	Yes and no as I don't think this will solve the problem all together as they will just move on to another street in the large groups but they definitely need to be moved off the streets
Are there any changes you would make to the proposed amendments?	I would propose building a skid pad somewhere, for them to be able access, away from residential housing, where upon entry they are immediately agreeing to a waiver taking away all responsibility and liabilities and "do it at there own risk" type thing. They are doing it anyway, so why not move them off the streets all together. Then bring in bigger fines than what you are proposing and hammer them if they do it on the streets. What happened to impounding cars for "loss of traction" and crushing them for repeat offences? Obviously that didn't work, so some hefty fines and redirection might be the key.
Do you have any other feedback on this proposed bylaw amendment?	Great to see you are doing something but something a bit more drastic needs to be looked at to really irradiate the issue in my opinion.

Can you tell us why?	As per my post on Facebook - Good on you PNCC for trying to be proactive in this case when the cops clearly don't/wont do anything. Unfortunately, several roads being targeted just moves them on elsewhere as seen many times before. We are on Maxwells Line and get the same thing here. I don't want judder bars, I want the cops to do their job and enforce the law. Your proposal would push more here. I agree with others, they should have a place where they can go, though I understand you can't do it without restrictions due to health and safety laws. Regardless, if you want to put effort in, that would be the direction I would support rather than pushing them here.
Are there any changes you would make to the proposed amendments?	As above
Do you have any other feedback on this proposed bylaw amendment?	It is shortsighted and really a kneejerk reaction, but I applaud the fact you're being proactive when the police are failing to act. A better plan that helps all of Palmy rather than a few places would be great.

Can you tell us why?	The fine will not stop them, repeated fines will not stop them. They will just run, causing more accidents, and how many innocent people will be caught out for being in the area when they are not involved.
Are there any changes you would make to the proposed amendments?	Find a better solution. Listen to your community, we are all calling for another solution as we know this one won't work. They already have a risk of fine and it doesn't stop them, why punish all of us over the actions of these people.

Can you tell us why?	The street racing scenes in the Manawatu is getting way out of hand. I'm in favor for this as it is a good start to aid in reducing or eliminating this issue as best as possible. I'm also wondering if the crushing of boy racer cars is still in effect as that will most likely need to be put into practice again.
Are there any changes you would make to the proposed amendments?	The further extension of streets around the manawatu. It's a problem everywhere. Also an increase in fines needs to be looked at Minimum of \$150 has to be looked at to increase to minimum of \$450 and up to \$2000 for maximum penalty. I feel that \$150 will be a joke to them where the still won't take the punishment seriously.
Do you have any other feedback on this proposed bylaw amendment?	Nothing other than keep positive and keep doing a great job and get other councils around the manawatu to come on board with this idea. It affects us all around the Manawatu/Horowhenua region and it needs to be stomped on fast.

Can you tell us why?	Because there has been a growing, persistent problem with street racers gathering in the proposed areas. They cause damage, pose a risk, are a nuisance and their activities damage the environment. They generate noise, toxic smoke and they leave the filth they make behind. Generally speaking street racers do not take responsibility for the impacts of their behaviour, they act without concern for the wellbeing of other people and their activities are unsafe for both themselves and others and the problem is growing because they have a high degree of immunity. The law appears to protect their rights while the street racers put their needs above those of other citizens who's lives are disturbed by their activities.
Are there any changes you would make to the proposed amendments?	While I agree that the industrial area gatherings are a nuisance, I also propose that there needs to be a broader coverage to give police broader powers city-wide. Every year there are a number of incidents in the city that police say they are powerless to stop because of a lack of evidence. Getting evidence often means walking up to the activity and taking photos in front of groups of drunks. The police advise against doing this because it puts citizens at immediate risk of harm and can lead to further persecution from youths and gangs. Moreover, it's been my experience that smoke from burnouts hides registration plates and offenders. Making evidence very difficult to collect. I also watched the police walk over burned rubber on an offenders driveway at 2am one morning, claiming they did not have enough evidence that the youths at the party had done burnouts. 3 months later, there are still burnout marks on the road outside my home after the neighbours son and his friends spent the early hours doing burnouts and filling the air with filthy smoke. I propose amending the bylaw so that police are able to fine, arrest or impound vehicles of youths who deliberately put themselves, others and the environment at risk through their behaviour throughout the entire city. This behaviour is destructive and it affects the wellbeing of others in multiple ways so everything that can be done should be done to stop it.
Do you have any other feedback on this proposed bylaw amendment?	There are too many inconsistencies in how people are treated with respect to their right to live safe, peaceful lives. As citizens we are told to phone in our complaints about unreasonable activities in the community and to be persistent if it continues. In my experience even persistence doesn't alter policing and the policing often appears to support antisocial behaviour.

	<p>Police callcentre operators tell us to get evidence of street racer activity, yet its almost impossible to get photographic evidence without placing ourselves in harms way. The amendments need to really protect people, not just be a band-aid.</p> <p>It can take days to recover from the early morning impacts of street racer activities in my community. Last summer it was happening 2 nights a week, 3 on a long weekend. This affects the everyday lives of ordinary people who feel the law should protect their peaceful enjoyment of life and want to live in a safer community.</p>

Can you tell us why?	I fully support prohibiting light motor vehicles from operating on specific roads during specific hours and enabling the police to issue infringement notices to those gathering in the locations identified. Street racers are intimidating, defiant, and their behaviour is antisocial. I also support the inclusion of other streets in the future too. I live on Limbrick Street and I am often disturbed by street racers who drift (repeatedly circle) around the Limbrick/Millar Street roundabout on Friday nights. There are a lot of young families and pets that live in this section of Terrace End and I am concerned for the safety of the innocent general public. I am fearful that deaths or damage to property may occur if action is not taken swiftly. This amendment is the first step to reducing and deterring street racing activity in Palmerston North.

Can you tell us why?	I think this would be a nightmare for Council and police to monitor and maintain, such as dealing with the numerous exemptions and those with genuine reasons to be there at those times, aside from just home owners and their visitors, taxis, but renters who may be going to or returning to graveyard shifts? This could waste a lot of time for Council and police and be very frustrating for innocent residents who have a right to use the road at any time when they are doing so safely and responsibly. I understand we need a way of dealing with the street racing issue without it being aimed just at them or targeting just them but it's unfair for it to negatively impact everyone else who could get caught up in a bureaucratic issue when trying to get exemptions or prove they had genuine reasons to be there at that time, life is too complex and busy for most people as it is without more loops to jump through. I strongly believe Council should either on their own or in conjunction with another organisation work towards getting a designated driving pad area for these boy racers which is the safest and fairest option to all. Legally speaking there would be ways to get around any potential liability issues with the guidance of your top lawyers etc. With this option, if the boy racers did street racing outside of their new designated area then they could be issued an infringement fee?
Are there any changes you would make to the proposed amendments?	As above, I'd scrap the proposal and instead propose a designated area be made for street racers.

Can you tell us why?	It is a major nuisance for the residents affected. It endangers the safety of legitimate road users, children and residents. It has escalated to a degree where innocent bystanders are being killed by reckless drivers.
Are there any changes you would make to the proposed amendments?	There may be legitimate reasons, but I don't understand why you designate certain streets it will be applied to. Surely that will just shift the problem elsewhere. Other places are already a problem, although obviously not to the same degree. If, as you say, it doesn't effect residents or legitimate road users, why not simply make it clear that it potentially applies to all streets and roads within the city boundary?
Do you have any other feedback on this proposed bylaw amendment?	I enthusiastically support these efforts to curb this dangerous and antisocial behavior.

Do you want to speak to Council in support of your submission?	No
Your submission	
Do you support the proposed light motor vehicle prohibitions?	Yes
Can you tell us why?	<p>In the six years I have lived in Cloverlea, I've regularly seen and heard cars with noisy exhausts, lowered suspension and other 'boy racer' type modifications. These drivers do laps, speed on the straight stretches, take corners too fast, and do burnouts, and I'm quite often woken in the night by the noise. Whenever I can get the registration numbers of these vehicles, I report them to Police online or by phone. Now and again police officers have rung me back to get further details. I have witnessed (and reported) criminal activity by people in these cars, such as breaking into the dairy across the road from me, and the swapping of car number plates.</p> <p>Police action seems to have had an impact. I see and hear fewer cars which look and sound obviously unroadworthy; the really dodgy ones seem to disappear soon after I report them. I still see and hear 'boy racer' type cars, but they don't seem to congregate in my neighbourhood any more. It seems like Police are doing all they can with their current powers, and the only thing that will improve the situation is if those powers are increased.</p> <p>Whether walking, driving my car or riding my ebike, I do not like sharing the road and the neighbourhood with people who treat public roads as their own personal race track, and driving as a sport and a competition. This proposed new clause in the Traffic and Parking Bylaw seems to me to reinforce the idea that our roads are a public place, and should be able to be used safely by everybody to get from A to B.</p>
Are there any changes you would make to the proposed amendments?

From: Submission
Subject: FW: Street racer bylaw proposed

From: Heather Watson
Sent: Saturday, 22 October 2022 10:26 pm
To: Submission <submission@pncc.govt.nz>
Subject: Street racer bylaw proposed

Dear Council

Whilst I think the Street Racer proposal is needed and a good idea I have real concerns at possible consequences. In the past Keith Street has equally been used as a boy/girl racing track, often with two car racing full throttle down the street, often for hours and racing each other. I am sure there are other areas of the city likely to be vulnerable too.

My concern is that unless the proposal is wider than the few areas currently proposed the problem will just be moved around and the problem not resolved. All such behaviour must be included and penalties enforceable. The accident in Main Street is a classic example of the way these boy/girl racers use any road to get their thrills.

Kind Regards

Heather Watson

From: Submission
Subject: Palmerston North Traffic and Parking Bylaw 2018 - proposed changes

From: Rachel Lavis
Sent: Wednesday, 26 October 2022 11:17 am
To: Submission <submission@pncc.govt.nz>
Subject: Palmerston North Traffic and Parking Bylaw 2018 - proposed changes

To whom it may concern,

Thanks for the opportunity to respond to a letter received today relating to the above proposal.

Macaulay Properties currently owns a large industrial site at 49 Malden Street, and previously owned a smaller site at 24 Malden Street. Macaulay Metals Limited, a metal recycling company, is the tenant currently and historically.

We would like to register our support for the proposal to limit overnight access to Malden Street (and the other proposed roads) by light vehicles that are not there for a legitimate purpose. We believe that there is a lot of crime that can happen in industrial areas overnight and there is a lot of property on our site that could be seriously damaged if people were to access it after hours for mischievous purposes. We imagine there are also residents in fringe streets around these more industrial areas who are greatly impacted by overnight activities with large groups of cars.

Please do let us know if there is anything further we need to do to register our support of this proposal.

Thanks,

Rachel

Can you tell us why?	These are public roads. Build them a purpose built skid pad or area, user pays for use and maintenance. How are you going to allow others to use the roads for legitimate purposes at night, such as those that work night shifts, etc?
Are there any changes you would make to the proposed amendments?	Not to apply any of the proposed amendments, but create a space where car enthusiasts can pay to use, to keep people off the streets.
Do you have any other feedback on this proposed bylaw amendment?	I would just like to add, I am a young working professional working for a government agency. I have no involvement in car racing or interest in motorsports/cars at all. But I would rather you used my rates that I pay to give people a proper area to safely congregate and utilise than try and figure out who is/isn't legitimately using a public road and trying to enforce a closure on a public road. The fees you set at a place like I mentioned above could cover entrance, security and maintenance. You could even involve local food service businesses such as food trucks, to cater. Think outside the box.

Traffic and Parking Bylaw amendment submission

Your contact details	
First name	Doug
Last name	Smith
Organisation	Seacrest Properties Limited
Hearing	
Do you want to speak to Council in support of your submission?	Yes
Your submission	
Do you support the proposed light motor vehicle prohibitions?	In part
Can you tell us why?	<p>1. The installation of speed humps along Bennett Street will be a significant impediment to the movement of the large volume of heavy traffic using the street 24 hours per day. Seacrest Properties Limited owns the property at 60 Bennett Street (right across the end of the cul-de-sac and heavy traffic to and from this site will be among the most effected by the proposal.</p> <p>2. The creation of a central island of speed bumps in the cul de sac is unlikely to prevent burn-outs from occurring around its perimeter. In-fact, the presence of the central island will effectively form a 'drifting' track around it's perimeter - probably more of an attraction than a deterrent.</p>
Are there any changes you would make to the proposed amendments?	<p>I fully acknowledge the problem and seek to eliminate it from Bennett Street. However, I believe this proposal creates far greater problems to the legitimate users of Bennett Street than does the problem which needs to be solved.</p> <p>In this day and age I would expect current digital technology in the form of surveillance, traffic management and policing be applied to this issue rather than the 1970's technology offered by this proposal.</p> <p>Additionally, the location of the Mangaone Street could also provide a sufficient non-potable water supply which could be reticulated to each street light standard and then up the inside of each standard to high-volume spray nozzles located adjacent to each street-light fitting. The non-potable water supply could be activated remotely to create intensive sprays of water (heavy rain equivalent) along the entire length of the street once digital surveillance indicated the presence of any 'racers'. After having fulfilled its function by temporarily ruining the venue for the purpose of the offenders and their spectators, the 'rain' created will simply return to the Mangaone Stream via the existing storm-water system and life will return to normal for the legitimate users of Bennett Street.</p> <p>The use of remotely controlled 'rise-and-fall' bollards to block Bennett Street at the Benmore Avenue intersection is another technology option that might be worth exploring.</p>
Do you have any other feedback on this	Frankly. the design and implementation of traffic management systems within Palmerston North, by the staff of the PNCC, is woeful. This seems to

153-2

proposed bylaw amendment?	me to be an opportunity for someone to some serious research the internationally proven solutions and also become truly innovative b by trying some 'out of the box' thinking. The city does not need any more 1970's era components to be added to its 1970's era system which will only make business more difficult than it already is.

Last name	Nielsen
Organisation	
Hearing	
Do you want to speak to Council in support of your submission?	No
Your submission	
Do you support the proposed light motor vehicle prohibitions?	In part
Can you tell us why?	<p>I am concerned that the prohibition only seeks to infringe any vehicles present, rather than any vehicles seen enacting the behaviour that is sought to be prohibited. I also worry that it may catch some people unawares - e.g. people who are travelling at night who need to pull over to check Google Maps for directions, or answer a call, perhaps take emergency medication, or if they accidentally turn down the wrong street while navigating their way somewhere. Would these people face a monetary fine, too? How would police determine (and how would innocent people justify without difficulty) if a person had a genuine reason for being on a road?</p> <p>Furthermore, if these designated roads are declared to have these restrictions, then I am wondering, what if the street racers simply decide to go elsewhere and just use different streets?</p>
Are there any changes you would make to the proposed amendments?	Expand the definitions of exemptions to fining to include people who were accessing the road for legitimate, legal purposes - i.e. driving on the road for navigation, or accessing the road for driving safety purposes
Do you have any other feedback on this proposed bylaw amendment?	<p>I feel that this proposed bylaw seeks more to punish than it does seek a workable solution. I feel that this bylaw will not stop the street racing activities, but only encourage it to go elsewhere. If it goes elsewhere, then it may become harder to identify where the street racing is more likely to happen.</p> <p>One alternative idea (though I am not sure if it would be feasible) I've been thinking about while filling out this form is one that I read in the council candidate voting forms, about someone having the idea of creating a designated recreational street racing area specifically designed for street racing enthusiasts to go. I wonder if it would be a better long-term investment to create a sort of small place like this?</p>

Do you want to speak to Council in support of your submission?	
Your submission	
Do you support the proposed light motor vehicle prohibitions?	No
Can you tell us why?	I agree something should be done about the boy racers. I don't believe bi-laws in the form of fines, street restrictions and impounding cars is the solution.
Are there any changes you would make to the proposed amendments?	<p>Yes. Under the already existing land transportation act drivers are subject to the impounding and destruction of their vehicle if they have been convicted 3 times in the past 4 years. Those convictions are excessive speed, excessive loss of traction and racing. The maximum fine for a loss of traction conviction is \$4500 at the discretion of the judge. I don't see the point in making those apart of our Bi-law when they already exist.</p> <p>In relation to the restricted streets. I think the concept is good. Practically how would that work or be enforceable? There's potential for missuse.</p> <p>Maybe thicker gravel that tears though the tires if they're doing burn outs. Would deter boy racers from those particular streets if there tires are wrecked fast.</p> <p>Unless the police arrive there isn't a lot the restricted street can do. We can all call the police at anytime for unsafe drivers.</p> <p>Have you visited Mastertons Skid pad? Little Masterton has one and hasn't complained about the cost associated with it. They continue to host drag and burn out races. Palmerston North still boasts the Robertson Holden speedway regularly. Wouldn't the same liability issues apply here. Be bold PNCC do something unique.</p>
Do you have any other feedback on this proposed bylaw amendment?	<p>Good to see something is being done just wish it was a bit more well rounded then plump it into the police enforcement bubble.</p> <p>How much would the bi-law cost to pass and in ongoing costs to ratepayers? The call out fees per call?</p>

Do you support the proposed light motor vehicle prohibitions?	In part
Can you tell us why?	I support it because something needs to be done about the street racing, However, closing off these roads will only lead to other roads being used so the problem is not actually being addressed at all. Furthermore, issuing fines will problematic too. What happens when they don't pay it and are continuously getting fines for the same behaviour?
Are there any changes you would make to the proposed amendments?	I would create a safe place for them to go. I agree that health and safety could be an issue so put the ownership back on them by getting them or their parents to sign something formally so they are accountable. It's done in others motor vehicle sports, I,E drift racing, so why not for street racing?
Do you have any other feedback on this proposed bylaw amendment?	I think the council should sit down and talk to the street racers directly to sort out a solution. Then, and only then will we see real change for this problem. Street racing, or boy racing as we called it back in the day, has always been around and there will always be car enthusiast so the best way to approach this is directly.

Do you support the proposed light motor vehicle prohibitions?	Yes
Can you tell us why?	It is very loud and disruptive hearing boy racers. This is also quite dangerous in residential areas.
Are there any changes you would make to the proposed amendments?	I would ask council to consider adding Pahiatua Street to this list and to lower speed limits or place speed bumps on this street
Do you have any other feedback on this proposed bylaw amendment?	There should also be changes to when heavy vehicles such as those from Higgins can drive down Pahiatua Street after 10pm

Do you support the proposed light motor vehicle prohibitions?	In part
Can you tell us why?	My first thought when looking the roads up on Google Maps was, "wait there's a road here?". Seams fine to ban light vehicles along those roads. However I don't think it will change much. As far as I'm aware street racing is already illegal, so making it illegal to drive on these roads won't change anything. I guess it's nice for police to be able to issue tickets even if they suspect street racing is happening
Are there any changes you would make to the proposed amendments?	I think it should be seriously be considered installing a skid pan somewhere. I know these do cost money, but people with skid cars have extra cash which is evident in how much they pour into their cars. I believe racers would love a place, even one they must pay for, to be able to undertake these activities. Make them sign a waiver or something? You're the counsel!

Can you tell us why?	<p>its not going to work.... the best thing to do is let the racers occupy roads like longburn and behind the airport because they are the safest. they well lit, one way in and out. personally i love the skid bumps the council put up round the show, gives me something to aim for, to better my driving. whats to stop skids at those spots outside those hours... even worst, skids on main st and car-parks in the middle of the night.</p> <p>I'm in my thirty's now and my last event would have been 3 months ago. it wasn't safe... not like it was in my day. think something has to be done(but not sure). mainly around the meth driving and bulletproof driving. back in my day we started in pieces of crap and worked up. you have to know how to rebuild a engines and boxes, and in time how to not break them. now you have a young thugs, high on meth with stolen cars (automatic, rwd) driving it dangerously, honestly not knowing how close they are to hitting or not giving a [REDACTED] if they kill somebody. (doubt these types would stick around to help out) . personally i think if you have a manual and can prove you know what your doing you're so much safer then most people on the road, no longer a lazy driver.</p> <p>Also why didn't you include the square as a no gathering place? i don't think that you would be able to enforce it even if you did??? anywhere!! and the backlash the following days would be so much worse. better to just not poke the bears with a stick aye, i can see what you guys are trying but it doesn't stop people gathering other places or same place different time... or from stereo typing a group of people who just wanna see skids and be part of a atmosphere without breaking the law into breaking the law by being there.... pretty much.. it wasn't illegal till the cops arrive if it was easy to get on the track i would be there in a beat. the fact that you need helmet and overalls is a major put off to me and the fact that it's usually work hours on the track.</p>
Are there any changes you would make to the proposed amendments?	<p>nah but..... get rid of 90% of road furniture, and those stupid [REDACTED] cycle lane [REDACTED] down main st / pioneer hwy. stop all art work projects. [REDACTED] ART</p> <p>[REDACTED] PLANTER BOX [REDACTED] PNCC STAFF SHOULD BE HELD PERSONALLY LIABLE FOR ALL THE ACCIDENTS THAT HAPPENED ON THAT STRETCH OF ROAD FROM TIME OF INSTALL..... TO THE TIME YOU OPEN IT UP AGAIN IN 2023</p>

Do you have any other feedback on this proposed bylaw amendment?	<p>NAH.... MAYBE</p> <p>JUST [REDACTED] THE COUNCIL THE BUNCH OF [REDACTED]</p> <p>21 PEOPLE IN PNCC GETTING OVER 100K A YEAR..... [REDACTED] [REDACTED]</p> <p>HEADS..... GO OUT A EARN A HONEST [REDACTED] DOLLAR INSTEAD OF</p> <p>BLUDGING OFF THE COMMUNITY LIKE PESTS.... ALSO [REDACTED] THREE</p> <p>WATERS.. THINK THATS IT... AND DOCTOR WAIT TIMES</p> <p>I PREY NIGHTLY, THAT YOU EXCESS EARNERS [REDACTED]</p>

Do you support the proposed light motor vehicle prohibitions?	Yes
Can you tell us why?	It is a good, moderate control that will reduce the violent driving in the areas concerned, reducing risk and damage and disturbance of neighbourhoods.
Are there any changes you would make to the proposed amendments?	Combine it with publicity that educates the community about how much disturbance the offenders are causing, the fire risks endangering lives and buildings, erosion of paving,
Do you have any other feedback on this proposed bylaw amendment?	Be sure to include education on why skid pads aren't feasible. There's always lots of discussion. The liability. The unavailability of properly qualified supervisors such as fire fighters, police, vehicle inspector, medical staff. The customary attitude of participants to any accountability or control. Make sure the message clearly says the punishments are modest until repeat offending requires the impounding and possible destruction of the car(s) involved. Thank you for controlling this activity.

Can you tell us why?	Closure of roads is only pushing the problem sideways and out to other areas
Are there any changes you would make to the proposed amendments?	Yes skid pad
Do you have any other feedback on this proposed bylaw amendment?	<p>Yes a skid pad like Manfeild. I don't live in Palmy but it affects my family and I hear about it a lot from them. The cats need somewhere permanent and run by them. It won't work if there are too many rules. They go to the industrial areas as it is wide and open to do skids and donuts, (we had pork chop hill in the 80s),</p> <p>It might cost a couple of million but so worth the money spent. Maybe you can make a submission to government to have them in each town and they supply the funding. Need to sort out problem now as it is only going to get worse. Whose the next innocent person to get killed? It has to be done properly but if you start it by having a meeting to listen to them you may get some on board to take over. You have to back them fully though and LISTEN to them</p>

Do you want to speak to Council in support of your submission?	No
Your submission	
Do you support the proposed light motor vehicle prohibitions?	Yes
Can you tell us why?	Yes, but I don't think it's enough at all.
Are there any changes you would make to the proposed amendments?	Yes, I would suddenly increase spending in quick jolts, such as adding 16% overall (1/6) of spending yet reducing the median by 13% while making spurts of increased surveillance throughout spans of a couple of days, hiring both volunteers and normal surveillance to double down with speed and efficiency with patrol activity (mixed surveillance).
Do you have any other feedback on this proposed bylaw amendment?	If you only do on certain streets without catching anybody, races will only change place over time. Plus, these people need to know they're being checked (even when they aren't), and what the consequences can be for what they do.

Can you tell us why?	Cars bad, fast cars worse
Are there any changes you would make to the proposed amendments?	I think this very important on streets near residents, e.g. Bennett Street. Perhaps leaving places like el prado unenforced could move the racing to places less dangerous to the public
Do you have any other feedback on this proposed bylaw amendment?	Long term we need safer streets - more complex geometry close to the road to reduce speed, continuous sidewalks, and increased turning angles all make things safer for all road users (and will coincidentally prevent street racing).

Can you tell us why?	Your attempt in sorting out the issues with street racing is a good thing but you are just going about it in the same way every other council ever has. Christchurch still has issues after baning cruising on specific streets. Try a new approach, there has to be some way for a skid pan of sorts to be implemented without excessive cost to the rate payers (which some of the racers are and you seem to forget) and without legal liability.
Are there any changes you would make to the proposed amendments?	Try a method that will solve the problem not just move it.
Do you have any other feedback on this proposed bylaw amendment?	There must be a way for a skid pan of sorts to be implemented without excessive cost to the rate payers (which some of the racers are and you seem to forget) and without legal liability.

Can you tell us why?	Underground activities stay underground I don't even drive but build a space for them - it's just concrete, they will maintain it themselves - why do you think they go to open remote locations? Because that's all they need, but do not have - unless they want to spend money on specific days once every blue moon.
Are there any changes you would make to the proposed amendments?	Do not BAN people driving at allocated times - set up policing around boy racing hot spots and target them - make it too hard for them to do what they are doing - this will change nothing banning them. Their cars are probably illegal anyway, this is not a matter of the law.
Do you have any other feedback on this proposed bylaw amendment?	Prohibiting never does any good.

Your submission	
Do you support the proposed light motor vehicle prohibitions?	Yes
Can you tell us why?	I believe Palmerston North has a problem with street racing. Having a central address, we frequently hear the sound effects of these anti-social antics. My street is often used as a thoroughfare where cars travel at high speeds. As a parent of a young child, this is a very scary thing. With 3 schools close by there are also always children walking the streets. We have had a late night, high speed crash on our street this year already.
Are there any changes you would make to the proposed amendments?	I feel like there should be more streets included in this proposal. I feel like the fines should be steeper and occur quicker to discourage this behaviour.
Do you have any other feedback on this proposed bylaw amendment?

Can you tell us why?	Police force already under resourced, dealing with ram raids and putting there lives at risk dealing with meth fuelled lunatics. Get to the nitty gritty and crush cars racing on roads. Too much traffic on roads these days and innocent bystanders.
Are there any changes you would make to the proposed amendments?	Skip the \$150, go straight to \$1k, for racing on roads. If they don't pay judge needs to throw away the key. These little shits don't care, they are now an entitled generation, where tax/rate payers will continue to fund including their fines in their winz benefit.
Do you have any other feedback on this proposed bylaw amendment?	Manawatu &pncc need to collaborate together and sort it out with manfeild track. This is not just a palmy problem and it doesn't happen just during the night either. It's about time this was finally sorted before someone wakes up to a car in their lounge or child's bedroom. Thank you for reading.

Can you tell us why?	Wasting time and effort into this when this will just move the problem to other streets and cause nuisance there while at the same time causing inconvenience to ppl nearby or who legitimately need to use the road
Are there any changes you would make to the proposed amendments?	Put several speed bumps in? Bollards? Build a skid pad - I know there are liabilities with this but surely there's a way. Or maybe hold a skid event frequently ? It seems they're very popular so would be successful
Do you have any other feedback on this proposed bylaw amendment?	I don't have the answers but surely we can do better than this...

Can you tell us why?	<p>This is not going to work.</p> <p>They'll find another (destructive) outlet. And it's "fun to break the law" or to "test the limits"</p> <p>You need to guide them towards legal places do actually do "risky" behaviours. Give them safely "unsafe", legally protected spaces (think arena style or "demolition derby style") , so that they can legally get their testosterone out, using cars if they want to. They need to show off, and compete.</p> <p>You're dealing with young male red-blood mammals in the puberty - development stage of life. These guys are under the influence of natural, always producing "strong" drugs produced by our bodies. No amount of gender studies is going to change that. Males do male things. Repression of the natural biology leads to explosion and out of control situations. We need to vent, regularly, to relieve the pressure, and that's more healthy for society at large. Beleive in guys, utilise their strengths, don't repress them.</p> <p>If you reduce the places they can "do ■■■", they'll just go somewhere else around here and this proposal/conflict will have to happen again!</p> <p>We've made life too boring and safe. This is the result. All this is going to do is increase the crimes committed.</p>
Are there any changes you would make to the proposed amendments?	See above
Do you have any other feedback on this proposed bylaw amendment?	See above. Lots of pyschology papers confirms my statements. Both in human studies and in the animal kingdom. (Think herd of angry young elephants in musth.)

Can you tell us why?	More needs to be done to provide youth driver training. These are unreasonable prohibitions
Are there any changes you would make to the proposed amendments?	No new proposals are fair unless an area or programme is introduced providing people with an area to drive.
Do you have any other feedback on this proposed bylaw amendment?	Hopefully the council does not respond to unreasonable requests from people who are not greatly effected from an issue that is not a big one. Definitely don't think the police need to be involved in anything as they are already misguided in there actions to help in safer roads.

Can you tell us why?	<p>as a resident of cloverlea with friends who participate in "skidding" or "street racing" that like to come and see me late at night. placing these laws and prohibitions are only going to make it worse. i don't particularly participate myself as i do not own a car, but for normal residents (elderly) in my neighbourhood, if they're coming home late and they drive a car like an honda civic, (which is also known as a car that the cops target) they're going to be frightened for their life as they wouldn't have done anything but heading home. some people will also purposely go down there to distract the police for something else more dangerous happening around, because they know that the police believe "street racing" and/or "skids" are more important than say maybe someone's life. people who cannot afford to pay for their WOF, and Registrations are going to be pinned and targeted. now i understand it is their liability to get Wof and Reg for their car but not everyone can afford to these days and it is they're only way of transportation. so how is it fair that police can ticket/ impound these cars that people rely on when we can barely afford to buy ourselves groceries with the cost of living these days. so fines, tickets, impounding cars won't do anything. and with that money if they were to get one. well you say there will be up to \$1000s of dollars involved, why don't you use that money to make a safe area.</p>
Are there any changes you would make to the proposed amendments?	everything, it shouldn't be in place at all.

Can you tell us why?	Living in the Roslyn area we have had to endure boy racing noise for years. We then have had to see the mess left on our surrounding streets. As a rate payer this annoys us as well to pay for repairs caused by them so often.
Are there any changes you would make to the proposed amendments?	Some of these roads are used by nightshirt workers to get to and from work. Which they have been using for years. They are also frequently used by residents. It seems an inconveniences on these people and too easy for a power tripping Police officers to inforce fines. I'm not sure if I've missed information but I think you need to be more specific with the types of vehicles and also the way the vehicles are being used on those streets. Simply saying "operating light vehicles" could cause confusing and unnecessary inconveniences to the non racing road users.

Can you tell us why?	These are not just car enthusiasts anymore they are people with a complete disregard for others and who are threatening people and businesses in our community. Police are unable to deal with them effectively in their current state.
Are there any changes you would make to the proposed amendments?	Do not give them a warning, allow police to impound on the first occasion. Police will not always do this, they will use their discretion. Forcing police to issue a warning on the first occasion will minimise their ability to stop this sort of behaviour. Just because police can impound a car on the first occasion doesn't mean they will. Allow them to use their discretion and make a decision based on who and what they have dealt with in the circumstances.
Do you have any other feedback on this proposed bylaw amendment?	See feedback and advice from front line Constables. Seeking information from higher up the police chain is not going to help and they rarely ask for comment from those on the front line who actually deal with this group.

Can you tell us why?	Complete waste of time and resources. Police will be tied up monitoring these sites instead of doing their jobs.
Are there any changes you would make to the proposed amendments?	Cancel the prohibitions
Do you have any other feedback on this proposed bylaw amendment?	After reading the pncc viewpoint on facebook, it is clear that you can only see problems in creating a solution. That is completely the wrong mindset. We had the same issues with trailbikes on the stop banks 45 years ago. A private businessman Mort Andrews then bought the land at Taikorea and formed a MX park. Then with somewhere for the riders to go the issue then disappeared. You may be suprised to find that most of these skid vehicles are driven by older people who pay taxes and are ratepayers, the demographic involved in this sport have long moved on from being 'boy racers'

Can you tell us why?	It is ridiculous to close a public road to the public. If street racing is this much of a problem, take the skating approach and make Mansfield or better yet make a drift pad more accessible to the public... blocking off a road and giving a fine is only gonna make them do it somewhere else.

Can you tell us why?	Existing laws cover this issue, but Police are using their discretion not to prosecute and asking for bylaw changes. This is a symptom of lazy Policing and failure to uphold law, not the need for more bylaws
Are there any changes you would make to the proposed amendments?	No, pressure the Police to action the existing laws they already have.
Do you have any other feedback on this proposed bylaw amendment?	Yes, ensure the Police receive the invoice for the work involved to investigate this bylaw and waste ratepayers money in doing so. The underlying issue is Police failure to apply the existing law

Can you tell us why?	Well it may stop people going to those areas but they will just move to another area, we need to provide a safe space for these drivers to go and share their passion for cars and skids. Other towns have skid pads, why can't we?
Are there any changes you would make to the proposed amendments?	Instead of not giving another option of where these drivers can go. Why not create a safe, inclusive space for them to meet, share their love of cars and do some skids.
Do you have any other feedback on this proposed bylaw amendment?

While You Were Out the following message was taken on your behalf.

MESSAGE FROM: Julie Davey

STATUS: Information Only

DETAILS: The following came through via Chat but she hung up before I could get contact details:

I just wanted to say that I agree with the proposal to limit/restrict cars within certain streets between 10pm to 4am as a way to minimize 'boy racing' however I also note it will encourage this behaviour to move to other area which may not have had issues previously. Eventually you may find you have to place these restrictions on all streets in the greater PN area. Just something to think about. I don't have a solution but it is behavioural. There are few consequences currently and the police have very little (if any) power to do anything.

Can you tell us why?	It is a start.
Are there any changes you would make to the proposed amendments?	Yes, would expand it hugely. These racers have been getting away with this for far too long. Whinging and moaning about not having anywhere to go. Cars need to start being impounded and crushed. Police need to show face and not just take 105 phone calls saying they will send units and not doing it. We have put up with this as longburn residents for years now and its beyond a joke. This amendment isnt foxing the problem, just moving it around. They will find elsewhere. Take their cars!!
Do you have any other feedback on this proposed bylaw amendment?	More needs to be done

Organisation	
Hearing	
Do you want to speak to Council in support of your submission?	No
Your submission	
Do you support the proposed light motor vehicle prohibitions?	No
Can you tell us why?	Just another law that will be broken by the car enthusiasts, it will make things a hell of a lot worse and cause them to just go elsewhere, it won't fix the problem it'll just move it to another culdesak
Are there any changes you would make to the proposed amendments?	Bin the hole idea. It's a horrible idea and will waste tax payers money even more
Do you have any other feedback on this proposed bylaw amendment?	Just give the car enthusiasts somewhere safe they can go and do burnouts in, it's not hard, the wind sailing club even has its own patch of concrete to use, there's a skate park in almost every town, I just don't understand why every legal burnout pad gets shut down by the government when it helps solve the issue?

Hearing	
Do you want to speak to Council in support of your submission?	No
Your submission	
Do you support the proposed light motor vehicle prohibitions?	Yes
Can you tell us why?	Street racers on Makomako rd leave a lot of rubbish near my work, damage cars, and intimidate staff who are here on night shifts. Police seem ineffective at dealing with this so support closing this road after hours.
Are there any changes you would make to the proposed amendments?	Our factory on this road is a 24h production facility, we would require access for callouts of staff and contractors and milk tanker trucks over night time hours. These restrictions should not be applied to heavy vehicles (who can access at all times), signwriting or business vehicles should be exempt, and those that can show staff ID for business on the rd are exempt. Standard refer to residents/occupiers, but is not specific enough to people to work at business on this road & process to apply from exception is unclear - will all nightshift staff have to apply for exception or will be allowed to access?
Do you have any other feedback on this proposed bylaw amendment?	The council needs to offer alternative locations for boy racers of this problem will move to another street. Boy racers are a large community in Palmy and council should engage positively with them by offering a skid pad vs just prosecution & persecution or this risks worsening the problem

Your submission	
Do you support the proposed light motor vehicle prohibitions?	No
Can you tell us why?	For those that work in these areas by the sounds have to have permission to drive on the roads.... using police reasources to police this im sure there are other things they can be doing... also is it really gount to make a diffrence to the car enthusiast community they will just find otber places to be.... they need a dedicated spot to be able to enjoy their hobby with condition they have a clean up crew.... that way they wont be racing around the streets causing havoc but in a safe place where they cab chill hang out and enjoy thrir hobby safely..... somewhere that wont cost \$100s of dolkars to use.
Are there any changes you would make to the proposed amendments?	
Do you have any other feedback on this proposed bylaw amendment?	How will this be monitered??? What about those who work nightshift will we get pulled up all the time.....

Hearing	
Do you want to speak to Council in support of your submission?	Yes
Your submission	
Do you support the proposed light motor vehicle prohibitions?	No
Can you tell us why?	<p>You are restricting normal road users who pay and have a right to these public roads. It is ridiculous that you can assume by limiting hot spots of "boy racer" activities, that you will be able to squash the problem. It is arrogant and hot headed and not what I would have hoped for out of our council. This is yet another mistake made by the powers that be in charge of our council. To minimise these nights of "hooning" and loud cars you must present an alternative. A suggestion would be council funded days at our local track that are open to anyone so long as the vehicle is able to either; have a wof or pass a track check. This would prevent people being un fulfilled in their desire to do skids and go fast. Just a suggestion but have many more to come foward.</p> <p>Thank you for your time</p>

Hearing	
Do you want to speak to Council in support of your submission?	Yes
Your submission	
Do you support the proposed light motor vehicle prohibitions?	No
Can you tell us why?	I think imposing restrictions like this winter solve any problems and if anything will just make things worse for residents. Boy racers will keep driving anti socially but even closer to densely populated areas. Imposing more and more laws and controls on the people of this country is sacrificing our liberties bit by bit just to keep the few that have nothing better to do than have a moan content until they find something else to moan about like the noise from the speedway
Are there any changes you would make to the proposed amendments?	Scrap them entirely. Don't solve anything just like the boy racer/SLOT laws didn't change anything
Do you have any other feedback on this proposed bylaw amendment?	No

Hearing	
Do you want to speak to Council in support of your submission?	Yes
Your submission	
Do you support the proposed light motor vehicle prohibitions?	No
Can you tell us why?	It's a complete waste of rate payers money. It's been done in other city's and been proven to be a waste of time. You ban one area another becomes a target. Your expecting the police to check every vehicle that enters to see if they have reason and at the rate of the cars being stolen it's seems they already have their hands full. For the amount of money to put up signs and try police a half law you would be better off spending it on cameras around the cbd to stop or lower the amount of youth violence and car break ins which would then make our city more attractive to others wanting to move here. Cause I can't think of any reason to tell my family it's a good place to move to with all the crap going on.
Are there any changes you would make to the proposed amendments?	
Do you have any other feedback on this proposed bylaw amendment?	Waste of money

Do you want to speak to Council in support of your submission?	No
Your submission	
Do you support the proposed light motor vehicle prohibitions?	No
Can you tell us why?	While it seems like a good idea in theory. It is very likely the police will abuse their power and use it as a revenue gathering tool. Bennet street is the main access street to cloverlea as well as El Prado being the most handy route to kelvin grove from the central area of the city so slot of people use those streets for verious reasons. The exceptions are pretty vague and fines could be given out unreasonably
Are there any changes you would make to the proposed amendments?	Remove any streets that are an access route to an area of the city
Do you have any other feedback on this proposed bylaw amendment?	

Traffic and Parking Bylaw amendment submission

Do you support the proposed light motor vehicle prohibitions?	In part
Can you tell us why?	I support in principle taking additional measures to prevent street racers. They frequently appear on Wood Street where I live. Even had a gathering here recently, which I called the Police out to, so hopefully they won't return here.
Are there any changes you would make to the proposed amendments?	Yes, instead I propose we install "average-speed cameras" as seen in Waterview Tunnel in Auckland. We should install these at points along our major long straight roads where street racers frequent. From experience, I can tell you at Waterview Tunnel, I have never seen such a concerted effort from every single driver to drive under the speed limit. They work because it doesn't matter if you know where the cameras are, if you speed anywhere between them, you get a ticket. Put these in Palmy and you'll not only end street racing, but speeding in general.
Do you have any other feedback on this proposed bylaw amendment?	Ultimately, if street racers aren't respecting the existing law, then what additional tools will this provide the council/Police that will actually curb street racing? As usual if cops/council turn up to enforce this or existing law, they take off and resume elsewhere.

Do you support the proposed light motor vehicle prohibitions?	Yes
Can you tell us why?	<p>Manawatu Police submission: PNCC Traffic and Parking Bylaw amendment</p> <p>Prevention First is the national operating model for NZ Police. It aims to prevent crime before it happens, ultimately making New Zealand a safer and better place to live, work and visit. This model supports the Palmerston North City Council's goal, to have a safe community, which is an attractive place to live, work and visit.</p> <p>Prevention First is designed to support and enhance the delivery of Police key goals:</p> <ul style="list-style-type: none"> • Prevent crime and victimisation • Target and catch offenders • Deliver a more responsive Police service <p>It puts all people – victims, offenders and community at the centre of everything Police do through:</p> <ul style="list-style-type: none"> • Deploying to beat demand • Targeting the drivers of police demand (Alcohol, Youth/Rangatahi, Families/Whānau, Roads, Organised crime and drugs, Mental health) • Having the right mind-set: taking every opportunity to prevent harm. <p>These three components are supported through meaningful partnerships with others in the community. Prevention First emphasises the need for Police to engage effectively with their partners.</p> <p>Manawatu Police believe the Palmerston North City Council is a key partner in preventing crime.</p> <p>Police submit:</p> <ul style="list-style-type: none"> • Restricting vehicular traffic through by-law creation referencing specific locations and time periods will minimise harm within our community. • Anti-Social Vehicle Users (ASVU) who congregate in numbers then cruise Palmerston North City and outer townships to meet up at pre-determined sites to do 'burnouts' have become a major public nuisance. Their driving is a risk to themselves and other road users as well as bystanders.

259-2

	<ul style="list-style-type: none"> • Commercial operators in industrial areas are significantly impacted with road access to their businesses blocked, drivers being threatened and damage to infrastructure. • Residents are tormented with the constant roar of engines and the screeching of tyres which is making it impossible to sleep. • These events now occur almost every weekend. The numbers of participants and onlookers is regularly between 50 and 100 cars a night. • The Police have, on a number of occasions, tried to enter the area and disrupt the behaviour of the drivers, however the numbers are so vast that as the Police enter the road, pedestrians will walk out, block the Police vehicle access, surround the car and then essentially force the Police to make the decision to leave the site. • Police believe it is only a matter of time before one of the participants or onlookers are seriously injured or killed as recently as (12 February 2022) occurred at Works Road, Longburn. Person 'struck by vehicle', another stabbed and officer attacked and knocked to ground near Palmerston North Stuff.co.nz <p>Police have collaborated with Palmerston North City Council, other key partners including Business owners focusing on a number of environmental prevention strategies and enforcement activities at locations around the city in an attempt to disrupt this driver behaviour over the last 18 months.</p> <p>Police contend that this persistent behaviour is not just a Police problem, it requires a collaborative joined up approach across multiple stakeholders to achieve a sustainable outcome that supports the well-being of residents and business owners.</p> <p>Police appreciate that engineering solutions require capital investment and accept that the City Council may not be able to sustain that, therefore other tactics should be considered alongside these measures.</p> <p>Crime Science and experience has shown that enforcement activity will only temporarily reduce offending and displacement will occur. After a period of time the Anti-Social Vehicle Users will look for new areas and sites to conduct their burnouts and illegal street races.</p> <p>A balanced prevention and enforcement approach will provide a more durable outcome and will provide a sustainable solution in terms of cost and resource deployment.</p> <p>In considering other districts around New Zealand, the Police have identified some success with the Hamilton City Council and the New Plymouth District Council where they have instigated bylaws targeting motor vehicle racing and Anti-Social Vehicle Use on public roads enabling police to issue infringement notices to vehicles congregating at specific locations in contravention of the regulations established through the bylaw.</p> <p>The bylaws effectively provide Police with the ability to more safely disrupt</p>
--	--

259-3

	<p>large congregations of vehicles at ASVU events without putting the officers at risk by having to enter the street.</p> <p>It is also anticipated the ability for Police to issue a financial penalty and the potential for recidivist offenders to have their vehicle impounded will also act as a deterrent further reducing the number of participants congregating at ASVU events.</p> <p>Therefore, Manawatu Police support the amendments being proposed in the Traffic and Parking Bylaw amendment including:</p> <ul style="list-style-type: none"> • Prohibiting Light Motor Vehicles (those weighing less than 3,500kg) from being operated on specific roads during certain hours. • Limiting the times the prohibition is in effect to between 10pm – 4am every day of the week. • Installing signs that detail restrictions. • Enabling the Police to issue infringement notices for gathering of light motor vehicles in locations identified in the Administration Manual to the Bylaw • Excluding from the prohibitions those vehicles with genuine reason to be on identified roads <p>A/Inspector Phil Ward Prevention Manager Manawatu Police.</p>

Can you tell us why?	It will save the roads/neighborhoods that have already been torn apart and will probably just push the offenders to different areas but continuing as we are will be worse. Stopping people doing laps round the square for hours on end potentially changed anti social behavior, a similar pattern could be seen.
Are there any changes you would make to the proposed amendments?	
Do you have any other feedback on this proposed bylaw amendment?	Draw up a business plan for a skid pad with a breakdown of costs, legislature etc and post it on social media so that people can see its not a viable option. The cost just to get it up to health and safety standard for drivers and spectators would mean it'd be at least a \$50 door charge. And explain to them that they'd need roll cages and other safety gear for their car, they can't just roll up in mums corolla and do skiddys for \$10. Put the annoying argument of "give us a place to skid" to rest.

Can you tell us why?	<p>If Police know where street racers are congregating why are they not out patrolling those areas to stop them? Having lived in Milson for 15 years its easy to hear them, they meet at the BP on Rangitikei, Bunnings or the storage place on JFK drive - If I'm seeing them surely police are too?</p> <p>My concern is for genuine users of Bennett St and Malden St in the hours of operation who use these streets to go from Cloverlea to Milson or Kelvin Grove to Milson late at night - I understand 'genuine' users can still use these however what's to stop a street racer saying they've been visiting someone there? For me personally I often drop a work mate home in Cloverlea after 10pm and take Bennett St to get home to Milson.</p>
Are there any changes you would make to the proposed amendments?	I do think you have targeted the right roads.
Do you have any other feedback on this proposed bylaw amendment?	<p>I understand this is a really hard thing to navigate and really I feel this is the best solution - just wondering how practical this is going to be in reality. Really Police need to be out patrolling, monitoring where they are going (undercover?) and catching them in the act.</p> <p>By making it difficult to use roads it's impacting on more than the street racers and they will just find elsewhere.</p>

Can you tell us why?	I feel like something needs to be done, and this is better than nothing. I think it'll be a good test of measures that can hopefully be expanded in future.
Are there any changes you would make to the proposed amendments?	
Do you have any other feedback on this proposed bylaw amendment?	The noise of street racing/skids every weekend and some week nights is decreasing our quality of life, and making Palmerston North a less attractive place to live. This behaviours has been proven to be dangerous many times, most recently by the killing of a pedestrian, and this is making Palmy streets unsafe to walk around. Those who drive in this aggressive way are full of excuses, but the bottom line is that they are choosing to break the law, disrespect the community they live in, and put other people's lives at risk. They need to accept the consequences, and fines and impounding are the least they should expect.

Can you tell us why?	thats an illegal bylaw there is nothing in the legislation stating that a council can pass a bylaw restricting/limiting access to a public sreet, the only bylaws you could legally pass would be to restrict parking on those streets https://www.legislation.govt.nz/.../latest/DLM2609705.html
Are there any changes you would make to the proposed amendments?	the only change would be to restrict parking on those streets an fine accordingly
Do you have any other feedback on this proposed bylaw amendment?	i think the council could invest in Skid pad for them, open it up on a friday/saturday night from 8pm till 12pm charge \$5 for participation charge cold coin for people watching, hire 2 people one-two persons for safety management and possibly one security guard, the entry fees alone would cover the cost of employees, you would need to obviously make rules like only 1 person on the track at a time, or possibly look at funding manfield to open up its skid pad on those nights around the times that boyracers are out

Can you tell us why?	Reducing which streets racing may occur may lead to them racing down different streets and therefore not fixing the problem but shifting the problem to a different area. It doesn't resolve it entirely
Are there any changes you would make to the proposed amendments?	I'd suggest that a designated safe area of racing may lead to less noise and complaints and better safety of neighbourhoods. As it would attract the racing to go elsewhere and neighbourhoods won't be disturbed
Do you have any other feedback on this proposed bylaw amendment?	Does this bill take into the consideration of other streets and the safety of the people who will continue to race. Although we can dislike the behaviour it will continue to develop and change unless a solution is provided that allows for safety of both groups

Can you tell us why?	I agree that the weekend burnouts can be disruptive and damage out road and also bit a risk to public. I was young once and we used to drive around the square in my teenage years, soo much fun back then. I have heard people talk of a skid pad or a place that they can use to gather and do burnouts. Surely there is a way this can happen. Obviously it would need some planning as to how it could be done but it would stop allot of the disruption and damage to roads. Maintain a skid pad or the roads??
Are there any changes you would make to the proposed amendments?	Burnout pad for Friday and Saturday night use

Can you tell us why?	As a parent and a car enthusiast I see both sides to the problem and understand the noise in certain suburbs is a problem and the mess on the road left also... I have been whats known as a boy racer for years and had many traffic fines for doing dumb stuff a long time ago. I don't see this stopping the problem, it's just simply a patch and may push such people onto main roads causing more disruption. They want a place to do their skids! Let them have it...
Are there any changes you would make to the proposed amendments?	I'm not for it at all. They will find somewhere else.
Do you have any other feedback on this proposed bylaw amendment?	Give us our skid pad!

Can you tell us why?	I do not condone the illegal actions Street Racers carry out on what seems like empty or isolated city zones , for example drifting or burnouts . Nor is it right to litter and damage our streets and roads . But as this is conducted under the cover of darkness , I do feel New , Learning and Experienced Drivers do need some amount of practice driving streets at night . Driving in poor visibility (night) should be learnt and practiced often .
Are there any changes you would make to the proposed amendments?	No . I feel the proposed amendment acts accordingly in response to the problems frequently occurring in these zones of the city .
Do you have any other feedback on this proposed bylaw amendment?	Aroha mai , very sorry it has come to this .

Can you tell us why?	I use Bennett St to get into Cloverlea at times after 10pm and know other people who do also, it gets a fair bit of legitimate traffic use. I wonder if prohibiting the use of certain streets is a useful strategy, the reality they will just go elsewhere. You just need to look at the amount of donut and skid marks around Highbury to see that they don't really care where they do it, or the impact it has on anyone else. I have had to close my windows up and rewash my washing thanks to burnouts at the end of my cul-de-sac. It's not unusual to hear them racing up and down Amberley Ave and Pioneer Highway. I realise it's a frustrating problem, but is this really a solution?
Are there any changes you would make to the proposed amendments?	I don't know
Do you have any other feedback on this proposed bylaw amendment?	Are there any alternative areas where they can go? Telling them they can't do it isn't going to stop them, just wondering what other alternatives are possible?

Your submission	
Do you support the proposed light motor vehicle prohibitions?	Yes
Can you tell us why?	We live in a street that while not directly effected backs on to a neighbourhood where the amount of street racing has increased in the last year. The activity of street racing is dangerous and causes damage to the streets. I support limiting this antisocial activity by a small number who do not fully understand the risk and have no regard for local community.
Are there any changes you would make to the proposed amendments?	Allow the addition of street that doesn't require a change to the bylaw but can be added at short notice.
Do you have any other feedback on this proposed bylaw amendment?	No

Question 1: Do you support the proposed light motor vehicle prohibitions?

☒ Yes

☐ No

☐ In part

Can you tell us why?

(Issues relating to)
Health & Safety: To themselves - cars get stuck, young people all over the roads walking - drinking - fighting. To others: noise - intimidation - blocking roads to other traffic - oil deliberately poured on road - caused an accident - continually leaving rubbish bottles - old tyres - KFC packets etc. to stack - noise - entering our paddocks - bottles thrown into paddocks etc.

Question 2: Are there any changes you would make to the proposed amendments?

Extend the proposition to include Kahuterawa Road entrance, both sides.

Question 3: Do you have any other feedback you would like to give us on this proposed Bylaw amendment?

Please place speed bumps on the entrances to Birch Way, both sides

Thanks for letting us know what you think of our proposed amendments to the Traffic and Parking Bylaw. You can get your submission to us in any of these ways.

Can you tell us why?	All this proposal will do is shift street racing to other areas - you're not addressing the root of the problem. Based on the proposed plan to add restrictions to additional streets if the issue spreads, soon we won't be able to drive anywhere in Palmy after 10pm.
Are there any changes you would make to the proposed amendments?	Install safety cameras and have people fined and vehicles impounded. There are other issues besides speed that occur which could be used to get these people off the roads - eg many have excessive breath alcohol, many of the vehicles break the legal noise limit. In the recent election, someone suggested having an area where people could safely race - that seems like it would seriously help the situation.

Can you tell us why?	The street racer scene in Palmerston North is clearly growing more and more emboldened. It's good this issue is being seriously looked at because when the underground car culture gets too big it inevitably becomes toxic. This was apparent when I lived in Christchurch in the mid 2000s. The boy racer scene down there got so large and out of control peoples lives were at risk. My brother was in big part of that scene and I experienced it first hand a number of times. Initially the restrictions on cruising were met with defiance and non compliance but after a matter of weeks they began to have a positive effect and by the end of that year had seriously dissolved large factions of the scene. My point is these measures will work! Do it now before it gets even more out of control.
Are there any changes you would make to the proposed amendments?	No I think the \$150 fines are enough of a deterrent. I wouldn't have them much higher as that could financially derail the perpetrators, leading them to make continued bad decisions.
Do you have any other feedback on this proposed bylaw amendment?	Nah.

Can you tell us why?	Something needs to be done - not sure this the best solution but it's better than nothing.
Are there any changes you would make to the proposed amendments?	I would add: Staces Road - this has recently become a gathering. There is clear evidence of this. Pinfold Road
Do you have any other feedback on this proposed bylaw amendment?	No

Can you tell us why?	Clearly those selected areas are very small and there should be a legal route to discourage any large group from congregations in these areas.
Are there any changes you would make to the proposed amendments?	I have constant issues with vehicles speeding down my street as it is a little street that links through main streets. I propose that instead of installing expensive speed humps as deterrents, that the reflective 'cats eyes' used to mark centre lines be placed across the street in place where a speed bump would be useful. I know that this has been tried by members of the public in other cities and has had the positive results of vehicles slowing down close to them and in some cases simply avoiding the street entirely. I find the speed and noise tends to be an issue more in the weekends but it can happen on any day or night when one or two vehicles decide to loop around these side streets, often causing their cars to be extremely loud or they make their vehicles backfire constantly, all around the side streets, for half an hour or more before moving to a different set of side streets. I believe the 'cats eyes' placed across the street would definitely reduce the speed and the noise that comes with speed.
Do you have any other feedback on this proposed bylaw amendment?	It's not just the specified areas that are having trouble with congregations of vehicles, as the sound travels a long distance. I can often hear cats racing on the double lane roads such as Main Street, Fitzherbert Avenue, Rangitikei Street and Pioneer Highway. The speed is very concerning, but the noise, while very loud, does pass quickly. The biggest issue is vehicles, especially those with louder exhaust systems, are using the side streets to speed up and slow down again and again and again, so something is definitely needed as something a little bit too annoying to encourage those to discontinue the behaviour.

Can you tell us why?	We need to stop these boy racers and the damage they do to the physical streets and the damage they do to the residents, physically (possibly) and mentally.

Can you tell us why?	<p>All you're going to do is move the problem somewhere else, and restrict passage for law abiding citizens. You think people will just say 'well darn tootn, I guess if we can't go to our favourite road, I guess we'll need to pack it in'. There are hundreds of roads in this city, you going to do this every 6 months until the whole city is under curfew? This is seriously soviet era [REDACTED]</p> <p>How many people, in the dead of night, are going to stumble upon these roads and walk straight into a fine? Ooooooooooooooh. I get it now.</p>

Can you tell us why?	My household is affected by disturbance from racers. It is an issue that causes noise and rubbish pollution and is also dangerous, so it is important to find a solution for the problem.
Are there any changes you would make to the proposed amendments?	The infringement fees seem too low.
Do you have any other feedback on this proposed bylaw amendment?	No.

Can you tell us why?	I agree that some places where the street racing happens is dangerous and loud for nearby residents.
Are there any changes you would make to the proposed amendments?	<p>I would suggest the council or Police look at this from the street racers point of view. They all get their thrills from doing the stuff. It's never going to die down soon sadly to say. Considering that, the Council and Police could work together to come up with a safer solution for this to happen and noise to be kept to a minimum. A lot of the street racers, must work very hard to get the cars they own. So fining, charging and impounding their cars for doing something they enjoy isn't very fair, considering they each make their contribution to society during the week. They get taxed on their hard earned money and that tax money goes towards road repairs and other similar things I believe. They pay for their registrations. So I believe the Council and Police if they were wise and wanted the best for everyone involved, including the street racers who just want their one night of the week where they get to do something they really enjoy as a crowd, then they would look at setting up a specific spot rurally in a farm or something, use some tax money to make this available in multiple places over the country. By doin this and setting up say a large square surrounded by tires for the "skidding" to happen and supplying an ambulance each night and charging each car that comes in a fee of say 20 dollars that can go towards the maintenance of the ground and ambo. By doing this, not only would it encourage the street racers to do what they enjoy and work hard during the week looking forward to it, but it would also strengthen the bond between the community. Instead of Police targeting cars for doing such things, they could encourage it and encourage the cars to be roadworthy by checking the warrants and registrations at the gates to the lot. This would also encourage car meets and stuff to be held here and the Police could feel free to join in to stop any illegal stuff happening. I feel like this would be the safest option as making a law closing streets and imposing fines and impounds, is more likely to cause police pursuits that endanger the street racer, the police officer and the community. Street racers are people too, and believe it or not they work hard as well, I'm sure using some of their tax money and their entry fees could go towards a better and safer community if the council and government gave them a place to be who they are instead of punishing them for doing something they enjoy.</p>

296-2

Do you have any other feedback on this proposed bylaw amendment?	Mentioned above. Instead of targeting each other, why not work together to get the best result for everyone involved and save the reputation of authority figures.
